No. 2431L.R.—The 31st July 1903.—In exercise of the powers vested in him by section 10 of the Sonthal Parganas Settlement Regulation, III of 1872, and section 30 of the Sonthal Parganas Rent Regulation, II of 1886, the Lieutenant-Governor is pleased to direct that the following revised rule should be substituted for rule XXVII of the rules for the conduct of settlement operations in the Sonthal Parganas, published with notification No. 1967L.R., dated the 10th April 1900, in Part I, pages 344 to 346 of the *Calcutta Gazette* of the 11th idem, as amended by notification No. 365T R., dated the 3rd May 1902, published in Part I, page 600 of the same Gazette of the 7th idem:—

Sonthal Parganas.

"During the pendency of settlement proceedings all suits of the kind specified in section 5, Regulation III of 1872, shall be heard and determined by the officers appointed under section 2 of Act XXXVII of 1855, and by the officers of settlement appointed under section 10 of Regulation III of 1872, respectively, in accordance with the following rules; and the Commissioner, the Deputy Commissioner, the Settlement Officer and the Subdivisional Officers, within whose jurisdiction the settlement is carried on, are hereby vested with the appellate and revisional powers specified in the said rules:—

(1) All pending suits, except suits for arrears of rent, shall be transferred to the Settlement Officer for disposal.

(2) All suits instituted after the area is notified for settlement, except suits for arrears of rent, shall be filed before the Settlement Officer, who will either try them himself or make them over to his assistants for trial.

(3) The Settlement Officer may, with the consent of the Deputy Commissioner, make over any case or class of cases for trial to the ordinary Courts having jurisdiction.

(4) Suits for arrears of rent instituted after the area is notified for settlement will be filed before and decided by the ordinary Courts having jurisdiction. If, however, in the course of trying a rent suit, it appears that the rate of rent or the area of the holding or the nature of the tenancy is in dispute, the trying court shall transfer the case to the Settlement Officer for disposal.

If application be made for eviction in execution of any decree for arrears of rent, the case will be made over to the Settlement Officer, whether execution proceedings were taken in the first place either before or after the area was declared under settlement.

(5) In cases tried by Sonthal Courts, the ordinary course of appeal will be followed as laid down in Regulation V of 1893.

If an Assistant Settlement Officer decides the case, there will be an appeal to the Settlement Officer, and if the Settlement Officer decides the case, there will be an appeal to the Commissioner. When the Settlement Officer differs from the Assistant Settlement Officer on appeal, there will be a second appeal to the Commissioner.

In other cases the order of the appellate court shall not be subject to further appeal, but the Commissioner, the Deputy Commissioner, or the Settlement Officer may, of his own motion or otherwise, call for the record of any case decided by a Court under his control, in which an appeal does not lie, or in which, for cause shown to his satisfaction, an appeal has not been preferred within the limit of time prescribed in the succeeding rule, and may pass such orders as he thinks fit.

(6) All appeals must be presented within one month from the date of the decision appealed against."

IRRIGATION DEPARTMENT.

The 4th August 1903.

No. 48.—Notification.—It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal is pleased, under the provisions of section XI of Act V (B C) of 1864, to make the following rules in regard to the Madaripur bhil channel, as defined in this Department Notification No. 128, dated the 26th June 1900.

A draft of these rules has been published in the *Calcutta Gazette* of the dates noted in the margin as Notification No. 35, dated the 16th June 1903, as required by the terms of section XII of Act V.

17th and 24th June, and 1st, 8th, 15th, 22nd and 29th July 1903.

1. Every vessel passing through the bhil channel shall stop at the prescribed toll station, as notified in the schedule of tolls for the purpose of determining the tolls payable

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

„ *II.*—To include all steamers, flats and barges, and such other square built boats as should, in the opinion of the Collector of tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty, shall, for the purposes of these rules, be determined by the following measurements:—

A.—The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

C.—The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder, by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Tolls shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

5. Every vessel shall be furnished at the toll station with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, and the amount of toll charged, shall be entered.

6 This ticket may be demanded and checked by any navigation officer while the vessel is within the limits of the bhil channel, and must be kept on board and at hand for that purpose.

7. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed. Provided that the Collector of Tolls appointed under section VIII of the Act may at his discretion permit vessels belonging to individuals or firms of recognized standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

8. The term "Navigation Officer," as used in Rule 6, shall include the Collector of Tolls appointed under section VIII of the Act and the officer or subordinate of the Public Works Department in charge of the subdivision or section within which the channel is situated.

[Fourth Publication.]

The 14th July 1903.

No. 41.—Notification.— In exercise of the powers conferred on him by sections 78 and 99 (*d*) of Act III (B. C.) of 1876, the Hon'ble the Lieutenant-Governor of Bengal proposes to make the following alteration in item 5 of the Schedule of Rates to be charged for water supplied from the Orissa Canals, as fixed in Notification No. 118, dated the 23rd May 1899, and subsequently modified in Notification No. 141, dated the 1st July 1902.

OFFICE MEMO.

RULES FOR APPEARING AT THE F.A. AND B.A. EXAMINATIONS FOR CANDIDATES FROM THE RAJSHAHI DIVISION, WHO ARE NOT STUDENTS OF ANY AFFILIATED INSTITUTION.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools, and *bonâ fide* masters of English schools, who have served as such for the full period of two academical years, or of six months after the examination of the same class last held by the University, in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations. The applications of school-masters should be accompanied by certificate of length of service from the Secretaries or Managers of the schools in which they are employed, and should reach this office not later than the 6th January 1904. The application of a school-master for permission to appear at the F.A. or B.A. examination should be signed by him in the *presence* of the Secretary or a Member of the Managing Committee of the School in which he is employed. The application should be forwarded to this office for countersignature, together with the Registrar's certificate, to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. examination, as the case may be, and it will be sent back to him (the candidate) who will have to send it, together with the examination fee, to the Registrar of the University *direct*. School-masters are not required to pay any fee for getting their application for permission to appear at either of the abovementioned examinations countersigned by this office.

2. Candidates should read carefully the form of the certificate which this office is required to sign, and should be careful to supply all information and documents required, including the Registrar's receipt in the case of those school-masters who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate.

3. By *bonâ-fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M.E. course.

UNIVERSITY ENTRANCE EXAMINATION.

PRIVATE STUDENTS.

1. *Private students* are those who do not appear from any school or who have been transferred from one school to another after the 31st August without the consent of the Inspector. The term 'private student' includes *schoolmasters*.

2. Private students must appear at the test-examination of one of the following institutions:—

Those from the	At the test-examination of	Date of test-examination.
1	2	3
1. Rajshahi district ...	Rajshahi Collegiate School (with the Principal's permission).	On the dates fixed by the Principal of the Rajshahi College.
2. Pabna ,, ...	Pabna Zilla School ...	14th December 1903.
3. Bogra ,, ...	Bogra ditto ...	
4. Rangpur ,, ...	Rangpur ditto ...	
5. Dinajpur ,, ...	Dinajpur ditto ...	
6. Jalpaiguri ,, ...	Jalpaiguri ditto ...	
7. Darjeeling ,, ...	Darjeeling High School ...	

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 24th November, with the following information, etc.—

From Private Candidates proper.

(*a*) The name of the school in which the candidate last studied.
(*b*) The transfer certificate (in original) granted to the candidate from the same; or
(*c*) In the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.
(*d*) Age of the candidate.

From Schoolmasters.

(*e*) A certificate from the Secretary or Proprietor of the school in which the candidate is serving, to the effect that he has been a *bonâ-fide paid* teacher of the school in which he teaches, and has been so ever since the 1st June 1903. In case of a schoolmaster who has served *in more than one school*, he must produce certificates from the several schools in proof of his having been a *bonâ-fide paid* teacher all along since the 1st June 1903.

Failing to produce the above certificate or certificates, a schoolmaster will be subject to the rules applicable to *bonâ-fide* private candidates, as given above.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test-examination.*

5. The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 2nd January with their applications for admission to the Entrance examination, and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office.*

8. Private students will understand that the test-examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

ORISSA DIVISION AND THE ORISSA TRIBUTARY MAHALS.
OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA DIVISION.

Rules for appearing at the F.A. and B A. Examinations in 1904 for candidates from the Orissa Division and the Orissa Tributary Mahals who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *bonâ fide* teachers of recognised English schools who have served as such for the full period of two academical years, or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations. All applications from school-masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1904. The application of a school-master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Division, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Division will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *bonâ fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

Rule 104.—In line 1 *after* "dispensaries" *insert* " in Class II-B."

Add the following rule:—

Rule 104A.—For hospitals and dispensaries in class II-A a separate banking account is allowed at the Treasury. All receipts of these institutions will be paid into the Treasury direct by the Managing Committee, and all payments on account of them will also be made by the Committee direct without the intervention of the Municipal Office, either from the imprest in the hands of the Medical Officer or by cheques drawn by the Secretary or President upon the Treasury. The income from the endowments and investments will, however, be realised by the Municipality and remitted to the Treasury for credit to the account of the Dispensary Fund, an intimation being at the same time sent to the Managing Committee.

Before the 5th of the following month, the Managing Committee will furnish the Municipal Office with an account showing all the receipts and charges of the Dispensary Fund and a memorandum reconciling the closing balance of the account with that shown at credit of the fund in the pass-book. On receipt of this account, the transactions will be incorporated in the accounts of the Municipality under the proper heads.

The credits shown in the accounts of the Committee on account of contributions paid by the Municipality should be taken under the head "Advances" to which the corresponding payments in the Municipal accounts should also be debited.

No. 2021Medl.—The 29th July 1903.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following modifications in the Rules for the management of Charitable Hospitals and Dispensaries, published under Government Notification, dated the 5th January 1892, at pages 6 to 11 of the *Calcutta Gazette* of the 6th idem:—

Rule 25.—Omit the whole.

Rule 26.—Omitthe words "all subscriptions, ... shall be kept."

Insert the following additional rules:—

Rule 26A.—Dispensaries in class II are subdivided for purposes of Account into two classes: class IIA—Dispensaries for which separate banking accounts are allowed to be opened in the Treasury with the sanction of the Government, and class IIB—Dispensaries for which separate accounts are not allowed at the Treasury, but the funds of which are kept under the direct control of the local authority.

(*a*)—CLASS IIA—DISPENSARIES.

(1). All subscriptions and donations shall be collected by the Managing Committee, and shall be paid into the Treasury for credit to the Dispensary Fund. The income from endowments and investments shall, however, be realised by the local authority, and shall be remitted by it to the Treasury for credit to the Dispensary Fund, an advice being sent at the same time to the Managing Committee. If any cheques or remittance orders are received, they should be sent intact to the Treasury for *per contra* credit to the Dispensary Fund.

All claims should be discharged either by payments from the imprest placed by the Committee in the hands of the Medical Officer in charge or by cheques drawn by the Secretary or the President upon the Treasury in favour of the actual payees. The imprest in the hands of the Medical Officer shall not ordinarily exceed Rs. 25.

(2). If it is necessary for the local authority to make a contribution to supplement the Dispensary Funds, such contribution should be paid in quarterly instalments on the first day of each quarter by cheques which should be made payable by transfer to the credit of the dispensary account in the Treasury These amounts will be credited in the cash-book of the Managing Committee as contribution from the local authority by *per contra* debit as remitted to the Treasury.

(3). The Managing Committee shall keep a cash-book in Form No. IX-A, in which shall be entered all receipts and payments with necessary details as soon as the transactions occur. The cash-book should be closed every month, and a memorandum recorded reconciling the balance with that shown in the pass-book. A copy of the monthly account supported by vouchers for the payments made and signed by the President of the Committee shall be forwarded to the office of the local authority before the 5th of the succeeding month for incorporation in their accounts.

The transactions of the Dispensary Fund with the Treasury will be shown in a pass-book, which will be supplied gratis by the Treasury. The pass-book shall be closed and balanced at the end of every month. It should be examined by the Secretary of the Committee every time that it is received back from the Treasury to see that all the transactions have been duly entered therein. At the close of every month the Treasury Officer will prepare a memorandum showing the opening balances, monthly receipts and payments and the closing balances of the several Dispensary Funds banking with the Treasury, and enter this memorandum in the pass-books of the local authority to which the dispensaries belong, to enable it to verify the balances.

(*b*)—CLASS IIB—DISPENSARIES.

(1). As regards these dispensaries, the interest on the investments will be accounted for by the local authority direct. But all donations and subscriptions will be collected by the Managing Committee and paid into the office of the local authority, and there accounted for in the usual way.

(2). All claims in respect of these institutions shall be either paid from the imprest in the hands of the Medical Officer in charge, or discharged by the local authority concerned on bills duly passed by the Managing Committee, by issue of cheques upon the Treasury.

(3). The Managing Committee shall keep a monthly account showing all transactions of the dispensary, including the contributions payable by the local authority, and forward a copy of this account to the local authority at the end of every month for comparison with the accounts kept at the office of the local authority concerned.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the village of Hiradharpur, pargana Chandrakona, at 12 o'clock noon, on the 20th August 1903, corresponding with 3rd Bhadra 1310, Bengali era.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset prices, which have been fixed by the Collector. The purchaser of these estates will be considered as the proprietor of the estates, and the entire proprietary right of Government in such estate will be transferred to him permanently free of rent.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

The Hon'ble MAHARAJA MANINDRA CHANDRA NANDY, of Cossimbazar.

The Hon'ble MR. H. ELWORTHY.

The Hon'ble MR. A. A. APCAR.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR.

The Hon'ble RAI TARINI PERSHAD, BAHADUR.

The Hon'ble MAHARAJA SIR RAVANESHWAR PRASHAD SINGH BAHADUR, K.C.I.E., of Gidhour.

NEW MEMBERS.

The Hon'ble MR. SLACKE, the Hon'ble MR. MACPHERSON, and the Hon'ble MR. SHIRRES took their seats in Council.

QUESTIONS AND ANSWERS.

SUBORDINATE JUDGE FOR NOAKHALI.

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, asked—

Has the attention of the Government been called to a letter of the Noakhali correspondent, published in the *Bengalee* of the 28th June, 1903, regarding the inconvenience and harassment caused to litigants, owing to the delay in the disposal of Civil Suits by the District Judge of Noakhali, in consequence of the greater portion of his time being taken up by Sessions Cases and Criminal Appeals?

In view of the above, will the Government be pleased to post a Subordinate Judge at Noakhali; or make some other arrangement to redress the grievances of the people?

The Hon'ble MR. MACPHERSON replied:—

"The Lieutenant-Governor has read the letter in the *Bengalee* newspaper to which the Hon'ble Member refers.

"The question of appointing a Subordinate Judge in Noakhali has been for some time under the consideration of the Hon'ble High Court and the Bengal Government, and the matter is now before the Government of India."

CIRCULAR ISSUED BY THE DISTRICT MAGISTRATE OF MYMENSINGH

The Hon'ble MAULVI SERAJ-UL-ISLAM, KHAN BAHADUR, asked—

Has the attention of the Government been called to an article in the *Amrita Bazar Patrika* of 6th June, 1903, headed "A most dangerous Circular"? Is it a fact that such a Circular has really been issued by the District Magistrate of Mymensingh to the Subordinate Magistrates of the district? If so, does not the Government think that it is calculated to interfere with the judicial independence and discretion of the Subordinate Magistrates?

The Hon'ble MR. MACPHERSON replied:—

"The article to which the question refers was brought to the notice of the Lieutenant-Governor. The District Magistrate's attention has been drawn to the High Court's Circular Order of the 16th June, 1900, and he was requested to withdraw any circular which he may have issued in transgression of that order."

RE-ORGANIZATION OF THE SUBORDINATE EXECUTIVE SERVICE

The Hon'ble RAI TARINI PERSHAD, BAHADUR, said—

The Hon'ble the Financial Secretary, in laying on the table the Bengal Budget Estimate for 1903-1904, observed: "The re-organization of Sub-Deputy Collectors has not yet been finally sanctioned"; and in that estimate Rs. 1,00,000 was allotted for the improvement of the status of the Sub-Deputy Collectors, one-half of which was shewn under the head of "Land Revenue", and the other half under the head of "Law and Justice"; and further in paragraph 30 of the explanatory notes on that estimate it was stated that "the increase under (1) is due to larger provision made under salaries for the proposed re-organization of the Subordinate Executive Service, which is awaiting the sanction of the Government of India." Will the Government be pleased to lay on the table the scheme for such re-organization, shewing how it has proposed to spend the said sum of Rs. 1,00,000, and to state whether such scheme has since received the sanction of the Government of India?

The Hon'ble MR. MACPHERSON replied:—

"The scheme has not yet received the sanction of the Government of India, and it is not at present possible to publish the details of it, which are still under careful consideration."

MISCONDUCT OF RAILWAY EMPLOYÉS AT ASANSOL STATION.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked—

Has the attention of Government been drawn to a scrap appearing in the *Amrita Bazar Patrika* of 13th June, 1903, complaining of the oppressive and impertinent conduct of Railway employés towards respectable passengers, and, amongst them, a Sub-Deputy Magistrate at the Asansol station, travelling with his family?

The Hon'ble MR. INGLIS replied:—

"The East Indian Railway authorities have instituted inquiries into this matter, and will no doubt deal with it effectively."

WAITING-ROOM FOR NATIVE LADIES AT ASANSOL STATION.

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked —

Is the Government aware that there is no suitable waiting-room for native ladies at the Asansol Railway station, and that a memorial has been presented to the East Indian Railway Authorities with a view to remove this want?

Will the Government be pleased to direct the Railway Authorities to arrange for some sort of *purda* accommodation on the down platform of the Asansol Railway station for native ladies, who are put to very great inconvenience on this account?

The Hon'ble MR. INGLIS replied:—

"The Lieutenant-Governor is informed that there is already a room set apart for native ladies on the up platform, and one on the down platform is being provided."

SUPERINTENDENT OF STAMPS AND STATIONERY

The Hon'ble RAI TARINI PERSHAD, BAHADUR, asked—

Will the Government be pleased to state whether, in disposing of the post of Superintendent of Stamps and Stationery on retirement of Mr. Manson, it is not intended to give preference to the claims of such members of the Executive Branch of the Provincial Service as have, by their ability, experience and meritorious work, fitted themselves for that post?

The Hon'ble MR. SHIRRES replied:—

"The whole question of the organization of the Stamps and Stationery Department, and of the status of the officer who may, in future, be appointed to hold charge of it, is now under consideration. Until the question is decided, Government is not in a position to say how future incumbents of the post of Superintendent will be recruited."

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1903.

The Hon'ble MR. SLACKE in presenting the Report of the Select Committee on the Bill to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897, said:—"I have now, Sir, the honour to present to this Council the Report of the Select Committee on the Chota Nagpur Tenancy (Amendment) Bill, 1903, and in so doing would, with your permission, make some remarks with regard to certain of the matters referred to in the revised Bill. Copies of the Bill, as originally introduced, were sent to all those most interested in the districts to which it applies. The Bill itself was considered at a very representative meeting held at Ranchi in April last. The views then expressed have been duly considered, and the

Hon'ble Members of the Select Committee have been most materially assisted by the gentleman who will shortly take his seat in this Council as the Member for Chota Nagpur.

"In the Statement of Objects and Reasons attached to the Bill, as introduced into this Council, it was stated that the proposed amendments were designed to meet certain objects, eleven in number. Of these, one has been abandoned by the Select Committee, *viz.*, that to prevent the exacting of more than customary rates of rent from non-occupancy raiyats. The reasons for this have been stated in the Report. Five additional objects have been provided for in the clauses of the revised Bill. They are the following: (1) to make certain changes in procedure; (2) to provide for an appeal against orders passed in execution of decrees; (3) to grant the right of a second appeal to the High Court; (4) to remove, as far as possible, the causes which have tended to foster the agitation that has been disturbing the *Mundáris* for so long a time; and lastly (5) to bring the procedure of the Commutation Act of 1897 into line with that followed by the Settlement Officer, with regard to the record-of-rights when a survey and record-of-rights is being prepared, and predial services, etc., have to be compulsorily commuted.

"The first essential with regard to the admissibility of a proposed change was whether urgency could be pleaded in its favour. Unless this could be satisfactorily demonstrated, the adoption of a suggested amendment has not been recommended to this Council. Failing the necessary data which cannot as yet be furnished by the Settlement Officer, and which will not probably be fully available for a few years, it is impossible now to say to what extent the principle contained in the term 'settled raiyat' should be applied to Chota Nagpur. This affects the provision in the original Bill for facilitating the acquisition of occupancy rights. Although imperfect, it has been retained because it met some cases. Any attempt to improve it further would have led to the adoption, in some shape or other, of the principle of the 'settled raiyat,' a subject which, as I have just said, cannot be yet discussed.

"But advantage has been taken of the present opportunity to embody in the Bill a custom which is generally followed by all good landlords, *viz.*, to declare that the holder of lands known as *Korkor* or some other synonymous term has a right of occupancy in them. I would explain that *Korkor* is the term used to designate a field which a raiyat, by his own efforts, has converted from upland into riceland by terracing, and it presupposes the existence of a village which the term *khunt katti* does not. Clause 4 of the Bill restricts the sale or transfer of a raiyat's holding. The necessity for these restrictions must be explained. The right of a raiyat to sell his holding is not recognized in the Division, save in pargana Dhalbhum, in the district of Singhbhum.

"But though not recognized, raiyats are gradually more and more, though slowly, beginning to sell their holdings, and in course of time a custom will be established, unless measures are now taken to check it. Not to check the growth of any such custom would most probably result in the reduction of a vast number of the raiyats to the condition of serfs. There are already signs that this may happen, for in Dhalbhum the purchases by *mahajans* of raiyati holdings for the purpose of subletting them again at heavy rentals are increasing rapidly. To prohibit sale merely would not suffice.

"There are two recognised systems of usufructuary mortgage, *viz.*, the *zarpeshgi* and the *bheoghut bundha*. Under the former of these the profits arising from the land go merely to repay the interest due. Under the latter such profits extinguish both principal and interest. The former system is a most dangerous one among an aboriginal people, for though the debtor—a man who never thinks of the morrow and is always carried away by impulse—does not part with his land out and out and knows that he can get it back again on payment of the principal, yet in many cases such repayment is quite outside the man's means. Thus the *zarpeshgi* system tends to create a landless race, and the provisions in the Bill will, if accepted, do away with it.

"Of the danger of allowing transfer a good example is to be found in Ranchi in the case of the tenures registered under Bengal Act II of 1869. Of the tenures with which this Act dealt, one class, known as *bhuinharri*, was

in reality merely holdings, and consisted of small areas of a few acres each cultivated by the aboriginal holders themselves. It was then held that the right of transfer attached to such tenures. The result has been ruinous, for to-day but very few are in the possession of the original holders or their decsendants, having been parted with to others to obtain loans.

"The section in the original Bill which prohibited the sale of a raiyati holding, under any circumstances, was copied from the Central Provinces Act. In the Bill relating to that Act provision was made for the sale of a raiyati holding in execution of a decree for arrears of rent, but this was abandoned in the interests of the landlords who considered that the power of ejecting a defaulter was more to their advantage than that his holding should be brought to public sale. Here the converse is the case. The good landlords in Chota Nagpur consider that ejectment for failure to pay rent in the case of an occupancy raiyat is too harsh a remedy, and they point out that unless sale in execution of a decree for arrears of rent accruing on the holding itself is allowed, the defaulter will inevitably lose a portion of the value of the labour which he and his predecessors have put into the holding.

"Chota Nagpur is an undulating series of plateaus full of valleys, which in course of time have been, through the exertions of the tenants, terraced and converted into rice-fields. The gross value of the labour by which this conversion has been effected is immense. On the other hand, the total prohibition of sale and the retention of ejectment as the remedy has in one case been welcome as a means for getting rid of aboriginal tenants, and introducing in their places others who are better cultivators. Under these circumstances, I trust that the course selected by the Select Committee will commend itself to this Council, *viz.*, in the case of an occupancy raiyat to prohibit ejectment for failure to pay rent and allow a remedy by the sale of the holding, but only for arrears of rent accruing on the holding itself.

"To facilitate the obtaining of loans from Government under the Loans Act, it is provided that a holding for which a loan may have been granted can be sold to liquidate the debt. For this there is a precedent in the Central Provinces Act.

"In favour of the retention of the penalties provided in clauses 5 and 6 of the Bill with regard to the levy by landlords of anything in excess of what is legally due and to the non-giving of receipts, I would bring to the notice of this Council that much of the discontent that now characterises the relations between landlords and tenants in some parts of the Chota Nagpur Division, especially Ranchi, is due to the absence of any practical remedy to check such exactions, and to ensure that receipts are given. It is true that under the present Act a raiyat in the case of the landlord levying anything in excess of what is due, has a remedy by suit, but experience has fully shown that to give an aboriginal a remedy by suit is to give him no remedy at all. The tenant who has the means to institute a suit is not the tenant who will be oppressed, and the vast majority of the tenants in Chota Nagpur are persons who have not the means to go to the Courts.

"The preparation of a record-of-rights, such as is now being made, will provide landlords with what they have never hitherto possessed, *viz.*, data that are beyond suspicion and which can be utilized for the enhancement of rents. I have already pointed out that the law, even when amended as proposed, will not be satisfactory with regard to the question of occupancy right, and that nothing at present can be done to remedy this.

"The existing law is also sadly wanting in safeguards as to enhancement of rents. These two defects cannot be remedied until the work now being carried on by the Settlement Officers has progressed far enough to furnish the requisite data. The Settlement Officer at present is not allowed to enhance or fix fair rents, but is restricted to recording the existing rents, including settlements and predial services. Until these defects in the law have been removed, it is clear that unless some protection to the tenantry is now given much injustice may be done, and in all probability the people, seeing what will result, would probably stop any further continuance of the Settlement Officer's work. The periods provided in the original Bill were fifteen years in the case of occupancy raiyats and five for non-occupancy. To the Select Committee it appeared that for the purpose in view fifteen years for the former

was too long a period, and seven has been suggested. It will be for the Council to decide whether this is sufficient.

"It may be asked why any protection should be given to non-occupancy raiyats. To this I would reply that so far as the information at the disposal of the Settlement Officer goes, the majority of the raiyats, unlike what is the state of affairs in Bengal, are, as the law now stands, non-occupancy raiyats. This is due to the machinations of the petty landlords, and when the question of occupancy right comes to be dealt with finally, I feel sure that the bulk of those who have now to be recorded as non-occupancy raiyats will be converted into occupancy raiyats. It is to the interest of the petty landlords to prevent the growth of occupancy rights, and this, owing to the defective state of the law, as well as the ignorance and poverty of the people, they are able to a very great extent to effect.

"Under the existing law (section 34) if the transferee by way of succession or inheritance in the case of a certain class of tenures fails to register his transfer in the landlord's *sarrishta* within a given time, the landlord can apply to the Deputy Commissioner to be put in *khas* possession of the tenure, such application being dealt with by a summary procedure. This provision in practice was found generally unworkable; for the objection almost invariably raised was that the tenure did not come within the class to which the law referred. Such objection the Deputy Commissioner naturally refused to decide summarily, and referred the parties to the Civil Court. It has therefore been considered by the Local Authorities quite unnecessary to retain this provision in the Act, and the Select Committee, agreeing with them, have proposed to strike it out.

"The zamindars, who are most concerned, have, except in one instance, agreed to this, and the Maharaja of Chota Nagpur, whose estate covers about 8,000 square miles of country, considers that the retention of such a provision is inadvisable. The exception is the proprietor of the Padma or Ramghar estate, which includes about two-thirds of the district of Hazaribagh. In this estate there are many tenures, of which the terms of the grants give the grantor the right of entry on failure of the grantee to pay the rent due. Such right the gentleman in question considers will be imperilled if the section in question be removed. The Select Committee failed to see how this can result. Moreover, if this section be elided, a means for blackmailing will be removed.

"At present the grantee of a resumable tenure or his direct heir sells the tenure to another person, reserving a nominal rent charge. The purchaser can not register his sale in the zamindar's *sarrishta*, for the zamindar would by allowing this lose his right to resume the tenure on the happening of the contingency which gives him the right. On the death of the seller his heir, on the threat that he will not register his transfer by inheritance and thereby give the zamindar an opportunity to resume the tenure, effectually in some instances blackmails the purchaser, or the heir goes to the zamindar and in collusion with him omits to register his succession and so gives the latter the requisite opportunity. This state of things, in the opinion of the Maharaja of Chota Nagpur, should not be allowed to continue. In lieu of the existing procedure the revised Bill simply provides for the registration in the landlord's *sarrishta*, on payment of a fee of the transfer of any tenure, subject to certain provisos in order to safeguard the landlord's right to resume if the tenure is one liable to resumption. Inability to sue for arrears of rent is the penalty imposed on a transferee for failure to register, but no time, as proposed in the orginal Bill, is laid down within which he must register; for if that were done then in case he omitted to comply with it he could for ever be debarred from suing for arrears of rent.

"Clause 23 of the Bill provides a most momentous change in the interests of the landlords as regards tenures, and also a procedure for the sale of raiyati holdings. In Chota Nagpur there is a very large number of tenures resumable by the grantor or his successor in interest on the happening of a certain contingency, very often the failure of male heirs in the male line of the original grantee. Now the grantees, or their descendants, have in many instances parted with their grants to others, reserving for themselves some nominal amount of rent. The rents and cesses payable to the landlord fall into arrears. The landlords, for fear of losing their rights to resume, cannot sue the transferees for the arrears, and it is useless to sue the heir of the original

grantee. Consequently for some time the landlords have been unable to realise their rents and cesses, and are losing very large sums of money. The changes now proposed to be made have the effect of enabling the landlord to sell up the tenures without imperilling their right to resume where they have such right.

"I now come to the portion of the Bill dealing with the subject of *Mundari khunt kattidari* tenancies. The *Mundaris* are an aboriginal people, the first so far as we know to occupy the Ranchi plateau. They number about four lakhs, are now mostly congregated in the eastern part of the Ranchi and the western part of the Singhbhum districts. Others than *Mundaris* hold *khunt katti* tenancies in the Chota Nagpur Division, but as yet nothing has transpired to show the necessity for protective legislation with regard to them. In the Bill as originally drafted, no provisions exist analogous to those that have now been inserted. Their omission was due, not to any failure to recognize the need of such legislation, but because the materials on which to base the requisite provisions had not been collected. To obtain the information, a careful and minute local inquiry was needed. This Mr. Lister, the Settlement Officer, has, during the working season of the past and part of the current year, carried out.

"Owing to the non-recognition of their rights, the *Mundaris* for more than three-quarters of a century have been in a state of agitation, which from time to time has culminated in outbursts. In 1822 a horde of middlemen was let loose over the country by the then Maharaja of Chota Nagpur. These persons were up-country men. They were ignorant of, or oblivious to, the rights and customs of the aborigines, among whom naturally much discontent arose. This found a vent in the great *Munda* rebellion of 1832-1833, the immediate cause of which was an attempt by the Thakur of Sonpurgarh to destroy *khunt katti* rights in Bandgaon and Kochang in the district of Ranchi. The attempts to destroy the *khunt kattidars'* rights did not then cease, and they were the cause of the disturbances between landlords and tenants in that district in the year of the Mutiny. Both sides took advantage of the disorder that then prevailed—the landlords to oust the *khunt kattidars* who were holding at low permanent rentals, the *khunt kattidars* to recover the *khunt katti* lands which the landlords had previously succeeded in making *rajhus* or *manjhihas*, *i.e.*, raiyati or *sir*.

"Eventually the Chota Nagpur Tenures Act of 1869 was passed, and effected some improvement. But it omitted to deal with all the privileged lands, as it took no notice of intact *khunt katti* villages. This omission left such villages at the mercy of the spoliator. The destruction of the *khunt katti* tenancies went on, and the discontent thereby created brought about the outburst of 1888, when what is locally known as the *Sardar Zarai* began, and has not yet ceased. Utilising the bitter feelings of the *Mundaris*, some of their fellow-clansmen—they came to be known afterwards as *sardars*—persuaded the people that the Hindus had no right to the lands, that the lands belonged to the *Mundaris*, that no rents should be paid, and that the Sovereign had given a decree to this effect. The outburst that occurred at the time was put down, but it again broke out in 1899-1900 under the leadership of one Birsa, who styled himself a God.

"This prolonged disaffection is the reason that has led Government to have a survey and record-of-rights made of the *Mundari* country. But if steps are not taken to safeguard by legislation the rights of those people and to secure the finality of the record-of-rights, the latter by itself will not suffice to quieten the agitation. As long ago as 1839 it was reported that unless these people are protected in the possession of their lands, we never can be certain of the peace of the country. Once the necessary facts have been obtained, as is now the case, such legislation cannot be delayed, because the attacks which have been made on those rights so pertinaciously and for so long a time will be carried on with a greatly increased vigour, owing to the need of acting before the law can intervene.

"A *khunt kattidar* is the founder or the male descendant in the male line of the founder of the village in which are situated his *khunt katti* lands.

"The tenancy is of two kinds, the difference between them being merely one of area. It is either the tenancy of the whole brotherhood, the descendants

of the original founder, or that of an individual member of the brotherhood over the lands in his immediate possession.

"The Settlement Officer, owing to the burial custom of the *Mundaris*, can easily ascertain whether the claim to hold certain lands as *khunt katti* is true or not. No *Mundari* can rightly be buried save in the burial ground of the village of which his ancestor on the paternal side was the founder. When a *Mundari* wished to found a new village he either alone or with some of his kinsmen on the paternal side obtained the jungle tract he desired. The area so acquired was invariably large, in some cases extending to square miles. His object was to bring by himself, or through his male descendants, portions of it under cultivation, but it was open to him or his male descendants acting jointly, to give portions to other *Mundaris* either to cultivate as raiyats or to establish other *khunt katti* villages. The system is one which originated long before the advent of the Hindus into Chota Nagpur. Originally no rent was payable, but this was changed. Rent and services came to be demanded, and were given. This rental was, and is in most cases a permanent one, and cannot be enhanced save under certain circumstances as given in section 19 of the existing Act.

"It has therefore been found, *firstly*, that the landlord has no power of control over the internal affairs of the village. *Secondly*, that the *khuntkattidars* of a village must be the male descendants of one family, and hence members of the same *killi* or *gotra*. *Thirdly*, that the tenancy is not a tenure or a raiyati holding in the sense that now attaches to those terms, but that it partakes, to some extent, of the nature of both. *Fourthly*, that where the pure *khuntkatti* system prevails there is no recognized system of transfer, save (*i*) to men of the same race, and that only for cultivation, or (*ii*) to *mahajans* temporarily for financial needs. *Fifthly*, that a transfer requires the joint consent of the brotherhood. *Sixthly*, that the resident male descendants of the original grantee have equal rights. *Seventhly*, that the rental can only be enhanced under the conditions given in section 19 of the Act.

"For the purposes of village administration it is necessary that there should be an executive and also a spiritual head. The former is the *Munda*, and the latter the *Pahan*. The grantee, if alone, combined both offices, and on his death his eldest son became the *Munda*, and his second son the *Pahan*. These posts became as a rule hereditary in the families of these sons. The *Munda* is the spokesman and representative of the brotherhood in secular matters relating to the village, and so far as the brotherhood is concerned has no greater rights than any of the other members. But in his name the village came to be registered in the *sarrishta* of the landlord, and hence arose one of the causes that has led to the disintegration of so many of these *khuntkatti* villages and the discontent of the *Mundaris*. Seeing that the tenancy was in the name of the *Munda* only, the Courts treated him as a tenure-holder and the other members of the brotherhood as his tenants. Consequently when the rent fell into arrears he alone was sued, and his supposed rights sold. On getting possession the purchaser, an alien, proceeded to treat the other members of the brotherhood as if they were raiyats or even as mere tenants-at-will. The knowledge of this has also induced many *Mundas* themselves to destroy the rights of their weaker brethren, and thereby gradually obtain for themselves the position of petty zamindars.

"Wherever in a *khuntkatti* village the process of disintegration has set in, there will be found some lands in the possession of the descendants of the original founder and held by them as *khuntkatti* lands. Such portions of land were those that were registered and dealt with under the name of *bhuinharri* lands by the Special Commissioners who carried out the provisions of the Chota Nagpur Tenures Act, 1869. Babu Rakhal Dass Haldar, an officer, who for over nine years was engaged on this work, described such lands as the remnants of the old *khuntkatti* tenures.

"As I have already said, the Act to which I have just referred did not provide for the registration of whole *khuntkatti* villages, though their nature and that of the *bhuinharri* lands was the same. In 1871 Mr. Oliphant, then Deputy Commissioner of what is now known as Ranchi, recommended that a simple demarcation with registration should be made of all such *khuntkatti* villages in order to make the holders secure in the possession of their holdings.

But Colonel Dalton, the then Commissioner, thought this would be exceedingly difficult, except as part of a regular revenue survey of the district. Accordingly the proposal was rejected by Government on the ground that nothing had occurred to bring the *khuntkattis* to special notice. It is much to be regretted that no such survey and registration was then effected. For since 1871 many villages, then wholly *khuntkatti*, have ceased to be such. The work of destruction has been chiefly effected through the agency of the Courts assisted by a political agitation in the shape of a refusal to pay rent and by the greed of the *Mundas*. Such villages became what, for want of a better term, I can only call mutilated *khuntkatti* villages. They are to be found in all stages of decay, but in each are lands held by descendants of the founder and claimed as *khuntkatti*. I have refrained from using the term *bhuinharri* to describe such lands because since the passing of the Act of 1869 a certain legal significance has become attached to that term, which it is not desirable to adopt here. Apart from this, however, the terms are really synonymous. They were so employed by Dr. Davidson in 1839, and are still so used by the people in the south-east of Ranchi.

"The sections in the revised Bill with regard to *Mundari khuntkattidari* tenancies embody what the Select Committee, after hearing and examining Mr. Lister, consider to be essential in order to allay, as far as possible, the agitation which has been going on for so long a time among the *Mundaris*. Their acceptance will greatly weaken the agitation, but will not satisfy the extreme party of the *Mundaris*, whose wishes are impossible of attainment, as they want the Government to go back to what, in their opinion, was the state of the country before the Hindus entered it.

"The objects it is desired to secure are (1) to prohibit sale; (2) to stop all forms of mortgage save that known as *bhoghut bundha*, and thereby prevent these savages becoming the serfs of money-lenders; (3) to follow recognized custom and allow certain forms of transfer to other *Mundaris;* (4) to invest the Deputy Commissioner with power to give effect to this prohibition of sale and certain restrictions on transfer; (5) to provide for the realization of arrears of rent; (6) to secure the finality of the record-of-rights. The joint and individual responsibility of the members of the brotherhood of a *Mundari khuntkattidari* tenancy with regard to the rent will be noted in the record-of-rights as well as the nature of the right, whatever it may be, of the landlord to resume. As to prohibition of sale, I would point out that the idea of sale is repugnant to the *Mundaris*, wherever they have not come under the influence of alien theories. Writing in 1871, Mr. Oliphant, whom I have previously mentioned, advocated the enforcement by law of the prohibition issued in 1832-33 by Captain (afterwards Sir Thomas) Wilkinson, the Governor-General's Agent, forbidding *Mundars* to part with their lands to foreigners or aliens. Speaking of the rules under the Chota Nagpur Tenures Act in relation to *bhuinharri* lands, Mr. Webster, I.C.S., in 1875, pointed out that the right of transfer thereby granted was an innovation. Writing in 1880, Babu Rakhal Das Haldar, to whom I have already referred, stated with regard to *bhuinharri* lands that where they were held jointly or under the control of a single Head *bhuinharri*, no transfer can be made unless with the consent of all the members. The procedure devised for the realisation of arrears of rent in the case of tenancies for which a record-of-rights has been prepared will for the first time give the *Munda* a practical means to compel defaulting members of the brotherhood to pay up their quotas. Hitherto he was quite unable to do this, as he had not the means, for the cost of a suit was prohibitive, since in individual cases the sums due amounted to only a few annas. Hence when through the advice of the *sardars* the members of the brotherhood refused to pay any rent the *Munda* was helpless, and when the *Munda's* own credit no longer sufficed to enable him to raise the requisite sum, the tenancy was sold up. Under the powers now proposed to be given, the Settlement Officer will be able not only to secure for the members of a *Mundari khuntkatti* brotherhood in an intact *khuntkatti* village the safe enjoyment of their tenancy, but will also be able to protect from further molestation the *Mundaris* who are the descendants of the original founder of a village and hold *khuntkatti* lands in mutilated *khuntkatti* villages.

"It may be asked why not, instead of these sections, employ the Chota Nagpur Tenures Act of 1869? To that I would reply that this Act either does not go far enough or goes too far. It does not provide for intact *khuntkatti* villages. It provides no prohibition against sale. It does not regulate transfer other than sale. It does not provide for recovery of arrears of rent. It treats such tenancies as tenures, which they are not. Lastly, it provides for retrospective effect, and that in the present instance could not be asked for. I would here read to the Council what the Settlement Officer states on the subject, since it describes exactly what is intended to be done:—

'In other villages the descendants of the *khuntkattidars* are treated as ordinary raiyats by the *Munda* or by the Dikku zamindar. Here, too, we must ascertain what lands they have continued to cultivate from *khuntkatti* days, and record them as *khuntkatti*. Even if the zamindar has enchanced the rent of such lands, contrary to the customary rights of the cultivators, whilst we cannot repair the injury, we can prevent future wrong-doing by recording the real nature of the lands.'

"Turning to the proposed amendments in the Commutation Act of 1897 (Ben. IV of 1897), it will be seen that in the revised Bill certain changes in procedure are proposed where a survey and record-of-rights is being carried out, and Government has issued an order under section 5 of the Act for the compulsory commutation of *rakumats* or payments in kind and predial services. The commutation of these *rakumats* and services having been decided on, the experience gained by the Settlement Officer shows that unless the procedure under the Act is assimilated to that for the record-of-rights, a large part of the work will have to be done twice over, and as the cost of commutation will have wholly to be met by the landlords and tenants, this will entail on them a heavy burden. To save this, which for the district of Ranchi alone would come to some lakhs of rupees, the change in procedure has been suggested."

The Council was adjourned to Saturday, the 1st August, 1903.

NEW ZEALAND—North Island—Port Nicholson.

Evans bay—Rock, Buoy, Beacon.

The British Admiralty has given notice (No. 520 of 1903) of a rock in Evans bay, port Nicholson, which dries at low water, situated with the northern end of the Barracks south of Halswell point bearing S. 68° E., distant $1\frac{6}{10}$ cables, and Halswell point N. 21° E.

This rock, about 70 yards in length in a north-easterly and south-westerly direction, has been marked by a can buoy, painted red, in a depth of 24 feet off its south-western end.

An iron beacon has been erected on the ledge extending from the first point to the southward of the above rock, and is situated with the northern end of the Barracks bearing N. 62° E., distant $1\frac{7}{10}$ cables, and mount Crawford S. 64° E.

Approximate position of northern end of the Barracks, lat. 41° 17½′ S., long. 174° 49¾′ E.

Tsungming crossing and Harvey point channel—Buoys altered

THE British Admiralty has given notice (No. 540 of 1903) that the undermentioned buoys in the Tsungming crossing and Harvey point channel have been altered :—

Tsungming crossing—

(*a*) The West spit buoy, painted in red and black vertical stripes, has been replaced by a light buoy painted in a similar manner, exhibiting a *white occulting* light *every six seconds*, moored in a position from which Chung Pao Sha quarantine beacon bears S. 44° E., distant 2$\frac{1}{10}$ miles, and the Cupola S. 69° W.

(*b*) The East entrance buoy, painted black, has been replaced by a light buoy painted in a similar colour, exhibiting a *white occulting* light *every six seconds*, moored in a position from which Chung Pao Sha quarantine beacon bears S. 61° W., distant 5$\frac{4}{10}$ miles, and the Two trees N. 45° W.

Approximate position, Quarantine beacon, lat. 31° 26½′ N., long. 121° 31′ E.

Harvey point channel—

(*c*) The south-east spit buoy, situated about 4¾ miles to the westward of Pien Tan Sha beacon, has been replaced by a light buoy, painted black, exhibiting a *white occulting* light *every six seconds.*

Approximate position, lat. 31° 36′ N., long. 121° 18′ E.

The above occulting lights show thus:—light, *four seconds;* eclipse, *two seconds.*

The present direction of Tsungming crossing is about N. 80° E and S. 80° W., the least depth at its eastern end being 3¼ fathoms and at its western end 4¼ fathoms at low water. The northern edge of Tsungming bank is marked by two black buoys placed at equal distances between the east Entrance light buoy and the West Spit buoy.

Bombay harbour—Changes in Government moorings.

NOTICE TO MARINERS No. 73 of 1903, issued by the Bombay Government, is republished.

The following changes have been made in Government Moorings:—

Moorings Nos. 2 and 3 have been removed and a new No. 2 placed about half way between the old position of the two buoys removed.

The buoys have been renumbered in accordance with the change, old No. 4 now becoming No. 3 and so on, No. 10 becoming No. 9, the last number.

'A' buoy (Assaye) has been removed.

As the vessels that composed the Defence Squadron have been abolished, buoys are no longer referred as formerly after the names of the ships that occupied these moorings.

CHINA SEA—COCHIN CHINA AND TONG KING GULF.

Intended lights.

THE British Admiralty has given notice (No. 508 of 1903) that it is intended to establish lights at the undermentioned places in Cochin China and in the Tong king gulf:—

1. Fan rang bay.—A lighthouse is in course of construction in Fan rang bay, but the character of the light to be exhibited from it is not yet decided.

   Approximate position, lat. 11° 34′ N., long. 109° 4′ E.

   The exact position of the lighthouse is not stated.

2. Lon (Tré) island.—A lighthouse is being constructed on Lon island from which it is intended to exhibit a *white group flashing* light showing groups of *three flashes every fifteen seconds*. The tower will be of granite, 40 feet high, and the duration of each flash will be under one-tenth of a second. The light will be elevated 315 feet above high water, and visible in clear weather from a distance of 24 miles.

   Approximate position, lat. 12° 11¼′ N., long. 109° 19′ E.

   This light will probably be exhibited for experiment in 1904.

3. Nhatrang bay.—A lighthouse is in course of construction on the site of an old fort on Chut point, but the character of the light to be exhibited therefrom has not yet been decided.

   Approximate position, lat. 12° 13′ N., long. 109° 12′ E.

4. Cape Varella.—A *white group flashing* light showing groups of *two flashes every ten seconds* will be established in a cylindrical tower of granite, 46 feet high, now being erected on the point to the southward of cape Varella, the duration of each flash will be one-tenth of a second; it will be elevated 318 feet above high water, and visible in clear weather from a distance of 24 miles.

   Approximate position, lat. 12° 53¾′ N., long. 109° 26¼′ E.

   This light will probably be exhibited experimentally at the end of 1903.

5. Pulo Gambir (Kambir).—A *white group flashing* light showing groups of *four flashes every fifteen seconds* will be established in a cylindrical tower of granite, 42 feet high, now being constructed on the summit of the eastern point of Pulo Gambir or Kambir. The duration of each flash will be under one-tenth of a second; it will be elevated 387 feet above high water, and visible in clear weather from a distance of 26 miles.

Approximate position, lat. 13° 36½′ N., long. 109° 20½′ E.

This light will probably be exhibited experimentally in 1904.

6. Kin Hon harbour.—A *white fixed* light, elevated 164 feet above high water, and visible from a distance of 8 miles over an arc of 275°, will be established on an iron gibbet attached to a dwelling now being constructed on the south-west point of the Huong Mai peninsula entrance to Kin Hon or Thi Nai harbour.

Approximate position, lat. 13° 45¼′ N., long. 109° 13¼′ E.

The light will probably be exhibited for experiment at the end of 1903.

7. Nau Chau island.—A *white flashing* light *every five seconds*, elevated 341 feet above high water, and visible in clear weather from a distance of 26 miles, will be established in a cylindrical tower of stone, 62 feet high, now being erected on the summit of Nau Chau island.

Approximate position, on Chart No. 875, lat. 20° 54′ N., long. 110° 35½′ E.

This light will probably be exhibited experimentally in March 1904.

Further notice will be given when the above lights are exhibited.

RESOLUTION.

INCOME-TAX BRANCH.

THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

Dated Calcutta, the 10th July 1903.

THE statistical information regarding the Income-tax Department, for the year 1902-1903, has been compiled with reference to the Government of India's Resolutions Nos. 2316S.R., dated the 8th May 1901, and 83S.R., dated the 14th January 1903.

* * * * * * *

3. The following statement compares the receipts, charges and net revenue with those of the previous year:—

YEAR.	Receipts.	Charges.	Percentage of charges.	Net revenue.
	Rs.	Rs.		Rs.
1902-1903 ...	58,66,787	2,12,463	3·6	56,54,324
1901-1902 ...	56,56,735	2,13,398	3·8	54,43,337
	+2,10,052	−935	−2	+2,10,987

The net revenue showed an increase of 3·9 per cent., as compared with an increase of 7·5 per cent. in 1901-1902.

4. *Return No. III.*—The collections upon the profits of companies showed a noticeable increase of Rs. 1,02,393, or 18·4 per cent. in comparison with the preceding year, and it is explained by the Collector of Income-tax, Calcutta, that the assessments on Jute Companies and Jute Presses were mainly responsible. Coal Companies do not manifest much improvement, and the returns from Cotton Mills and Insurance Companies were poor. Outside Calcutta, the receipts under this head were largest in the district of Dacca, where the collections advanced from Rs. 152 during 1901-1902 to Rs. 7,285 during the year under report, but the Commissioner has not explained the fluctuation. The results under other parts did not present special features.

5. *Return No. V.*—The amount of tax remitted rose from Rs. 71,130 in 1901-1902 to Rs. 1,04,158 during the year under report. The remissions in Calcutta (Rs. 85,159 in comparison with Rs. 51,017 during the preceding year) were mainly responsible for this result, but the figures were unduly swollen by the inclusion of remissions of Rs. 35,976 on account of the year 1899-1900 and of Rs. 25,052 on account of the year 1900-1901. The figures for the year 1901-1902 had only included remissions on account of previous years (1898-1899) to the extent of Rs. 29,516.

6. *Return No. VI.*—The number of persons finally assessed shows an increase of 2,053, or 1·7 per cent., as compared with 3·8 per cent. during the previous year. The final demand for the year rose by Rs. 1,47,989, or by 2·9 per cent. in comparison with 8·2 per cent. during 1901-1902. The demand increased by over 10 per cent. in the districts of Balasore (30·01), Singhbhum (19·3), Tippera (14·3) and Hazaribagh (10·2),—attributable, generally, to more thorough assessments. The results in Balasore are reported to have been mainly achieved by the enhancement of the demand from well-to-do assessees who had been previously under-assessed.

The demand decreased by over 10 per cent. in Manbhum (11·06), owing to the exemption from assessment of bonuses paid for the settlement of coal-bearing lands and to the dull state of the coal trade.

7. The percentage of collections on the final demand on account of the tax for the year was 96·6, as compared with 96·3 during 1901-1902. The districts of Burdwan, Dacca, Noakhali, Champaran and Malda succeeded in collecting the entire demand within the year. The prescribed standard of 95 per cent. was attained in all the other districts except Jalpaiguri, the 24-Parganas and Calcutta, where the percentages were 94·7, 94·03, and 94·7, respectively. The low percentage of collections in Jalpaiguri was due to the non-realisation of the sum of Rs. 1,041-10-8, being the tax of one assessee whose objection was pending before the Commissioner. As regards the 24-Parganas, it is reported that, a larger area having been taken up for revision than in previous years, a considerable number of assessments could not be completed earlier than the close of the third quarter of the year, and consequently a large amount of tax covered by objections was not legally due before the end of the year. There was also some difficulty experienced on account of the wide publicity given to the Government notification raising the assessable minimum from Rs. 500 to Rs. 1,000, towards the end of the year, several assessees professing to believe that these orders had retrospective effect. The failure in attaining the prescribed standard of collection in Calcutta during the year is ascribed to the fact that many assessments had to be made during the last quarter of the year. The difficulty is with the assessment of firms and companies and after special enquiry during the year, the Board were persuaded that it was a practical one.

By order of the Board of Revenue, L.P.,

H. WHEELER,

Secretary.

The 4th August 1903.—The following Resolution by the Board of Revenue regarding the administration of the Stamp Department in Bengal in the year 1902-1903 and an abstract of the receipts and charges for the year are published for general information.

L. P. SHIRRES,
Offg. Secy. to the Govt. of Bengal.

RESOLUTION.

STAMPS.

THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

Dated Calcutta, the 6th July 1903.

THE annual statistics of the Stamp Department for the year 1902-1903 are submitted to Government in the forms of Statements I to VII as revised by the Government of India in the Finance and Commerce Department Resolution No. 83S.R., dated 14th January 1903, which formed an enclosure to the Bengal Government order No. 672S.R., dated the 6th February 1903.

2. The figures of general receipts and charges for the year 1902-1903, furnished in Statement I, though obtained from the Accountant-General, have not as yet been finally verified, and are therefore liable to subsequent adjustment.

3. The revenue collected under the Stamp and Court-fees Acts amounted to Rs. 1,95,68,939, against Rs. 1,90,05,559 in the previous year, with a consequent increase of Rs. 5,63,380. The figures adopted for the revised budget estimate for the year were Rs. 1,95,00,000, and the actuals therefore exceeded the estimate by Rs. 68,939. The increase of revenue occurred both under judicial and non-judicial stamps. The total charges during the year amounted to Rs. 4,95,497, or an increase of 0·3 per cent. over the figures for 1901-1902. The increased expenditure was mainly due to the allowance of discount to vendors on the larger sales effected.

4. Statements II and III, which show the receipts from the sale of the different kinds of stamps under the heads Judicial and Non-judicial in the several districts, have been compiled mainly from figures furnished by the Superintendent of Stamps, Calcutta. It will be noticed that there is a discrepancy of Rs. 72 between the figures of total receipts in these statements and those furnished in Statement I. This cannot be reconciled until finally verified statistics are received from the Accountant-General.

5. The sale-proceeds of court-fee stamps, excluding stamps for copies, rose from Rs. 1,26,43,091 to Rs. 1,31,09,400, that is, by Rs. 4,66,309. The largest increase, amounting to Rs. 1,87,665, occurred in Calcutta, which the Collector attributes mainly to the payment of probate duty in respect of three large estates. The increase of Rs. 45,547 in the 24-Parganas is chiefly due to the large number of applications made for mutation of names in respect of holdings in the Government estate Panchannogram. The advance in other districts is generally attributed to an increase in the number and value of civil suits. Decreases of over Rs. 10,000 occurred in the districts of Hooghly (Rs. 12,771), Backergunge (Rs. 18,046), Noakhali (Rs. 10,674), Patna (Rs. 30,853), Shahabad (Rs. 18,267), Muzaffarpur (Rs. 36,770), and Purnea (Rs. 17,083). The smaller value of civil litigation is usually adduced in explanation, but in two of the three districts of the Patna Division (Patna and Shahabad) the prevalence of plague affected the work of the Courts, and in Purnea the figures of the preceding year had been unusually swollen by one particular case (paragraph 28 of the Board's report upon the operations of the triennium ending 1901-1902).

6. Non-judicial stamps yielded an increased revenue to the extent of Rs. 48,722, or 0·9 per cent., compared with the year 1901-1902. The increase was shared by all classes of stamps, except impressed stamps, *hundis*, share transfer, and notarial stamps. The revenue derived from the sale of impressed

stamps amounted to Rs. 35,59,590, against Rs. 36,05,461 in the preceding year. No very conclusive explanation is forthcoming; fewer deeds were executed, and hence the result. The revenue derived from the sale of *hundis*, or inland bills of exchange, was Rs. 1,25,486, showing a decrease of Rs. 7,054 as compared with the receipts of the preceding year. The largest increase (Rs. 76,442) is under the head of impressed labels, which are used only in Calcutta, and it is attributed to the more extensive execution of conveyances and trust mortgages on account of the holders of debentures of certain Companies. There was a satisfactory increase in the sale of one-anna receipt stamps, which was especially marked in Calcutta. The increase in the sale of forms for cheques or receipts is attributed to the briskness of trade and to the use of embossed cheques by municipalities and other local bodies.

7. Statement IV shows the number of vendors entrusted with the sale of stamps, as also the discount allowed to them. The total number of vendors employed in the sale of judicial and non-judicial stamps during the year was 6,821, or an increase, as compared with the previous year, of 66 persons. A considerable reduction in the number of vendors was effected in the Chota Nagpur Division by the elimination of those whose transactions were insignificant.

The expenditure during the year exceeded that of that preceding by Rs. 2,135,—the result of the increased sales and the larger discount allowed in consequence.

8. Statement V exhibits the number of cases in which deficient duty and penalty were levied by the Courts or by persons entitled to receive evidence under section 35, and by Collectors under sections 32, 37, 40, and 41 of Act II of 1899. The total number of cases dealt with by Civil Courts during the year shows an increase of 377, but there was a decrease of Rs. 4,260 in the duty and penalty realised, in comparison with the figures of the preceding year. This was especially noticeable in the district of Dacca. On the other hand, there was a decrease of 536 in the number of cases decided, but an increase of Rs. 27,622 in the duty and penalty realised by Revenue Officers, as compared with the figures of the preceding year. The large increase in the amount of duty and penalty is mainly due to the payment of Rs. 29,170 on seven instruments dealt with by the Collector of Stamp Revenue, Calcutta, but the Board had occasion to complain of a certain want of discretion displayed in several of the orders passed by this officer, and in more than one case reductions in the amount of penalty assessed were ordered on appeal.

9. Statement VI shows the results of the prosecutions instituted for the infringement of the provisions of the Stamp Act. The number of cases instituted was 220, in which 252 persons were brought to trial, against 567 cases and 497 persons in the preceding year. The fines imposed amounted to Rs. 1,557 in comparison with Rs. 4,047 in 1901-1902, while the amount distributed in rewards was Rs. 551, against Rs. 2,647. The falling off in the number of cases instituted in Calcutta was very marked, but no special explanation has been given.

10. Statement VII shows the results of the action taken by Collectors to test the valuation of estates in respect of which probates and letters of administration had been applied for during the year ending the 31st March 1903. In one case appertaining to Calcutta, for the year 1901-1902, the administratrix of an estate failed to pay the amount of deficit court-fees adjudged, and under the orders of the Board, a penalty of Rs. 200 was inflicted. Realisation was effected during the year under report. Of the cases reported during 1902-1903, 78·2 per cent. were enquired into. The corresponding percentage in the preceding year, was 75·9. The proportion borne by the deficit duty realised, to the amount originally paid, was 14·0 per cent., as compared with 8·8 per cent. in the preceding year.

By order of the Board of Revenue, L. P.,

H. WHEELER,

Secretary.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended *four feet* above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

[Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.]

o, overcast; d, drizzling rain; p, passing temporary showers.

And such other persons as shall hereafter, from time to time, be appointed to the office of Trustee under the provisions of the next succeeding clause hereof.

3. Whenever any Trustee, other than one of the *ex-officio* Trustees above named, shall die or desire to be discharged from, or refuse to act in, or become incapacitated through illness or otherwise from acting in the trusts hereby created, or shall be guilty of any gross misconduct, the surviving or continuing Trustees shall thereupon in writing appoint another person to be a Trustee in the place of the Trustee so dying, or desiring to be discharged, or refusing to act, or becoming incapacitated from acting, or becoming guilty of gross misconduct as aforesaid.

4. The duties of the said Trustees shall be as follows:—They shall apply the annual interest, income, and profits of the property vested by the above notification to the upkeep and maintenance and improvement of the said Rajkumari Leper Asylum, and shall thereout, in the first place, defray all such expenses of management of the said Asylum, of feeding, clothing and medical treatment of the lepers, who shall for the time being be inmates thereof, and of repairs, improvements, and additions to the buildings and out-houses situate on the said land described in the second Schedule above written and pay all such rents and dues payable on account of the said land as shall not be covered by the public subscriptions and donations from time to time received in respect of the said Asylum. The expenses of management shall include the cost of providing a proper and efficient staff of servants for feeding and nursing the lepers, and of a further staff for the performance of clerical and other work in connection with the said asylum under the direction of the Honorary Secretary to be appointed by the Trustees as next hereinafter provided.

5. The Trustees shall annually in general meeting elect one of their number to be their Honorary Secretary. The duties of the said Secretary shall be to collect and receive subscriptions and donations from the public, to draw money from the Treasurer of Charitable Endowments for the purposes mentioned in the last preceding clause hereof, and also to keep accounts of all moneys received and expended by him, and to submit such accounts to the Trustees at their general meetings. The duties of the said Secretary shall include the appointment and dismissal of the staff, as hereinbefore mentioned, the payment of their salaries and other disbursements necessary for the purposes mentioned in the last preceding clause, and the general supervision of the said asylum.

6. Any surplus which may remain of the annual interest, income and profits of the said trust property, and of the subscriptions and donations received from the public, after application of the same in manner provided in clause 4 hereof, shall be deposited by the Trustees either in the Savings Bank or in the Bank of Bengal, and may be applied by them for such purposes in connection with the said Asylum as they shall think fit, or may be invested, from time to time, in Government Promissory Notes or Municipal Debentures, and in the event of any investment being so made the same shall be transferred so as to vest in the Treasurer of Charitable Endowments upon the trusts declared in the above notification.

7. The Trustees may make such rules for, and in relation to, the conduct and management of the said Asylum as they think fit, but such rules shall be in conformity in all respects with the rules which may, from time to time, be made by the Government of India relative to charitable institutions, and with the provisions of the Lepers Act, 1895, and the rules from time to time framed thereunder.

8. The Trustees shall hold an ordinary meeting at least once in every three months for the transaction of general business and passing accounts, and such meetings shall be held on some convenient day and at the subdivisional office or some other convenient place to be appointed by the Secretary in consultation with the Subdivisional Officer of Deoghur.

9. Any Trustee may call a special meeting by delivering or sending by post to the other Trustees at least a week's previous notice in writing stating the time and the place of such meeting and the purposes or objects for which it is to be held.

10. The Deputy Commissioner of the Sonthal Parganas for the time being shall be the President, and the Subdivisional Officer for the time being shall be the Vice-President of the Trustees. The President or, in his absence, the Vice-President, shall be Chairman of every meeting of the Trustees. In the event of the absence both of the President and Vice-President, the next senior officer of the Deoghur subdivision (being a Trustee) may be appointed with the consent of the said Subdivisional Officer to be Chairman for any particular meeting which it may be necessary to hold in the absence of the President and Vice-President.

11. No business shall be transacted at any meeting unless at least five of the Trustees are present at the time when the meeting proceeds to business, and all business brought before any meeting shall be decided by majority of votes of the Trustees present, and in case of equality of votes, the Chairman of the meeting shall have a casting vote.

12. The minutes of the proceedings of every meeting shall be entered in a book to be kept for that purpose and signed by the Chairman of such meeting, and shall, when so entered and signed, be conclusive evidence of the business and other matters transacted at such meeting

13. The Trustees may at any time if they think fit remove the said Asylum from the said premises described in the second Schedule above written, to and thereafter maintain the same at any other place, and the trusts and provisions declared and contained in the above notification, and this scheme shall remain in force and be applicable to and in respect of the said Asylum after its removal as aforesaid in the same manner as if it had been originally established on such new place or site.

Candidates who have attended 75 per cent. of the lectures delivered by the Tagore Professor of Law are admissible to the examination.

SENATE HOUSE, *the 8th August 1903.* K. C. BANURJI, *Registrar.*

DACCA DIVISION.

UNIVERSITY ENTRANCE EXAMINATION.

Private Students.

1. A student who has not attended any H. E. School recognised by the University since the 1st September next preceding the Entrance Examination or has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private student.

2. The term "Private student" includes school-masters.

3. Private students desirous of being sent up to the ensuing University Entrance Examination must appear at the test examination of one of the undermentioned schools:—

(1) Dacca Collegiate School.
(2) Mymensingh Zilla School.
(3) Faridpur Zilla School.
(4) Barisal Zilla School.

4. The test examinations of the zilla schools will be held on the 16th December 1903 and the following days. The date of examination of the collegiate school should be ascertained from the Head Master of that school.

5. Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions:—

(*a*) that he has not failed at the test examination of any Entrance school during the current session;
(*b*) that he has not left school from any class lower than the first; and
(*c*) that he has left the school in which he last read with a transfer certificate, or (in case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt.

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *bonâ fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *bonâ fide* teacher in all of them.

6. Every private candidate must pay a fee of Rs. 2 to the Head Master of the school at which he appears for examination. After payment of the necessary expenses, the balance of fees will be paid to the examiners as remuneration.

7. He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test examination.

8. The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination, and are authorised to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and transmission to the Registrar of the University of Calcutta in due time.

9. Private candidates should arrange to remit their examination fees, together with the application forms direct to the Registrar.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools will be admitted to the F.A. and B.A. Examinations as private candidates, provided they have served in their respective capacities for a period of two academical years.

Bonâ fide teachers are those who hold paid appointments in English schools teaching at least the Middle English standard.

2. Exceptions to the above rule will be made in case of those candidates who, after failure at a previous examination, have served for six months since the date of the examination. If, however, a candidate does not complete six months' service at the time of submitting his application, he must satisfy this office that he will stick to the post till he completes six months' service before the examination.

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, and also the University certificates, in proof of their having passed the Entrance or F.A. Examination, as the case may be. Candidates who were admitted to a previous examination should produce the Registrar's receipt in addition.

4. Applications must reach this office on or before the 9th January 1904.

5. Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 6th February 1904.

DACCA,
The 3rd August 1903.

MUHAMMAD IBRAHIM,
Inspector of Schools, Dacca Division.

OFFICE MEMO.

RULES FOR APPEARING AT THE F.A. AND B.A. EXAMINATIONS FOR CANDIDATES FROM THE RAJSHAHI DIVISION, WHO ARE NOT STUDENTS OF ANY AFFILIATED INSTITUTION.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools, and *bonâ fide* masters of English schools, who have served as such for the full period of two academical years, or of six months after the examination of the same class last held by the University, in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations. The applications of school-masters should be accompanied by certificate of length of service from the Secretaries or Managers of the schools in which they are employed, and should reach this office not later than the 6th January 1904. The application of a school-master for permission to appear at the F.A. or B.A. examination should be signed by him in the *presence* of the Secretary or a Member of the Managing Committee of the School in which he is employed. The application should be forwarded to this office for countersignature, together with the Registrar's certificate, to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. examination, as the case may be, and it will be sent back to him (the candidate) who will have to send it, together with the examination fee, to the Registrar of the University *direct*. School-masters are not required to pay any fee for getting their application for permission to appear at either of the abovementioned examinations countersigned by this office.

2. Candidates should read carefully the form of the certificate which this office is required to sign, and should be careful to supply all information and documents required, including the Registrar's receipt in the case of those school-masters who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate.

3. By *bonâ-fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M.E. course.

6. Jalpaiguri ,, ...	Jalpaiguri ditto ...	
7. Darjeeling ,, ...	Darjeeling High School ...	

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners.

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 24th November, with the following information, etc.—

From Private Candidates proper.

(*a*) The name of the school in which the candidate last studied.
(*b*) The transfer certificate (in original) granted to the candidate from the same; or
(*c*) In the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.
(*d*) Age of the candidate.

From Schoolmasters.

(*e*) A certificate from the Secretary or Proprietor of the school in which the candidate is serving, to the effect that he has been a *bonâ-fide paid* teacher of the school in which he teaches, and has been so ever since the 1st June 1903. In case of a schoolmaster who has served *in more than one school*, he must produce certificates from the several schools in proof of his having been a *bonâ-fide paid* teacher all along since the 1st June 1903.

Failing to produce the above certificate or certificates, a schoolmaster will be subject to the rules applicable to *bonâ-fide* private candidates, as given above.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test-examination.*

5. The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 2nd January with their applications for admission to the Entrance examination, and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office.*

8. Private students will understand that the test-examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

JALPAIGURI,
The 24th July 1903.

N. L. HALLWARD,
Offg. Inspector of Schools, Rajshahi Division.

ORISSA DIVISION AND THE ORISSA TRIBUTARY MAHALS.
OFFICE MEMORANDUM OF THE INSPECTOR OF SCHOOLS, ORISSA DIVISION.

Rules for appearing at the F.A. and B.A. Examinations in 1904 for candidates from the Orissa Division and the Orissa Tributary Mahals who are not students of any affiliated institution.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools and *bonâ fide* teachers of recognised English schools who have served as such for the full period of two academical years, or for a term of six months after an examination of the same class last held by the University in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations. All applications from school-masters should be accompanied by certificates of length of service from the Secretaries of the schools in which they are employed, and should reach this office not later than the 5th January 1904. The application of a school-master for permission to appear at the F.A. or B.A. Examination should be signed by him in the presence of the Secretary or a member of the Managing Committee of the school in which he is employed. The application should be forwarded to the office of the Inspector of Schools, Orissa Division, for countersignature, together with the Registrar's receipt to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. Examination, as the case may be. Such papers will be sent back to him (the candidate), who will have to send them, together with the examination fee, to the Registrar of the University direct.

2. Candidates should read carefully the form of the certificate which the Inspector of the Division will sign, and should be careful to supply all information and documents required, including the Registrar's receipt, in the case of those who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate applied for.

3. By *bonâ fide* teachers of schools are to be understood teachers who hold regularly paid appointments in English schools teaching at least the Middle English course.

CUTTACK,
The 17th July 1903.

HERBERT A. STARK,
Inspector of Schools, Orissa Division.

MEMORANDUM.

UNIVERSITY ENTRANCE EXAMINATION.

PRIVATE STUDENTS.

1. Private students are those who do not appear from any school, or who have been transferred from one school to another after the 31st August without the consent of the Inspector.

2. The term "Private students" includes School Masters.

3. Private students must appear at the test examination of any one of the undermentioned schools on dates to be fixed by Head Masters:—

(1) Ravenshaw Collegiate School (with the permission of the Principal of the College).	(2) Balasore Zilla School. (3) P. M. Academy. (4) Puri Zilla School.

4. Every private candidate must satisfy the following conditions:—

(*a*) That he has not failed at the test examination of any Entrance school in the current session.

(*b*) That he has not failed to gain promotion to the first class of any Entrance school at the results of the annual examination of the second class in the last session.

(*c*) That he has left the school in which he last read with a transfer certificate, or (in case of a failed student) is in possession of the Registrar's receipt.

5. Every private candidate must pay a fee of Rs. 2 to the Head Master of the school at which he is to appear for the examination.

6. He must arrange for his identification to the officer conducting the test examination, and he should satisfy the Head Master as to his character, if necessary.

7. The Head Masters of the abovenamed schools are requested to sign the application forms of eligible candidates having a reasonable probability of success at the final examination, and forward the same to this office for countersignature *in time*. Private candidates should make their own arrangements to remit their examination fees and application forms to the Registrar of the Calcutta University.

The 7th August 1903.

No. 3093-I.-A.—The following Resolution of the Government of India in the Foreign Department is published for general information:

No. 3001-I.-A., dated Simla, the 27th June 1903.

RESOLUTION.

BY the Resolution of the Government of India in the Foreign Department, No. 3129-I.-A., dated the 19th August 1901, the Residents in Hyderabad, Mysore, Baroda, Kashmir, and Nepal, the Agent to the Governor-General in Baluchistan, and all Political Officers in Rajputana and Central India are empowered to grant licenses for the export of arms and ammunition (subject to certain exceptions) to the Native States under their political charge irrespectively of whether they are required for personal use or for sale. It has now been decided to modify the restrictions imposed by the Resolution, *firstly*, by removing rifles of ·577 bore of the Snider pattern and also magazine pistols from the category of military weapons, and, *secondly*, by authorising Political Officers to grant licenses, in certain cases, for the export of rifles of 303 bore and of ·450 bore of the Martini-Henry pattern, and of a limited quantity of ammunition for use with those weapons.

It has also been agreed that other Political Officers serving under Local Governments should be invested with similar powers.

2. The Governor-General in Council is, therefore, pleased under Rule 7 of paragraph VI of the notification of the Government of India in the Home Department, No. 518, dated the 6th March 1879, and subsequently amended, and in supersession of Resolution No. 3129-I A., dated Simla, the 19th August 1901:

(1) to empower the Residents in Hyderabad, Mysore, Baroda, Nepal, and Kashmir, the Agents to the Governor-General in Baluchistan and in the North-West Frontier Province, all Political Officers in Rajputana and Central India, the Commissioner of Ajmer-Merwara, the Commissioner in Sind, the Political Agents in Kathiawar, Kolhapur, and the Southern Maratha Country, Cutch, Rewa Kantha, Mahi Kantha, and Savantvadi, the Political Superintendent, Palanpur, all Political Officers in the Punjab, the Political Agent in Hill Tippera, the Superintendent of the Tributary Mahals of Orissa, the Commissioner of Chota Nagpur, the Resident in Travancore and Cochin, the Political Agents for Pudukota, Banganapalle, and Sandur, and all Political Agents and Deputy Commissioners in the North-West Frontier Province, to grant licenses for the export of arms and ammunition of every kind (subject to the exceptions noted below), whether for personal use or for sale, to the Native States and tribal territory under their political charge, and

(2) to remit the fee of Rs. 5 in the case of arms and ammunition exported for the personal use of persons of the classes mentioned in paragraph 1 of the same notification:

Provided that the power thus conferred upon Political Officers shall not extend—

(*a*) to cannon; or

(*b*) to military stores of any kind other than sulphur; or

(*c*) save as hereinafter provided, to rifles of the ·303 bore and of the ·450 bore of the Martini-Henry pattern; or

(*d*) save as hereinafter provided, to balled ammunition which can be fired from rifles of the bores and pattern specified in sub-head (*c*):

Provided, secondly, that, notwithstanding anything contained in sub-head (*c*) of the first proviso, licenses for the export of rifles of the bores and pattern there specified may be granted to persons of the classes mentioned in paragraph 1 of the notification above cited, subject to the condition that the rifles must either have been in India on the 20th February 1901, or have since been imported with the special sanction of the Government of India:

Provided, thirdly, that, notwithstanding anything contained in sub-head (*d*) of the first proviso, licenses for the export of cartridges of the nature there specified may be granted to persons of the classes mentioned in the notification above cited, subject to the conditions that the number of such cartridges does not exceed two hundred in any one year, and that they are for the personal use of the licensees.

3. The Commissioners of Police in Madras and Bombay, the Deputy Commissioner of Police in Calcutta, and the other officers to whom authority has been delegated under Rule 7 of the Arms Act Rules, will retain the power which they now possess to grant licenses under prescribed conditions for the export of arms and ammunition to the Native States; but in future no such officer may grant a license for the export to a Native State of any arms for the import of which into India a special order of the Government of India in the Home Department is required, unless the arms were in India on the 20th February 1901, or have since been imported with the special sanction of the Government of India, and are required for the personal use of persons of the classes mentioned in paragraph 1 of the same notification.

The Hon'ble the Resident at Hyderabad.
The Hon'ble the Resident in Mysore.
The Hon'ble the Agent to the Governor-General in Central India.
The Hon'ble the Agent to the Governor-General in Rajputana.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 2307M.—The 6th August 1903.—In exercise of the powers conferred by section 538 (*b*) of the Calcutta Municipal Act, 1899, it is hereby declared that the Lieutenant-Governor intends to make the following rules for the guidance of the Chairman and Health Officer of the Corporation of Calcutta, and the District Health Officer, Registrars and Sub-Registrars of District No. I comprising Wards 1 to 6 of the Calcutta Municipality, in all matters connected with the carrying out of the provisions of Chapter XXXVIII of the aforesaid Act.

Any person having any objection to the rules should submit it in writing to the undersigned before the 7th September 1903.

Draft rules under section 538 (b) of the Calcutta Municipal Act, 1899.

1. There shall be such offices for the registration of births as the General Committee may direct. Each office shall be called the Registration Office of Births, and shall be open daily from 7 to 10 A.M. and from 3 to 6 P.M. for the transaction of business: provided that on such days as the Registrar may have to attend Court the afternoon hours shall be from 4 to 6 P.M.

2. The staff for the registration of births at each Office shall consist of a Registrar of Births and a number of Sub-Registrars of Births bearing a practical proportion to the number of inhabited houses in the locality.

3. The Registrar shall attend at his Registration Office daily during the prescribed hours, and shall register, in conformity with the provisions of sections 531 and 535 of the Municipal Act, all births reported to him by the parties concerned, and shall, after registration, hand over to the said parties notices prescribed in the Vaccination Act in respect of infants living at the time of the registration of their births.

A separate register of births, as well as a vaccination notice book, shall be kept for each ward.

4. Before closing office on any morning or afternoon, the Registrar shall prepare for each ward a return of all births registered during the previous three hours up to the time of closing, and shall send all such returns, duly signed and dated by himself and enclosed in a sealed cover addressed to the District Health Officer, so as to reach the District Health Officer by 11 A.M. on the following day. The Head Clerk of the District Health Office shall open the said cover at 11 A.M., and enter or cause to be entered the births so reported in special registers, one for each ward, kept for the purpose, and shall keep the original returns carefully filed for subsequent transmission to the central Health Office at the close of the week. All such original returns for each week must be sent to the Health Officer on the following Monday by or before 12 noon.

5. The Registrar shall meet two or more of his Sub-Registrars daily at 6-30 A.M. at some central place in the district fixed by himself and there put his initials with date in the pocket note-books of the Sub-Registrars concerned in token of his having met them, and he shall make an entry in a pocket diary, which he shall keep, shewing

the presence or absence of the Sub-Registrars at the appointed place and time, and shall also note in the said diary the place of meeting and the Sub-Registrars to meet for the following morning, in addition to other particulars of his out-door work. Such diary shall be submitted to the District Health Officer every week-day at 7 A.M. for inspection.

6. Every Sub-Registrar shall be on duty in his section, or assigned field of work, daily from 6 to 10 A.M. He shall meet the Registrar at 6-30 A.M. on such day and at such central place as shall be fixed from day to day and on obtaining the initials of the Registrar in his pocket note-book depart to his work, which shall consist mainly in finding out all births occurring in his section and in verifying cases of births reported to him from the District Health Office.

7. Every Sub-Registrar will sub-divide his section into blocks, and visit different blocks every day of the week, so as to traverse the whole of his section every week. He shall take down in his pocket note-book under each date any information of births which he is able to obtain.

8. Every Sub-Registrar shall attend at the District Health Office from 3 to 5 P.M. every week-day, excepting Saturday, when he shall attend from 2 to 3 P.M. As soon as he enters the office, he shall sign his attendance roll, obtain the initials of the District Health Officer on his pocket note-book, which must be kept legibly and neatly, and make entries, in a special handbook to be kept for the purpose, of all births he has traced out in the morning, and then submit the said hand-book to the Head Clerk of the District Health Office, who, after comparing this book with the corresponding special register referred to in Rule 4, and with the statements of unregistered births received from the central Health Office, or other sources, shall prepare or cause to be prepared—(1) A statement of registered births not traced out by the Sub-Registrars, and (2) statements, ward by ward, of all unregistered births, and submit such statements to the District Health Officer for orders. The statement No. (2) must show which births have been reported by the Sub-Registrars and which by the central Health Office, or by other persons.

9. A weekly statement of deaths of infants under three months whose births have not been registered shall be sent from the central Health Office every Monday to the District Health Office.

10. Statements of unregistered births received from the central Health Office and other sources shall be given to the Sub-Registrars concerned for verification and report, and such statements after verification and all statements of unregistered births submitted by the Sub-Registrar shall be sent to the Registrar for action.

11. For every birth which has been verified and remains unregistered after a fortnight from the date of birth, the Registrar shall without loss of time submit an application for summons against the party concerned, and in any case where the District Health Officer directs the prosecution of any party, he shall conduct such prosecution and report result.

12. Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the village of Hiradharpur, pargana Chandrakona, at 12 o'clock noon, on the 27th August 1903, corresponding with 3rd Bhadra 1810, Bengali era.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset prices, which have been fixed by the Collector. The purchaser of these estates will be considered as the proprietor of the estates, and the entire proprietary right of Government in such estate will be transferred to him permanently free of rent.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Northern Bengal State Railway, in the district of Rangpur, will be put up to sale at 11 o'clock on the 31st of August 1903, corresponding with the 14th Bhadra 1310 (B S.) at Nilphamari.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

CORPORATION OF CALCUTTA.

Proposed Bye-laws made pursuant to section 559 (51) of the Calcutta Municipal Act, 1899, prescribing the conditions under which persons shall be permitted to drive registered carts, are published under section 565 (a) for general information.

1. Every proprietor or driver of a cart shall comply with such of the following provisions for regulating the maximum weight to be carried by carts as shall be applicable to such cart:—

	Mds.
For carts drawn by 2 buffaloes ...	40
" " 1 buffallo ...	20
" " 2 bulls or bullocks ...	20
" " 1 bull or bullock ...	10

2. No male person under the age of 16 years and no female person shall drive or be in charge of a cart.

3. No person suffering from a contagious or infectious disease shall drive or be in charge of a cart.

4. Every driver or person in charge of a cart shall drive or conduct his cart on the extreme left of the road in a line with and in rear of any other carts or cart proceeding in the same direction, and he shall not in any way make any attempt to pass the cart immediately in front of his cart.

5. No person shall load or unload a cart in a narrow street, except in such portion thereof as shall admit the passage of two carts abreast.

6. When loading or unloading a cart in a street the person in charge of the cart shall rest it parallel with the footpath with one of its wheels touching the kerb-stone, or if there is no footpath, then parallel with, and immediately on, the edge of the street.

7. Every driver or person in charge of a cart shall light his lamp as soon as it becomes dark, and shall obey all reasonable orders of the police on duty.

8. All loads carried on any cart shall be properly fastened and secured so as to prevent any portion of the load from falling off the cart. Carts laden with bamboos, long iron rails or pipes or long timber must be in charge of not less than three men, of whom one shall go in front to guide the load and another behind; and after dark the persons accompanying all carts so laden must each carry a light.

9. Every driver or person in charge of a cart shall give correct information about his own name, age and residence, the name and residence of the owner, the place where the cart is ordinarily kept, and such other particulars necessary to establish his own identity and that of the owner of the cart as he may be required by the Registering Officer to state at the time of each half-yearly registration.

10. Every driver shall carry with him, when plying for hire, the cart license for the then current half-year and produce it for inspection, whenever required to do so, by any Municipal or Police officer, or the hirer of the cart.

11. The proprietor and the driver or person in charge of a cart, in respect of which an offence is committed against any of the above bye-laws, shall be liable, for every such offence, to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

AFRICA, NORTH-EAST—RED SEA, SOUTHERN PART.

Jebel Teir, Zebayir, Abu Ail, and Mokha—Characters of intended lights.

THE British Admiralty has given notice (No. 556 of 1903) that the character of the lights to be exhibited at the undermentioned places in the southern part of the Red Sea will be as follows:—

(1) Jebel Teir—A *white flashing* light *every five seconds*, the duration of each flash being under one-tenth of a second; it will be elevated 531 feet above the sea.

Approximate position, lat. 15° 32½′ N., long. 41° 49¼′ E.

(2) Zebayir islands, Centre Peak island—A *white group flashing* light showing groups of *three flashes every ten seconds*, the duration of each flash being under one-tenth of a second; it will be elevated 633 feet above the sea.

Approximate position, lat. 15° 1½′ N., long. 42° 9¼′ E.

(3) Abu Ail, Quoin island—A *white group flashing* light showing groups of *two flashes every ten seconds*, the duration of each flash being under one-tenth of a second; it will be elevated 384 feet above the sea.

Approximate position, lat. 14° 4½′ N., long. 42° 49′ E.

(4) Mokha, on the south fort—A *white flashing* light *every five seconds*, the duration of each flash being under one-tenth of a second; it will be elevated 171 feet above the level of the sea.

Approximate position, lat. 13° 18½′ N., long. 43° 13½′ E.

Further notice will be given when these lights are exhibited, which it is understood will be not long hence, as the lanterns are in place and everything points to an early illumination.

This notice affects the following Admiralty Chart:—Jebel Tïr to Perim island, No. 143: Also List of Lights, 1903, part V, Nos. 1356, 1357, 1358, 1359; part VI, Nos. 148, 149, 150, 151; and Red Sea, &c., Pilot, 1900, pages 72, 74, 79, 339.

Intended lights.

The British Admiralty has given notice (No. 508 of 1903) that it is intended to establish lights at the undermentioned places in Cochin China and in the Tong king gulf:—

1. Fan rang bay.—A lighthouse is in course of construction in Fan rang bay, but the character of the light to be exhibited from it is not yet decided.

   Approximate position, lat. 11° 34′ N., long. 109° 4′ E.

   The exact position of the lighthouse is not stated.

2. Lon (Tré) island.—A lighthouse is being constructed on Lon island from which it is intended to exhibit a *white group flashing* light showing groups of *three flashes every fifteen seconds*. The tower will be of granite, 40 feet high, and the duration of each flash will be under one-tenth of a second. The light will be elevated 315 feet above high water, and visible in clear weather from a distance of 24 miles.

   Approximate position, lat. 12° 11¼′ N., long. 109° 19′ E.

   This light will probably be exhibited for experiment in 1904.

3. Nhatrang bay.—A lighthouse is in course of construction on the site of an old fort on Chut point, but the character of the light to be exhibited therefrom has not yet been decided.

   Approximate position, lat. 12° 13′ N., long. 109° 12′ E.

4. Cape Varella.—A *white group flashing* light showing groups of *two flashes every ten seconds* will be established in a cylindrical tower of granite, 46 feet high, now being erected on the point to the southward of cape Varella, the duration of each flash will be one-tenth of a second; it will be elevated 318 feet above high water, and visible in clear weather from a distance of 24 miles.

   Approximate position, lat. 12° 53¼′ N., long. 109° 26¼′ E.

   This light will probably be exhibited experimentally at the end of 1903.

5. Pulo Gambir (Kambir).—A *white group flashing* light showing groups of *four flashes every fifteen seconds* will be established in a cylindrical tower of granite, 42 feet high, now being constructed on the summit of the eastern point of Pulo Gambir or Kambir. The duration of each flash will be under one-tenth of a second; it will be elevated 387 feet above high water, and visible in clear weather from a distance of 26 miles.

Approximate position, lat. 13° 36½′ N., long. 109° 20¼′ E.

This light will probably be exhibited experimentally in 1904.

6. Kin Hon harbour.—A *white fixed* light, elevated 164 feet above high water, and visible from a distance of 8 miles over an arc of 275°, will be established on an iron gibbet attached to a dwelling now being constructed on the south-west point of the Huong Mai peninsula entrance to Kin Hon or Thi Nai harbour.

Approximate position, lat. 13° 45¼′ N., long. 109° 13½′ E.

The light will probably be exhibited for experiment at the end of 1903.

7. Nau Chau island.—A *white flashing* light *every five seconds*, elevated 341 feet above high water, and visible in clear weather from a distance of 26 miles, will be established in a cylindrical tower of stone, 62 feet high, now being erected on the summit of Nau Chau island.

Approximate position, on Chart No. 875, lat. 20° 54′ N., long. 110° 35½′ E.

This light will probably be exhibited experimentally in March 1904.

RESOLUTION ON THE ANNUAL REPORT ON THE REFORMATORY SCHOOLS AT ALIPORE AND HAZARIBAGH FOR THE YEAR 1902

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 10th August 1903.

RESOLUTION—No. 2007

READ—

The Annual Report on the Reformatory Schools at Alipore and Hazaribagh for the year 1902.

The Annual Report on the Reformatory Schools at Alipore and Hazaribagh accords in size and form with the instructions issued by the Government of India. The year under report is the third year during which these institutions have been managed by the Education Department.

2. *Admissions.*—The number of admissions during the year was 156, against 120 during the year 1901, while the number of boys in the schools at the end of the year was 454, as compared with 428 on the 31st December, 1901. The increase in the annual number of admissions since 1899, when they amounted to 99 only, is very noticeable, and emphasises the need, referred to in last year's Resolution, of ascertaining whether any of the boys admitted could not have been more suitably dealt with under the provisions relating to youthful offenders, as contained in the Criminal Procedure Code and Reformatory Schools Act.

It is satisfactory, therefore, to observe that the Boards of Management, with this object in view, examined the admissions during the year under report, with the result that 12 boys, against 4 in 1901, were released. It has been ascertained from the judicial returns that 274 youthful offenders were discharged on probation of good conduct under section 562 of the Criminal Procedure Code, and that 39 boys were discharged after admonition or made over to parents and guardians under section 31 of the Reformatory Schools Act.

3. *Health, Discipline, and Education.*—The health of the boys was, on the whole, satisfactory. The punishments imposed at the Alipore School were, as usual, much more numerous than at Hazaribagh. Boys received from the metropolitan area are, it is reported, less amenable to discipline than those from rural areas, and it has been found necessary to make provision at Alipore for the segregation of incorrigible offenders. Progress has been made as regards education at both the schools: at Alipore the Kindergarten system of teaching has been introduced, while the teaching staff has been strengthened and the school department has been reorganised. Physical development has received attention both at Alipore and Hazaribagh: it is expected that the extension of the compound of the former school, which has recently been sanctioned, will remove the difficulty which has been hitherto felt there as regards the want of a suitable play-ground.

4. *Industries.*—In accordance with the established policy of Government, boys of the agricultural classes were sent to the Hazaribagh School, where cultivation and market-gardening are specially taught, while boys belonging to the industrial castes were concentrated at the Alipore School, where they are instructed in various industries. The figures with regard to the occupations followed by boys after release are still very disappointing. Only 47 out of 151 boys released from the Alipore Reformatory during the three years preceding the year under report were, during that year, found to be engaged in the industries which they had been taught at school. Out of 227 boys released from the Hazaribagh School during the same period, only 17 out of 159 were employed in the trades which had been taught them: on the other hand, no less than 91 were engaged in agriculture, against 68 who had been trained to it, while 42 boys, who had not received any agricultural training, followed that calling on leaving the school. The obvious inference is that a correct policy has been initiated at Hazaribagh, where special attention is now being paid to the teaching of agriculture. As regards Alipore, the desirability of boys being taught the trades which they might be expected to follow in after-life was emphasised in last year's Resolution. In reply to the orders of Government on this subject, the Board of Management pointed out that it was impracticable to teach every boy the occupation followed by his caste, or by his father, as the case may be, the tables submitted by them with their report showing that the 211 boys who were, at the time, in the school belonged to 44 different castes, and that their fathers followed 63 different occupations. The Board have, however, undertaken to comply with the wishes of Government in this matter to the best of their ability, and the question is still the subject of correspondence between them and Government. In particular, the proposal to train boys for employment in jute mills and other similar institutions, which was raised in the Resolution referred to, has been under special discussion, and a report from the Board on the subject is now under consideration.

5. *Licensing.*—The Lieutenant-Governor is glad to observe that the system of licensing out has been more extensively followed than in previous years. Besides the 18 boys already working under the license rules at the close of the year 1901, as many as 66 boys (48 from the Alipore and 18 from the Hazaribagh School) were licensed out, against 39 during the preceding year. In the case of the Alipore School it is to be regretted that no less than 16 of these boys were either rejected for bad work or threw up their positions voluntarily. The large proportion of failures shows that greater care must, in future, be exercised in the selection of boys for such employment. Notwithstanding this, the general results are decidedly hopeful, and His Honour acknowledges with pleasure that much of the success which has been secured in this matter is attributable to the assistance afforded by the Bengal Chamber of Commerce and the Bengal National Chamber of Commerce.

6. *Tracing of Discharged Boys.*—There has been some improvement as regards following up the histories of boys for three years after their release; the percentage of failure to trace out such boys to the total number discharged having fallen to 20 per cent. in the year 1901, against 34 per cent. in 1899. It seems clear, however, that Educational Officers have not yet fully realised their duties in this matter. Boys are now released in the presence of officers of the Education Department, and, as observed in last year's Resolution, that Department commands the sympathy of the people at large. In the absence, therefore, of any explanation of the large percentage of failures still reported, the Lieutenant-Governor cannot but hold that the officers of the Department have failed in this matter to attain the results which might reasonably have been expected of them.

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, AND OF THE BENGAL VETERINARY COLLEGE.

REVENUE DEPARTMENT—AGRICULTURE.

Calcutta, the 8th August, 1903.

RESOLUTION—No. 2625.

READ—

The Annual Report of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College, for the year 1902-1903.

Read also—

Letter No. 1496A., dated the 3rd July, 1903, from the Director of the Department of Land Records and Agriculture, Bengal, submitting the above report with his remarks.

The Annual Report of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College accords, in length and form, with the instructions which have been given on the subject.

2. *Veterinary Dispensaries and Veterinary Assistants.*—During the year under review, the work of the Department was extended to the Chota Nagpur Division, where two new dispensaries were opened, viz., one at Ranchi and the other at Daltonganj, the total number of dispensaries in Bengal open at the close of the year being 20. The Lieutenant-Governor has read with pleasure the good accounts given generally of these dispensaries. His Honour also observes with satisfaction the very large increase which has occurred in the number of animals treated at these institutions, the number of in-patients received having been 903, as against 737 in the previous year, and that of out-patients 24,911, as against 8,892 in the same year. Not less remarkable is the increase in the number of cases treated in the villages by itinerating Veterinary Assistants, the large total of 21,439 having been reached during the year, as against 7,346 in the year 1901-1902. Seven additional itinerant Veterinary Assistants were appointed during the year under review, but the demand for qualified men exceeded the supply, and the requisitions of several districts could not be complied with. Although it is disappointing that a sufficient number of Assistants were not available for pressing needs during the year, it must be remembered that the Department is young, while the fact that more Assistants are required than can be supplied is no small testimony to the thoroughness of the training imparted at the Veterinary College.

3. *Epidemic Diseases.*—During the year 57 animals were admitted into the Belgachia Contagious Diseases Hospital, as against 33 in the year 1901-1902; of these, 51, which were found to be suffering from glanders, either were destroyed or died of the disease. Besides these cases, the Superintendent of the Veterinary Department reports that no less than 319 animals were found to be suffering from this malady at the Sodepore Pinjrapole, which receives nearly all its inmates from Calcutta. As mentioned in last year's report, the introduction of the Glanders and Farcy Act, XIII of 1899, into Calcutta, owing to the heavy increase of expenditure involved, has had to be deferred pending the revision of the Provincial contract. The figures quoted above show that glanders is rife in Calcutta, and indicate that the introduction of the Act is a contingency which must be provided for in the near future.

4. The number of cases of cattle-disease reported in the districts shows a slight decrease in comparison with the figures of the previous year, but there were severe outbreaks of rinderpest in Khulna, Backergunge and Palamau, in each of which districts the number of cattle attacked exceeded 4,000. Owing to the inadequacy of the staff, mention of which has been made in paragraph 2 of the Resolution, the number of cattle immunised during the year was smaller than in the preceding year, the total number operated upon having been 11,472, as against 12,829 in the year 1901-1902. The Lieutenant-Governor again observes with satisfaction the absence of all friction between the operators and the owners of the cattle immunised. Instruction

in rinderpest inoculation was given during the year at Muktesar to 23 Veterinary Assistants, who were all passed by the Imperial Bacteriologist as duly qualified.

5. *Improvement of Stock.*—The Government of India, in commenting on last year's report, discouraged the introduction of foreign stock and directed that the efforts of the Department should be specially directed towards the improvement of indigenous breeds of cattle. These orders are being borne in mind, and in the instructions issued to the Judging Committees at the various local fairs, great stress is laid upon the importance of encouraging local breeding and the improvement of indigenous stock.

6. *The Veterinary College.*—Thirty students prosecuted their studies throughout the year in the three classes of the College: of these, all but two were successful at the annual and final examinations. These results reflect the greatest credit on the Principal and his staff.

7. *Belgachia Infirmary.*—The total number of cases treated in the infirmary during the year was 2,385, showing an increase of 427 over the figures of the previous year; while 623 operations were performed, as against 473 in the year 1900-1901. It is satisfactory to observe that the reduction of fees, which was made last year with the object of encouraging the poorer classes to avail themselves of the benefits of the infirmary, resulted in a large increase in the number of horses and cattle treated as in-patients. A special grant of Rs. 29,765 was sanctioned during the year by the late Lieutenant-Governor in order to provide much-needed additional accommodation in the hospital: the new buildings were under construction at the close of the year.

8. *Financial.*—The Provincial cost of the Department exceeded that of last year by nearly Rs. 13,000. The increase was mainly caused by an increase in the cost of feeding, due to the admission of a larger number of animals at lower rates. The sum of Rs. 2,500, shown by the Superintendent of the Veterinary Department in Table XVIII, attached to the Report, as expenditure on prizes at fairs and shows, is an Imperial charge, and has been erroneously entered by him in the statement referred to. This amount has, accordingly, been omitted in calculating the Provincial cost.

9. The Lieutenant-Governor has much pleasure in acknowledging the zeal and ability with which Veterinary-Major Raymond continued to manage the Department during the year.

By order of the Lieutenant-Governor of Bengal,

A. EARLE,

Offg. Secretary to the Govt. of Bengal.

WORKING OF THE FIRE-BRIGADE IN THE TOWN AND SUBURBS OF CALCUTTA AND IN THE MUNICIPALITY OF HOWRAH DURING THE YEAR 1902-1903.

NOTIFICATION—No. 2355M.

The 8th August 1903.—The following is published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 7389, dated Calcutta, the 24th June 1903.

From—R. A. D'O. BIGNELL, Esq., Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, in accordance with section 41, Act I of 1893, the following report on the working of the fire-brigade in the town and suburbs of Calcutta and in Howrah during the year 1902 1903.

2. The force at the close of the year, under review, was as follows:—

No.	*Lall Bazar.*
1	Superintendent.
1	Chief Engineer.
2	Assistant Engineers.
1	European driver.
3	Tindals.

12	Khalasis.
14	

Hose-carts with 400 feet of hose are also kept at the Sukea's Street, Fenwick Bazar, Jora Bagan, Coomertolly, and Alipore police-stations for emergencies.

3. A statement showing the receipts and expenditure of the fire-brigade is annexed to this report. The year opened with a balance of Rs. 17,945-15-11, the receipts amounted to Rs. 84,820-11-4, and the total expenditure to Rs. 78,881-2-11, leaving a balance of Rs. 23,885-8-4 at the close of the year.

Receipts.—Fees under the Petroleum Act realised Rs. 407, as against the estimate of Rs. 700. Under the head "Fines" there was an increase of Rs. 100. The sale-proceeds of horses amounted to Rs. 550. The net result was an actual increase of Rs. 283-11-4 over the estimates.

Expenditure.—The small increase under the head "Establishment" was due to the grant of grain compensation allowance not provided for in the budget, and the decrease represents savings due to vacancies in the rank of khalasis. Under the head "Contingencies" there were savings chiefly under the following heads:—Feed and keep of horses Rs. 997-8, the price of food stuff being low during the year, Rs. 645-7-6 under the head "Clothing," owing to some articles not having been supplied within the year, Rs. 700 under "Purchase of hand-cart," Rs. 1,033-10-9 under "Purchase of horses," and Rs. 1,286-6-8 under "Rent of telephone lines," as bills for the last quarter were not received within the year. Thus the total savings were Rs. 4,663-0-11 under this head. Under the head "Other charges," the sum of Rs. 1,500 due to the Calcutta Corporation on account of cost of collection of warehouse fees for 1901-1902, which was shown as undisbursed in last year's report, was claimed

and paid for during 1902-1903, hence the increase. The large opening balance together with the net savings of Rs. 4,155-13-1, as shown in the statement, accounts for the large closing balance. In the budget estimate for 1903-1904, the anticipated balance at the close of the year under report was estimated at Rs. 17,983, and this sum, out of the actual closing balance of Rs. 23,885-8-4, has been taken as a set off in determining the contributions payable by the several municipalities during the current year.

4. The following table gives the number of fires and the way they were dealt with :—

Description of fire.	Number of fires.	Number of fires attended by Fire-brigade.	Number of fires extinguished by residents.	Number of fires attended by Port Fire Engines
1	2	3	4	5
Fires at which property destroyed valued at Rs. 50 or more	43	28	8	7*
Fires at which property destroyed valued at less than Rs. 50	72	16	56	.....

* Fire-brigade also attended at five of these fires.

5. Six of these fires occurred in buildings licensed under Act I of 1893 and Act I of 1894 in which property to the total value of Rs. 18,59,340 was destroyed.

6. The total estimated value of the property destroyed by fire was Rs. 20,76,576-8 against Rs. 9,17,632-8, the value of the property destroyed in 1901-1902.

7. Four lives were lost during the year at fires, viz , a child aged eleven years, who was slightly burnt in a fire at Choonapooker Lane in Section I town, on 20th June 1902, died at his house on the following day, a boy aged fourteen years, who was severely burnt in a fire, which took place on the 28th October 1902 at Upper Chitpur Road in Section F town, died the same day, and two men died from injuries received at a fire at Messrs. Ralli Brothers' Jute Press in Chitpur on the 25th February 1903, one at the spot, and the other at his house the same night.

8. The following were the most serious fires :—

On the 3rd November 1902.—The flat *Josephine* containing jute and mustard seed, caught fire off Salkea Ghât. The fire lasted five hours and forty-five minutes, and was extinguished by the Port Commissioners' fire-float *Hetty*. Loss estimated at Rs. 35,000.

On the 18th November 1902.—Fourteen thatched-roof sheds, containing 20,000 maunds of jute, caught fire at Domjoor in Howrah. The fire lasted for 13 hours. The steam-engine *Damooda* worked there at the request of the District Superintendent of Police, Howrah, the place being out of the jurisdiction of the Howrah Municipal limits. Loss estimated at Rs 1,50,000.

On the 28th November 1902.—Messrs. Ralli Brothers' Jute Press in a pucka two-storied building, measuring 200 feet × 100 feet × 28 feet, containing jute in bales and drums, caught fire at Ramgopal Ghose's Lane, Chitpur. The fire lasted for forty-nine hours, and was extinguished by the Calcutta Fire-Brigade and the Port Commissioners' fire-float *Hetty*. Loss estimated at Rs. 5,50,000.

On the 25th February 1903.—Messrs. Ralli Brothers' Jute Press in a large two-storied pucka building, containing 12 hydraulic jute presses and jute in bales and drums caught fire at Ramgopal Ghose's Lane, Chitpur. The fire lasted up to 9-30 A.M. of the 1st March 1903, and was extinguished by the Calcutta Fire-Brigade and the Port Commissioners' fire-floats *Hooghly* and *Hetty*. Loss estimated at Rs. 13,00,000.

On the 31st March 1903 —One large corrugated-iron godown, containing 416,132 cases of kerosine-oil, at Budge-Budge, caught fire. Loss estimated at Rs 16,58,262. This fire occurred beyond the jurisdiction of the Calcutta Fire-Brigade, but within the limits of the Calcutta Port. The fire burnt itself out after lasting for a fortnight.

9. Four licenses were granted under section 36, Act I of 1893, for letting off fire-works, rockets, &c. None of the licenses were suspended under section 37 of the Act.

10. Eleven prosecutions were instituted under Act IV of 1884 for manufacturing fire-works without licenses; in all the cases the accused were convicted and fined.

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL DURING THE YEAR 1902-1903.

The 8th August 1903.—The following extracts from the Report of the Board of Revenue on the Administration of the Salt Department in the Lower Provinces during the year 1902-1903 are published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 6393B., dated Calcutta, the 22nd July 1903.

From—H. WHEELER, Esq., Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Financial Department.

CHAPTER I.—PRELIMINARY.

Reduction of duty.

2. The most important incident of the year occurred towards its close and it is as yet too early to pronounce upon its effect. On and after the 18th March 1903 the rate of duty upon salt manufactured in any part of British India (other than Burma, certain mines in the Kohat district, and Aden) or imported by land into any part of British India (other than Burma) was reduced from Rs. 2-8 to Rs. 2 on each maund of 82⅔ lbs. Apart from the obvious result of a diminution of revenue likely to ensue, it will be of interest during the current year to watch the effect of this measure upon the course of prices, the rate of consumption, and the prevalence of illicit manufacture.

3. * * * * *

Administration.

There were several changes in the area under the supervision of preventive operations. In the district of Backergunge where operations had been commenced in December 1900, and where the staff had worked for two seasons in the saliferous area, the force was disbanded in June 1902, as the prevalence of illicit practices did not appear to be such as to justify its retention. The Inspector whose services were thus rendered available was deputed to the district of Noakhali to examine the evidence as to the existence there of the illicit manufacture of salt and to report on the establishment required in order to undertake preventive measures in the district. The result of his enquiries was to demonstrate that there was scope for a small special patrolling staff, and its entertainment is under consideration.

In Chittagong, the staff was reinforced by the addition of the same Inspector on the completion of his investigation in Noakhali, and it was thereby found possible to constitute a fourth range with its head-quarters at Chakaria towards the close of the year. The four ranges were grouped in two circles, each under an Inspector, and it is anticipated that a considerable improvement in administration will be thus effected. The results of the preventive operations in this district have hitherto given good promise of success, but the inadequacy of the staff working there has so far been a difficulty.

The Factory Circle in Puri was abolished on the 23rd May 1902, on which date the Tua Factory was closed. The preventive operations in the district continued as before.

In their letter No. 1336B., dated the 17th February 1903, the Board submitted their report upon the success which had attended the measures sanctioned in the Secretary of State's Despatch No. 223(Revenue), dated the 19th October 1899, in securing or increasing the revenue, and after the close of the year, their proposals for the reorganization of the Department with the object of placing the operations in each district under the control of the Magistrate-Collector with a view to its greater efficiency and more extended action, were communicated to Government with their letter No. 4048B., dated the 13th May 1903.

Special Police head-constables.

4. Under the orders of Government, No 1114T.—F., dated the 11th July 1902, the special police force entertained in the district of Midnapore for the prevention of offences against the Salt Law was abolished, and nine head-constables were employed in its place to accompany the patrol parties in the course of house-searches. An additional head-constable whose appointment was sanctioned in Government order No. 1987T.—F., dated the 18th October 1902, was employed for the same purpose in the new range in Chittagong. A question having been raised as to the legality of searches for contraband salt conducted with the assistance of head-constables travelling with a salt party outside the area of the station to which they were attached, Government in its orders No. 5728S.R., dated the 13th December 1902, to the Inspector-General of Police, Bengal, appointed such special head-constables to act as police officers in the specified areas in which they may be employed. These areas are being fixed according to the requirements of each preventive party in each district.

Wastage allowance on salt stored in inland bonded warehouses.

5. After consulting the Bengal Chamber of Commerce and the Collector of Customs, Calcutta, on the subject of the allowance for the wastage on salt during transit to, and storage in, inland bonded warehouses, the Board submitted the report referred to in paragraph 5 of their review of the operations of the preceding year, and it is at present under the consideration of Government. Measures for the enforcement of a closer supervision over the management of these inland *golas* were also considered during the year and certain suggestions for the amendment of the rules were offered which have since been approved by Government.

Minor changes.

6. The premises occupied or owned by the Calcutta Port Trust at the Kidderpore Docks and the waterways, quays, and warehouses included therein, were excluded during the year from the Salt Law limits. No change in the existing practice was thereby effected, but what had apparently been a legal omission was rectified.

New pass-stations at Khulna in the district of Khulna, and at Kaukhali, an outpost subordinate to the Perojpur police-station in the district of Backergunge, were established, the former during the year under report and the latter shortly after its close.

CHAPTER II.—STOCKS, IMPORTS, MANUFACTURES AND CLEARANCES.

7. * * * * *

Accounts of stocks and issues.

The stocks of salt held at the commencement of the year in all *golas*, both public and private, amounted to more than 36 lakhs of maunds, or over 23 lakhs of maunds in excess of the same figure for the preceding year during which importations had been unusually heavy. The quantity of salt imported during the year under report showed a decline of nearly 28 lakhs of maunds, although it totalled over one crore and 6 lakhs of maunds and was still considerably in excess of the importations during 1900-1901. The clearances were larger than in either of the two preceding years and amounted to over one crore and 13 lakhs of maunds. After allowing for wastage, the closing balance stood at 27,53,786 maunds. At the close of the year, there were 3,50,184 maunds of salt lying afloat in ships in the Port of Calcutta against 2,06,049 maunds at the end of 1901-1902.

It appears that the existence of the large stocks in the *golas* at the close of the previous year induced a general slackness in the import trade during the year under report. The percentage of the total importations which was bonded in the Sulkea and Kidderpore Dock *golas* continued to increase steadily and amounted to 71 per cent. during 1902-1903, as against 65 per cent. in the previous year. No serious difficulty was, however, experienced in providing the bonding space required by the trade, as the clearances from bond were heavy. Temporary partitions were erected during the year in the large *golas* at Sulkea and some extra space was thus obtained, while the

permanent subdivision of 23 *golas* by masonry walls has been since approved. Such expedients, however, afford a partial remedy only, and the need of additional accommodation on a more extensive scale is under consideration. The fluctuations of the trade lend an ever changing element to the question and it is difficult to gauge the fairly constant demand to meet which storage space should be provided, but there are grounds for supposing that arrangements for further warehouse room will shortly become inevitable.

8. * * * * *

Imports.

There was a decrease of 22·7 per cent. in the importations into Calcutta during the year. Nearly half of the total imports came from the United Kingdom, but English salt is being slowly, but steadily, replaced by salt imported from Aden and the Red Sea. Thus, as compared with 1898-99, when the quantity imported was about the same as during the year under review, the imports from the United Kingdom have decreased by nearly 10 lakhs of maunds, whereas those from Aden and the Red Sea have increased by over 12 lakhs of maunds. The steady decrease in the imports from the Persian Gulf Ports is ascribed to the gradual disappearance of the Arab sailing ships.

The importations into Chittagong again advanced by 76·9 per cent. compared with those of the previous year, in continuation of an advance of 70 per cent. during 1901-1902 in comparison with 1900-1901. The increase is attributed to larger demands from the adjacent districts owing to the facilities given by rail and boat.

9. * * * * *

Sales of imported salt from shipboard and bond.

There was an increase of 5·4 per cent. in the sales of imported salt, of which 19 per cent. was sold from shipboard and 81 per cent. from bond. The corresponding proportions in the preceding year were 32 and 68 per cent. In Calcutta there was a fall of 38 per cent. in the sales from the importing vessel direct, while there was an increase of 30 per cent. in the sales from bond. It would appear that the practice of bonding salt will gradually supersede the procedure of direct sale from shipboard. This result necessarily follows from the supersession of sailing vessels by steam. Of the boats carrying salt to Calcutta during the year, 94 per cent. were steamers.

Transactions in the Sulkea and Kidderpore Dock *golas*.

10. The total turn-over at the Sulkea and Kidderpore Dock *golas* for the past five years is shown below :—

	Mds.
1898-99	1,08,34,957
1899-1900	1,13,87,469
1900-1901	1,21,04,343
1901-1902	1,49,52,131
1902-1903	1,54,83,932

There was an increase of over 5 lakhs of maunds in the amount of salt handled at the *golas*, notwithstanding a decrease of about 30 lakhs of maunds in the total importations. The figures testify to the popularity of the *golas*.

The turn-over at Sulkea was 1,04,09,921 maunds, against 99,70,762 maunds in the preceding year. At the Dock *golas* it was 50,74,011 maunds in comparison with 49,81,369 maunds.

* * * * *

Inland bonded warehouses.

12. Four additional private warehouses were licensed during the year; three in the name of Babu Jagarnath Goberdhan Das (one in the town of Dacca and two at Narayanganj in the district of Dacca) and one in favour of Babu Gobinda Chandra Shaha, at Madaripur in the district of Faridpur. The two warehouses opened by Babu Jagarnath Goberdhan Das at Narayanganj and one belonging to Messrs. Turner, Morrison & Co. at the same place were, however, closed during the year, thus leaving 22 warehouses in all open at the close of the year.

* * * * *

The quantity of salt despatched to these inland bonded warehouses from shipboard and from bond in Calcutta amounted to 12,58,709 maunds, as compared with 13,53,091 maunds during 1901-1902, a decrease of nearly 7 per cent. There was thus a check in the volume of the consignments to these warehouses, but it is to be noted that the preceding year had shown an increase of over 29 per cent. as compared with 1900-1901.

* * * * *

Imports of Madras salt into Orissa.

16. The quantity of Madras *karkatch* and refined salt imported into Orissa from the different factories during the year was 8,28,823 maunds in comparison with 7,11,909 maunds in the previous year; the net increase was thus 1,16,914 maunds, or 16·4 per cent. The operations of the Oriental Salt Company from their factory at Naupada were pushed actively and were favoured by the exhaustion of the stocks of Lake salt. Thus, in Cuttack their sales rose from 1,55,722 maunds in 1901-1902 to 3,19,406 maunds during the year under review. In Puri, the sales of Madras salt from their factories and others, similarly rose from 52,970 to 95,659 maunds during 1902-1903.

The imports of Madras salt into the districts of Cuttack and Puri and the Tributary Mahals showed an aggregate increase of 1,50,954 maunds, though Balasore showed a decrease of 34,040 maunds, the net result being an increase of 1,16,914 maunds. The decrease in Balasore is attributed to the Oriental Salt Company having opened new depôts in the Kendrapara and Jajpore subdivisions in the district of Cuttack for the direct supply of Madras salt, whereas these places were formerly supplied from Chandbali.

There would seem to be a good future in Orissa for the sale of Madras salt and on the application of the Oriental Salt Company proposals were submitted to Government for the extension of the advantages of the inland bonded warehouse system to such importations. The law, as it stands at present, is applicable to salt imported by sea, only. Should this be done, a further impetus will be given to such sales which the opening of the East Coast Railway has already fostered.

CHAPTER III.—CONSUMPTION AND PRICES.

Consumption in Bengal.

17. The total quantity of salt which passed into consumption in the entire Province of Bengal during the year under review was 1,10,45,690 maunds. This is exclusive of 2,81,862 maunds, being the net exports by land, and inclusive of 16,847 maunds educed from saltpetre. In comparison with the preceding year the figures show an increase of 6,14,252 maunds, or 5·8 per cent. Of the total quantity the saliferous tracts (including the whole of Orissa) took 19,61,893 maunds, or 17·8 per cent. and the rest of the Province 90,83,797 maunds, or 82·2 per cent. The consumption per head in the saliferous tracts including Orissa was 5srs. 15chs. or 12·21 lbs., and in the rest of the Province, 5srs. 7chs. or 11·18 lbs.

* * * * *

The figures are approximate only, but the corresponding averages during the preceding year having been 12·34 lbs. within the saliferous area and 10·67 lbs. in the rest of the Province, there was a slight falling off in consumption in the former and a fair degree of improvement in the latter.

The rates of consumption per head of population in the Bombay and Madras Presidencies during 1901-1902 were 10·71 lbs. and 16·02 lbs. respectively.

18. * * * * *

Consumption of salt within the Salt Law limits.

During the year under report the consumption of salt within the Salt Law area rose by 42,797 maunds in continuation of an increase of 15,902 maunds in 1901-1902 compared with its predecessor. The consumption per head showed a small decline in the districts of Howrah and Khulna. In the former illicit practices are known to prevail, and a proper establishment for their prevention has hitherto been wanting. In the district of Khulna, the existing preventive staff has never been sufficiently strong to overcome the physical difficulties of supervision or the antagonistic attitude of the people. Proposals which will render

possible more stringent measures in both districts have been submitted to Government. The results achieved in Chittagong were satisfactory.

From special enquiries made in the district of Noakhali to which attention was drawn in the Board's report on the operations of the preceding year, it appeared that the low rate of average consumption per head in that district during 1901-1902, was in the main due to the unregistered importation of licit salt into the protected area. It will be seen, however, that the figures for 1902-1903 evidence some improvement. The only district which for the last two years has failed to show an average consumption per head of five seers or more, is Midnapore, and although there has been a slight improvement during the year under review, the Board consider that there is still scope for more energetic preventive action.

* * * * *

Consumption of salt in the town of Calcutta.

21. The quantity of salt consumed in the town of Calcutta during the years 1901-1902 and 1902-1903 amounted to 1,35,399 maunds and 1,52,373 maunds respectively, giving an average annual consumption of six seers and six chitaks, and seven seers and one chitak respectively, or of 13 and 14 pounds approximately per head of the population calculated on the census figures of 1901 plus the usual allowance for annual increase.

Prices of salt in Bengal generally.

22. * * * * The prices during the year under report were lower than in the preceding year in all districts, except seven (Birbhum, Howrah, Muzaffarpur, Monghyr, Purnea, Puri, and Singhbhum). It was only, however, in Singhbhum that the increase of price was particularly noticeable, and it is there attributed to the larger sales of the more expensive *panga* salt in place of the cheaper *karkatch* variety previously consumed. The divisional averages fell in all cases, and the average wholesale price for the whole Province was Rs. 3-10-9 per maund as compared with Rs 3-12-8 in 1901-1902, showing a fall of about two annas. Except at Muzaffarpur (where, however, the rise was small), the average price of salt per maund in the principal provincial bazars was lower than in the preceding year. The average for the twelve marts for which figures are quoted was Rs. 3-9-2 against Rs. 3-11-9 in 1901-1902, being a decrease of two annas seven pies per maund.

The average wholesale price of Liverpool salt per hundred maunds as sold from the ship's side in the port of Calcutta, exclusive of duty, amounted to Rs. 56 3-9, as compared with Rs. 69-11-5 in 1901-1902, a decrease of Rs. 13-7-8. The fall in price is ascribed to the large stocks in hand and to the general depression in the trade. The selling price of Liverpool salt per hundred maunds, exclusive of duty, which in 1901-1902 varied from Rs. 70-5-8 to Rs. 57-4-6, ranged in the year under report from Rs. 64-10-8 to Rs. 47-8-8.

CHAPTER IV.—PREVENTIVE MEASURES.

Preventive operations in the saliferous districts.

23. Operations for the prevention of illicit manufacture of salt were carried on, as in previous years, in the districts of the 24-Parganas, Midnapore, Khulna, Chittagong, and of the Orissa Division. Howrah, in so far as it was dealt with at all, continued to be worked by a small party under the Inspector of the Tamluk circle, in the district of Midnapore, under the immediate supervision and control of the Assistant Commissioner. Mention has already been made of the cessation of preventive operations in Backergunge.

Attachments, releases and confiscations in the saliferous districts, including Orissa.

24. During the year under review, illicit salt was attached, released, and confiscated in 1,163, 5 and 887 cases respectively, as against 929, 12 and 908 in the previous year, to the extent of 261, 85 and 155 maunds against 684, 546 and 150 maunds during the year 1901-1902. There was thus a decrease of 423 maunds, or 61·8 per cent., in the quantity attached, and an increase of 6 maunds, or 4 per cent., in the quantity confiscated. On an average about 9 seers of salt were attached and 7 seers confiscated in each case, as against 29½ seers and 6½ seers, respectively, in 1901-1902.

Number of seizures and unsuccessful searches.

25. The number of seizures and unsuccessful house-searches during the year under review was 1,228 and 12, respectively, as against 1,491 and 42 in the previous year. There were no unsuccessful house-searches in the districts of Puri, the 24-Parganas, Khulna and Howrah, while in the districts of Balasore, Cuttack, Midnapore and Chittagong the number of such searches was very small in comparison with the number of seizures effected. The general percentage of unsuccessful house-searches to seizures is also inconsiderable being only ·97 against 2·81 in the previous year.

26. * * * * *

Number of cases instituted under Acts VII (B.C.) of 1864 and XII of 1882.

There were 813 prosecutions during the year, against 1,238 in 1901-1902: out of 1,017 persons arrested and brought to trial, 817 were convicted, showing a percentage of 80. Cases of illicit manufacture of salt (section 9, Act XII of 1882) numbered 673, as compared with 953 in the previous year. The proportion of persons convicted of this offence was 79 per cent. of those brought to trial. The decrease in the number of cases chiefly took place in the districts marginally noted, all of which during the preceding year had shown a still larger increase in comparison with the year 1900-1901. In the 24-Parganas the decrease is attributed to the diminution of crime owing to the success of the preventive operations, and to the unfavourable character of the manufacturing season during which frequent thunderstorms repeatedly destroyed the efflorescence and rendered the soil unfit for scraping. The decrease in Balasore is reported to be due to a decrease in crime. In Puri it is ascribed partly to the prosperous condition of the cultivating class, who are as a rule driven to the manufacture of salt only on failure of their crops, and partly, as in the 24-Parganas, to the rains that fell during the year, both before and after the monsoon, far into the salt manufacturing season. There was no case of the possession of spontaneous or swamp salt during the year. It is reported that 27 cases in the 24 Parganas, 35 cases in Midnapore and 10 cases in Puri were lost, owing to the failure of police officers to attend house-searches. The cases were brought to the notice of the Magistrates concerned, and the police officers were suitably dealt with. During the year 31 opium cases were detected by the salt officers as against 39 in the previous year. A ganja case under the Excise Act was reported by the salt officers in Chittagong.

24-Parganas	...	175
Balasore	...	66
Puri	...	88

It is reported that except in certain saline areas in the district of Balasore, where the crops were below the average owing to the failure of the rains, the state of the harvests and the condition of the people were good.

Fines, forfeitures and rewards.

27. The fines and forfeitures realised during the year amounted to Rs. 7,689-0-5, while Rs. 6,567-10-8 were disbursed as rewards, as compared with Rs. 9,703-13-6 and Rs. 10,169-8-7 realised and disbursed during 1901-1902.

CHAPTER V.—FINANCIAL RESULTS.

29. * * * * *

Receipts and charges.

The results of the year, as compared with those of 1901-1902, show an increase of Rs. 7,70,656, or 2·9 per cent., in the receipts and a decrease of Rs. 77,023, or 14·8 per cent., in the charges, giving a net revenue of Rs. 2,63,61,090, which is in excess of that obtained during 1901-1902 by Rs. 8,47,679, or 3·3 per cent. The increase in receipts occurs mainly under the two heads of the Import Duty on Salt and Rent of Warehouses; the former was due to the heavier clearances from bond owing to a falling off in the importations, and the latter to the larger stocks of salt in the *golas* throughout the year. There was a marked fall in the excise duty on salt owing to the exhaustion of the stocks of Lake salt in Orissa.

30. There was an increase of Rs. 17,046 in the charges under the head "Salaries, Warehouses and Rewards" and a decrease of Rs. 84,341 under that of "Refunds of Customs Duty on Salt." * * * * * * . The sub-heads "Salaries of Establishment" and "Rents, Rates and Taxes" were mainly responsible for the increase; the

charges on account of establishment were raised by the opening of new bonded salt warehouses, * * , and to an increase in the overtime fees paid at Chittagong and in the pay of the menials at the Sulkea *golas*. The increase under the head "Rents, Rates and Taxes" was due to the higher rents paid to the Port Commissioners for the larger stocks stored in the Dock *golas* and to the larger payments to the Municipality owing to the increase in the number of *golas* occupied at Sulkea. The sub-heads "Rewards to Informers" and "Petty Construction and Repairs" showed a decrease. The former was attributable to the fewer cases sent up by the police at Chittagong.

* * * * *

* * * . The charges during the year under report, amounted in all to Rs. 2,20,363, against Rs. 2,20,904 in the previous year, showing a decrease of Rs. 541, or ·2 per cent.

Charges of the Bengal Salt Department.

* * * * *

36. The quantity of salt educed in the manufacture of saltpetre and removed from all the refineries in the Province on payment of duty during the year was 16,847 maunds as compared with 17,974 maunds similarly removed in 1901-1902.

Trade in saltpetre.

37. In the beginning of the year there were five saltpetre refineries at work in Calcutta and its environs, of which the licenses remained in force up to the 31st July 1902. In August the licenses of four refiners were renewed—two for refining saltpetre and the remaining two for refining saltpetre and educing salt therefrom. These refineries are situated, one at Soorah, two at Kakurgachi, and one at Ultadingi.

Saltpetre refineries in and about Calcutta.

The quantity of refined saltpetre produced was 44,903 maunds in comparison with 50,571 maunds, and the quantity of salt educed was 2,588 maunds against 5,594 maunds in 1901-1902. The quantity of salt excised was 1,201 maunds against 3,040* maunds in the preceding year. Educed salt is used locally in the manufacture of soap and for freezing purposes. In previous years a small quantity used to be exported to Burdwan, but for reasons unknown, this exportation has ceased.

The total receipts from license fees and duty amounted to Rs. 3,162 against Rs. 7,850 in 1901-1902, showing a decrease of Rs. 4,688, which is attributed to the general depression in the trade. The decline is reported by the Assistant Commissioner to be due to the fact that in former years Bihar used to manufacture only *crude* saltpetre, which came down to Calcutta in order to be refined for export. Bihar has now commenced to refine its *crude* saltpetre; and in consequence of the cost of labour and of fuel being less in that part of the country than in Calcutta, the Bihar refiners are able to compete successfully.

38. In the 24-Parganas, no survey was made of the saline tracts in the Diamond Harbour and Matla circles. In the Sundarbans circle, out of 25 lots, four villages and three islands, remaining to be surveyed at the end of the previous year, seven lots only were surveyed during the year. The insufficient progress made in the work is reported to be due to the frequent resignations of the officers employed. In the Midnapore district 18 villages out of 1,300 in the Tamluk circle and 20 villages out of 1,691 in the Contai circle were surveyed during the year by the regular staff of inspecting and detective officers of the district. No survey of saline areas was undertaken during the year in the district of Chittagong. The subject of surveying saline tracts has engaged the attention of the Commissioner of Salt, and the officers concerned have been directed to push on the work as fast as they can with the existing staff.

Survey of salt tracts.

* * * * *

46. Mr. T. Inglis was in charge of the office of the Commissioner of Excise and Salt throughout the year, and the Board desire to recognise his services. The Board's thanks are also due to Mr. L. F. Morshead, the Collector of Customs, Calcutta, and to Mr. A. S. Judge, Superintendent of the Preventive Service and Salt *Golas*, Calcutta, for their work during the year.

Concluding remarks.

* Revised figures.

ANNUAL REPORT OF THE MARINE DEPARTMENT FOR 1902-1903.

No. 1294Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 7th August 1903.

RESOLUTION.

READ—

Letter No. 2723, dated the 21st July 1903, from the Port Officer, Calcutta, submitting the Annual Report of his Department for the year 1902-1903.

AT the commencement of the year, the number of Pilots on the list was 49, or 3 short of the sanctioned number of 52. At the close of the year the number stood the same.

2. The number of vessels that arrived at the port during the year was 1,310, and of those that sailed from it 1,303, the total number of arrivals and departures having thus been 2,613, or 90 less than that of the previous year.

These figures represent a gross tonnage of 4,543,340 inwards and 4,514,004 outwards. The average tonnage of steam and sailing vessels, inwards and outwards, was 3,466, against 3,401 of the previous year.

3. The pilotage receipts during the year amounted to Rs. 11,53,222, against Rs. 11,30,598 during the previous year. Of the total number of vessels which visited the port, only 30 were sailing vessels.

4. Ten vessels were neaped for want of sufficient depth of water over the bars, against nine during the previous year. The average detention was 3·4 days. It is also reported that many vessels left short of cargo to avoid detention. The number of vessels detained at the Sandheads for want of Pilots was 17, compared with 24 in the previous year. The shortest detention was for 6 hours and the longest for 35 hours and 30 minutes. The average detention was for 18 hours and 33 minutes. The longest detention was due to a south-west gale; the others were due to a number of vessels arriving at the same time.

5. There were three collisions during the year, while the number of groundings was 18. In two cases of collision the Pilots concerned were to blame, while in respect to the groundings, the Pilots were held to blame in six instances.

6. Thirty-two preliminary enquiries into casualties to vessels were held by the Port Officer, of which six were referred to Special Courts of Enquiry. A further Special Court of Enquiry was held to enquire into the cause of an accident to a vessel while in charge of a Harbour Master. In nine cases the Pilots were held to blame, and they were suitably dealt with.

7. One hundred and twenty-six candidates appeared at the examinations for Colonial and Home Trade certificates of competency, of whom 73 passed. One hundred and thirty-one candidates also appeared at the different examinations for certificates of competency as Masters, Serangs, Engineers, and Engine-drivers under Act VI of 1884. Of these, 54 passed.

8. Mr. G. Robertson performed the duties of First Engineer and Shipwright-Surveyor throughout the year, while Mr. F. Olford performed the duties of Second Engineer and Shipwright-Surveyor. The gross receipts from surveys amounted to Rs. 39,588.

9. The work of the Department was conducted by Commander E. J. Beaumont, R.I.M., throughout the year. Lieutenant W. B. Huddleston, R.I.M., Assistant Port Officer and Deputy Shipping Master, reverted to the Royal Indian Marine on proceeding to England on one year's leave from the 1st October 1902, making over charge of his duties to Lieutenant C. B. Henley, R.I.M.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Offg. Secy. to the Govt. of Bengal.

WEATHER AND CROP REPORT.

For the week ending the 10th August 1903.

Burdwan.—Rainfall at Sadar 8·84, Kalna 5·60, Katwa 2·01, Raniganj 3·94. Weather cloudy with occasional shower. Transplantation of *aman* is going on. Sugarcane, *aus*, and jute doing well. Fodder sufficient. Water insufficient in parts of thanas Katwa and Mangalkot. No cattle-disease. Common rice sells at 11 seers at Sadar.

Birbhum.—Rainfall at Sadar 1·93, Rampur Hât 3·42. Weather seasonable. The rainfall was in the latter part of the week. Transplantation commenced. Sugarcane doing well. Rice sells at 10½ seers a rupee. Fodder sufficient.

Bankura.—Rainfall at Sadar 6·10, Vishnupur 3·61. Rain sufficient for transplantation throughout the district. Common rice sells at 10 seers a rupee. Fodder and water sufficient.

Midnapore.—Rainfall at Sadar 1·95, Contai 4·3, Tamluk 9·04, Ghatal 5·04. Transplantation continues. More rain wanted in Sadar subdivision. Prospects improved in other subdivisions. Paddy damaged by insects. Jute doing well. Weather seasonable. Fodder sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Contai	12	0	
Tamluk	11	12	
Ghatal	11	0	

Hooghly.—Rainfall at Sadar 3·93, Serampore 5·32, Arambagh 5·14. Prospects of standing crops fair. More rain wanted for transplantation at Kristonagore and Singur. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Serampore	9	14	
Arambagh	9	12	

Howrah.—Rainfall at Sadar 2·22. Weather cloudy and seasonable. The condition of standing crops good. Transplantation of *aman* paddy is in progress. Fodder and water sufficient. No cattle-disease. Common rice is selling at 10½ seers per rupee.

24-Parganas.—Rainfall at Sadar 4·01, Barasat 8·11, Basirhat 4·57, Diamond Harbour 8·58. Weather cool. More rain wanted in the Sadar and Basirhat subdivisions. *Aus* and jute doing well. Prospects brighter than in the last week. Transplantation of *aman* going on briskly. Common rice sells at 11¾ seers per rupee except in Diamond Harbour, where it sells at 10 seers per rupee. Condition of cattle good. Supply of fodder and water sufficient.

Nadia.—Rainfall at Sadar 8·30, Kushtia 3·22, Meherpur 5·03, Chuadanga 7·80, Ranaghat 7·99. Rainfall general. State of standing crops much improved since 5th; still more rain wanted in Kushtia and Meherpur subdivisions. No cause of any great anxiety for the present. Transplantation of *aman* going on vigorously. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	0	per rupee.
Kushtia	11	0	
Meherpur	11	4	
Chuadanga	12	0	
Ranaghat	11	8	

Murshidabad.—Rainfall at Sadar 2·10, Kandi 8·15, Jangipur 1·45, Lalbagh 3·50. Weather cloudy and rainy. Transplantation of paddy in Kandi subdivision going on briskly and standing crops much benefited by the rains. In Jangipur subdivision the rainfall, though scanty, has done immense good to *bhadoi*, but heavy rain urgently needed for transplantation of winter rice. Jute and sugarcane thriving in Lalbagh subdivision. Want of rain keenly felt. Prospects of *aman* and *aus* not satisfactory. No progress in transplantation; those transplanted have begun to die. Fodder sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	Not reported.		
Kandi	11	0	per rupee.
Jangipur	11	12	
Lalbagh	11	0	

Jessore.—Rainfall at Sadar 4·16, Jhenida 4·28, Magura 1·16, Narail 2·83, Bangaon 3·58. Recent rain has done much good to standing crops and prospects greatly improved. Transplantation now going on vigorously. Weather hot and cloudy. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee
Jhenida	12	0	
Magura	12	0	
Narail	12	5	
Bangaon	12	5	

Khulna.—Rainfall at Sadar 2·99, Bagerhat 3·87, Satkhira 4·21. Weather seasonable. More rain still urgently wanted. Transplantation of winter rice progressing and estimated at 60 per cent. *Til* sowings estimated at 77 per cent. Paddy plants were withering at places for insufficient rainfall. Prospects somewhat improved by recent rain. Cattle-disease reported from Khulna, Dumuria, Morelganj, Kaligunge, and Budhatta. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	12	per rupee.
Bagerhat	13	0	
Satkhira	11	0	

Rajshahi.—Rainfall at Sadar 1·18, Nator 2·16, and Naugaon 1·64. Prospects of standing crops better. There have been some showers of late, but more rain is wanted. Jute suffering. Transplantation of winter rice slowly going on. Condition of cattle good. Fodder and water sufficient. Common rice selling at 12 seers per rupee

Dinajpur.—Rainfall at Sadar 1·29. Slight fall throughout this district. Weather seasonable. Standing crops fair. More rain urgently wanted for transplantation of winter rice and for growth of *bhadoi* and jute. No cattle-disease. Fodder and water plentiful. Common rice is selling at 13 seers a rupee.

Jalpaiguri.—Rainfall at Sadar 4·34, Alipur Duars 1·50. Weather hot. Transplantation of *haimanti* paddy going on. More rain wanted. *Bhadoi* paddy and jute doing well. Fodder and water sufficient everywhere. Common rice sells at 11½ seers a rupee.

Darjeeling.—Rainfall 7·55. Weather wet. *Hills—Bhutta, phapher kagni, chota marua* and *bhadoi dhan* maturing. *Bara marua* and *haimanti dhan* being sown. *Terai*—Winter rice being transplanted. Prospects fair. Coarse rice sells as follows:—

	Srs.	ch.	
Hills	9	0	per rupee.
Terai	13	0	

Bhutta sells at Darjeeling at 13 seers and at Kalimpong at 12 seers per rupee.

Rangpur.—Rainfall at Sadar 1·19, Nilphamari 0·76. Kurigram 0·50. Weather hot. Rain badly wanted for transplantation of *aman*. Cutting of jute retarded for want of water. Harvesting of *bhadoi* going on. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Nilphamari	11	8	
Kurigram	12	0	

Bogra.—Rainfall at Sadar 2·41. Slight fall everywhere. Weather hot and cloudy, with passing showers. More rain urgently needed for transplantation. Cutting of *aus* and jute going on. Common rice sells at 14¼ seers a rupee.

Pabna.—Rainfall at Sadar 3·29, Sirajganj 1·60. Weather cloudy. Prospects of standing crops fair. Fodder and water sufficient. More rain is urgently wanted everywhere. Autumn rice is being harvested. Jute reported to be bad owing to want of rain. *Rabi til* outturn 100 per cent. Cattle-pox in Chatmohar. Common rice sells at 12 seers 12 chitaks a rupee.

Dacca.—Rainfall at Sadar 1·99. Fall general. Prospects of crop fair. Weather hot and cloudy. Fodder available. No cattle-disease. Common rice sells at 12¾ seers a rupee.

Mymensingh.—Rainfall at Sadar 1·87, Kishorganj 2·68, Jamalpur 2·41, Netrokona 4·22, Tangail 0·15. Weather hot and cloudy. Condition of crops a little improved by recent rain. More rain pressingly needed for transplantation of rice. Outturn of *til* estimated at 87 per cent. Fodder and water sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0	per rupee.
Kishorganj	13	0	
Jamalpur	15	0	
Netrokona	14	14	
Tangail	13	8	

Faridpur.—Rainfall at Sadar 4·00, Goalundo 1·68, Madaripur 0·87. Weather seasonable. Constant heavy shower. Prospects of paddy improving owing to recent rain. Jute steeping in progress. Fodder available. Common rice sells at 13 seers per rupee.

Backerganj—Rainfall general. Sadar 5·19. Cutting of autumn and transplanting of winter rice continue. Jute harvesting begins. Cattle-disease reported from Patuakhali, Pirojpur, and Dakhin Shahbaspur subdivisions. Common rice sells as follows:—

	Srs. ch.	
Aman	12 8	per rupee.
Aus	13 8	

Tippera.—Rainfall at Sadar 2·85, Brahmanbaria 2·82, Chandpur 3·14. Weather hot and cloudy. Prospects good. Harvesting of *aus*, reaping of jute, and transplantation of winter rice going on. Fodder and water sufficient. Cattle-disease reported from Sadar thana. Common rice sells as follows:—

	Srs. ch.
Sadar	14 0
Brahmanbaria	16 13
Chandpur	13 12

Noakhali.—Rainfall at Sadar 5·15, Feni 10·01. Weather showery. More rain wanted. Prospects improved, though not good. No cattle-disease. Fodder and water sufficient. Common rice sells at Sadar at 13½ seers and at Feni at 16 seers per rupee.

Chittagong.—Rainfall at Sadar 9·78, Cox's Bazar 16·38. More rain wanted. Cultivation of *aman* crop going on. Fodder and water sufficient. Cattle-disease reported. Common rice selling at 12 seers 10 chitaks per rupee.

Chittagong Hill Tracts.—Rainfall 3·78. Weather cool with occasional showers. Transplantation of winter paddy commenced. *Jhoom* paddy ripening with prospect below average. No cattle-disease. Rice sells at 13 seers a rupee.

Patna.—Rainfall at Patna 0·90, Dinapore 2·84, Barh 2·35, Bihar 1·93, Bikram 3·35, Hilsa 0·45. Weather showery and somewhat cooler than last week. The rain during the week has improved the prospect of *bhadoi* which was withering, but has done little for *dhan* in many places. Owing to want of rain the paddy had not been transplanted, and the seedlings have withered. Prices have risen everywhere and now are the same as last year in Barh and Bihar, and slightly lower in the Sadar and Dinapore. Prices of common rice are as follows:—

	Srs. ch.	
Sadar	12 0	per rupee.
Barh	11 8	
Bihar	10 0	
Dinapore	12 8	

Gaya.—Rainfall at Sadar 5·17, Nawadah 7·03, Jahanabad 1·40, Aurangabad 4·07. Weather rainy. There has been a general rainfall throughout the district. It has saved the *bhadoi* crops and the paddy seedlings. Transplantation of the latter taken up. More rain still wanted in Jahanabad. Fodder and water for cattle sufficient. Average price of common rice is 11 seers per rupee.

Shahabad.—Rainfall at Arrah 2·96, Buxar 5·28, Bhabhua 3·63, Sasaram 7·82, Dehri 6·16. The recent rain has much improved the prospects of the standing crops and removed the anxiety. Paddy-sowing in progress. Prices have fallen. Rice sells at Sadar at 11 seers per rupee.

Saran.—Rainfall at Chapra 2·60, Siwan 2·49, Gopalganj 2·06. Weather cloudy and rainy. Rainfall during the week has been only beneficial to the *bhadoi* crops. More rain wanted for transplantation of winter rice. Cattle-disease at Manjhi continues. Fodder and water sufficient. Prices are—Common rice sells at 13 seers and maize at 20 seers per rupee at Chapra.

Champaran.—Rainfall at Motihari 3·89, Bettiah 2·80. Rain has been beneficial to standing crops. Prospects of *bhadoi* favourable. Rice being transplanted in some parts, but more rain wanted. No cattle-disease. Fodder and water sufficient. Common rice sells at 16 seers and maize at 32 seers per rupee.

Muzaffarpur.—Rainfall at Sadar ·41, Hajipur 1·75 and Sitamarhi ·56. Weather hot and generally cloudy. Rain of the week has given life to the crops. Transplantation of paddy in few places in Sitamarhi subdivision and weeding of *bhadoi* crops going on. More rain wanted. Fodder and water sufficient. Prices are—Common rice 12 seers and maize 20 seers a rupee.

Darbhanga.—Rainfall at Sadar 0·48, Samastipur 0·75, Madhubani 1·69. Weather hot and cloudy with east wind. Rainfall has done much good to the *bhadoi*, but more rain is wanted for transplantation of paddy. Prospect of *bhadoi* somewhat promising. Fodder and water sufficient. No cattle-disease reported. Common rice sells as follows :—

	Srs.	ch.	
Sadar	13	4	per rupee
Samastipur	11	0	
Madhubani	13	5	

Monghyr.—Rainfall at Sadar 2·54, Begusarai ·69, Jamui 2 24. Weather hot and cloudy. Sugarcane doing well. Ground caked hard and *bhadoi* almost spoilt in parts. In many places paddy, *janera*, chilli, *kodo* and *ahua* could not be cultivated for want of rain. Recent rains have done immense good to the standing paddy and *bhadoi* crops. Prospects very little and gloomy. Water sufficient. Fodder scarce in some places. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	14	per rupee.
Begusarai	11	0	
Jamui	11	0	

Bhagalpur.—Rainfall at Sadar 2 49, Banka 4·52, Madhipur 5·66, Supaul 1·44. Weather cooler and cloudy. In Sadar and Banka subdivisions, rain has saved late sown *makai* for present, but has come too late for early *makai*. It has enabled cultivators to plough for transplantation of paddy, but has only been sufficient to enable transplantation to begin in a small area round Banka. Heavy rain at an early date is urgently needed. The condition of seedlings has improved. Crops are doing well in thanas Madhipura and Kishanganj. But rain urgently needed in thana Bangaon and in Supaul subdivision to enable transplantation to be completed. It is at present stopped for want of rain. Fodder and water sufficient. Some cattle-disease is reported. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	10	per rupee.
Banka	10	0	
Madhipura	14	0	
Supaul	13	0	

Purnea.—Rainfall at Sadar 1 97, Kishanganj 2 41, Araria 3·65. Fall general. Transplantation of *aghani dhan* going on, but more rain is wanted everywhere. Weather hot and cloudy. Cattle-disease reported from Forbesganj thana. Fodder and water sufficient. Common rice sells at Sadar at 11 seers and at Kishenganj and Araria at 12 seers per rupee

Malda.—Rainfall at Sadar 1·21, Chanchal 2·54, Shibganj 4·25, Gazole 1·09. State of *bhadoi*, jute, *makai* and other standing crops little improved by the recent rain. More rain is urgently needed for transplantation of winter rice. Fodder and water sufficient. Cattle-pox reported from Tulsihatta and Kharba thanas. Common rice sells at 12 seers per rupee.

Sonthal Parganas.—Rainfall at Dumka 2·41, Deoghar 4 20, Godda 1·18, Jamtara 1·78, Pakaur 1 00, Rajmahal 1·55. Weather hot and cloudy; at Deoghar rainy. Transplantation of winter rice being pushed on at Dumka and Deoghar. But in other subdivisions it has almost stopped Prospects of *bhadoi* improved. Indian-corn favourable. More rain generally needed Fodder and water sufficient. Common rice continues to sell at 11 seers per rupee at Dumka.

Cuttack.—Rainfall at Sadar 2·30. Fall general. More rain wanted. Weeding and transplantation of *sarad* going on; *beali* in ears. Fodder and water available. Common rice sells at 14 seers 7 chitaks per rupee at Cuttack.

Balasore.—Rainfall at Sadar 2·62. Fall general. *Beali* paddy being weeded and in ears at places. *Sarad* crop being puddled and transplanted. Miscellaneous crops thriving. No cattle-disease. Fodder and water sufficient. Common rice sells at 14 seers per rupee both at Sadar and at Bhadrak.

Angul.—Rainfall at Sadar 2·55, Bisipara 3 03. Weather cloudy and hot. Puddling and transplantation of paddy in progress. Common rice sells at 14 seers and 13½ seers per rupee at Sadar and Khondmals respectively.

Puri.—Rainfall 2·63 inches. Weather cloudy, hot, and rainy. Puddling and transplanting of winter rice continues. Miscellaneous crops growing well. Sugarcane leaves are being tied. Cotton pods are being plucked. Harvesting of *dalua* paddy nearly completed. Outturn 12 annas. Weeding of *beali* paddy going on. Fodder and water-supply sufficient. Common rice sells at 15 seers per rupee.

Hazaribagh.—Rainfall at Sadar 4·76, Giridih 2·57. There was more or less rainfall in all parts of the district Transplantation of paddy commenced everywhere; but more rain is badly wanted. Prospects of early *bhadoi* crops are moderate; they are backward, but not seriously injured. Fodder sufficient. Water still scarce. Generally speaking crops are good in the south of the district, but suffering somewhat in the north. Common rice sells at 11 seers per rupee.

Ranchi.—Rainfall at Sadar 2·97. Weather cloudy. State of standing crops good. Transplantation of paddy continues, but more rain is wanted. Cattle-disease reported from four thanas. Fodder and water sufficient. Common rice sells at Sadar at 11 seers and at Gumla at 16 seers per rupee.

Palamau.—Rainfall at Sadar 1·55. Weather hot and cloudy. Though small at Sadar, heavy falls of 5 and 6 inches were recorded in the district. Prospects of *bhadoi* crops enormously improved; but owing to comparatively local character of rain, their condition is not uniform: 8 to 10-anna crop may still be hoped for. Transplantation of winter rice begun in about 90 per cent. of the villages. If good rain recurs in 10 days, 12-anna rice crop is still possible. Cattle-disease continues. Prices have risen greatly. Common rice sells at 10 seers 2 chitaks and maize 16 seers 14 chitaks per rupee. They will fall if rain again comes.

Manbhum.—Rainfal at Sadar 3·47, Gobindpur 5·81. Weather seasonable. Prospects of crops fair Fodder and water sufficient. Cattle-disease reported from Barrabazar. Common rice sells at Sadar and Gobindpur at 9 seers per rupee.

Singhbhum.—Rainfall 4·68. Rain not yet seasonable. More downpours needed. Transplantation going on. Fodder sufficient. Weather hot. Common rice sells at 12 seers per rupee.

General Summary.—Rainfall during the week was general but unequally distributed and, in some districts very insufficient. In Patna, Gaya, Shahabad, Saran, and Palamau the prospects of the *bhadoi* crop are much improved, but more rain is still urgently needed for the winter rice crop. Standing crops in Monghyr and Bhagalpur have benefited by the recent rain, but transplantation is retarded for want of more rain. Most of the districts urgently require more rain; prospects generally have improved, but are still unfavourable. Cattle-disease reported from 12 districts. Fodder and water generally sufficient. The price of common rice has risen in 18 districts, has fallen in 4, and is stationary in the remainder.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF JULY 1903.

WEATHER conditions have been exceptional throughout the month, not only over the Province, but also in the north of the Bay. A consideration of the changes which occurred from day to day and of the temperature and rainfall distribution falls naturally into two periods, because of a disturbance which passed over the Province from north-east to south-west in the early part of the second week. Up to the time of that occurrence weather was similar to what obtained in June. That is ordinary monsoon weather prevailed in the east of the Province and in Assam with general and in places heavy rain and low temperature, while in the western districts there were still comparatively dry westerly winds and an almost entire absence of rainfall. At the beginning of the month the difference from normal temperature varied from excess of 8° at Dehri to defect of 3° in East Bengal.

Pressure oscillations continued unimportant during the first week, but temperature was rising steadily though slowly in the western districts, and the deficiency noticed at the beginning of the month in the eastern districts almost disappeared On the 6th and 7th mean excess in temperature varied from 10° in the west of Bihar to 1° in the eastern districts.

The important change began on the 8th, and was shown by a fall of pressure which appeared first in the north-east of the Province. It was general in Bengal on the 9th, on which date there was a more than usually steep gradient over Bengal with strong southerly winds. On the 10th this fall of pressure was followed by a brisk rise, which, like the previous fall, appeared to move in a direction roughly from north-east to south-west. On the 12th an area of low pressure was shown over the north of the Bay.

During these days, from the 8th to the 11th, while the above series of pressure changes were passing over Bengal, heavy rainfall, caused apparently to a large extent by thunderstorms, spread from Assam and North Bengal towards the south-western districts. Owing to the ordinary monsoon conditions during the early days of the month heavy rain had been falling in parts of North Bengal, but the 5th and 6th were comparatively dry days. On the 8th heavy rainfall became general and continued in the north-eastern districts until the 11th. Meanwhile the disturbance to which this rainfall was due was advancing in a south-westerly direction, and the rainfall which it caused is shown in the tables as occurring in Lower Bengal on the 11th and 12th and in Bihar on the 12th and 13th.

This rainfall, as has been already stated, was due to local storms and was accompanied by a rapid fall of temperature, which began in the north-east on the 9th, had extended further westward on the 10th, and was very marked over North Bengal on the 11th. On the 10th the difference from normal temperature varied from excess of 12° in the west of Bihar to defect of 2° to 3° in Assam, on the 11th it varied from excess of 8° in Chota Nagpur to defect of 7° in North Bengal, and on the 12th defect had extended to Bihar, while in the western districts the largest excess was 5° in Chota Nagpur.

These striking changes between the 9th and 11th were probably due to a stronger northerly element in the upper wind over Bengal; and the same wind appears to have initiated and maintained the formation of small cyclonic storms over the north-west angle of the Bay. Between the 12th, when the first depression began to form, and the end of the month, four depressions appeared at regular intervals of five days, so that the last of the series dated from the 27th. Throughout that period the lower winds in Bengal were almost continuously from the east; and although they changed to south and at times south-west for a short time between the breaking up of one depression and the commencement of the next, that interval was too short to allow any considerable advance of southerly winds into Bengal. The consequence was that rainfall was unusually light over a great part of the Province during the latter half of the month, and that the total rainfall for July was much below the normal in all parts except Orissa. That division and the adjacent parts of South-West Bengal and Chota Nagpur being more directly under the influence of the depressions received fairly copious rainfall, but Orissa alone shows excess.

During the last week rainfall almost entirely ceased in the west of Bihar, cloud to a large extent dissipated, and exceptionally high temperatures, up to 102°, were recorded. On the 31st mean excess varied from 5° to 10° over the greater part of South Bihar and in the west of North Bihar, but in other parts of the Province excess was only moderate, generally about 2°.

The depressions which formed in the north-west of the Bay during the latter half of the month were less regular than usual in their after-movement. They all moved westward into Orissa, but only the third moved further west in any well-defined form. The first two practically broke up over Orissa. The last in the early days of August recurved northwards into Bihar and the adjoining parts of the United Provinces. Showery weather was fairly

continuous in Bengal proper while the depressions were forming, but the showers being due to passing squalls were light and scattered.

Pressure was in moderate excess at the beginning of the month. It diminished steadily in the early days, and there was a considerable defect on the 9th and 10th, while the disturbance from the north was passing over the Province. Subsequently to the 12th when the first depression began there was almost continuous low pressure, any small excess which occurred being in the northern districts. Of the four depressions which developed over the north-west of the Bay, the only one which attained to more than moderate depth was the first on the 12th and 13th, when defect in the central area was ·25 inch. With the others defect was never more than ·15 inch.

Temperature was more frequently above than below the normal, but the variation was rarely large except in the western districts, where hot season temperatures were at times recorded. These were most marked at the beginning and again at the end of the month, excesss in day temperatures being occasionally as much as 12°. Mean excess for the month in Bihar was 3°·4, in Chota Nagpur 2°·5, and in other parts of the Province between 1° and 1°·5.

Rainfall distribution throughout July was never such as obtains with a generally established monsoon. During the first ten days rainfall was largely confined to the eastern districts, where it was copious. In the west only light scattered showers were falling. After the important change occurred about the 10th and depressions began to form over the north-west of the Bay, the heavy rain ceased in the east and the light showers became general except in Orissa, where the depressions caused daily moderate to heavy rain. In Bihar, more especially in the western districts, rainfall was exceptionally light.

The total average fall for the whole of Bihar was only 4·2 inches, the normal for the month being 13 inches. The next lowest was South-West Bengal, which received 6 inches as compared with the normal 12. In Chota Nagpur the fall was 8·5 inches, nearly 6 inches in defect, and in North and East Bengal there was a large defect owing to the light scattered showers which after the change about the 10th continued during the remainder of the month. In Orissa moderate to heavy rainfall prevailed after the depressions began on the 12th, the average fall being 14 inches, 2·6 inches in excess.

It will be seen from the table given below that since the commencement of the present year rainfall in Bihar has been steadily below the normal, and that it has exceeded 50 per cent. of that amount only twice, in February when it was 62 per cent., and in June 80 per cent. The total for the seven months to the end of July is 50 per cent. of the normal in Bihar, about 70 per cent. in South-West Bengal and Chota Nagpur, about 80 per cent. in East and North Bengal and 95 per cent. in Orissa.

Full details of the rainfall in Bengal in all districts are given in the accompanying tables day by day throughout the month.

The following table gives a comparison of the falls in the various divisions during the month of July with the normal fall, the actual being given as a percentage of the normal fall. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total of the falls of the last seven months of the year in each division expressed as a percentage of the normal fall:—

The average fall of the corresponding period for 24 years, Surveyor-General's Office	38·00

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The month of the rain-gauge is one foot above the ground.

[Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.]

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder.

MARINE DEPARTMENT.

The 13th August 1903.

No. 99Marine.—Mr. F. W. Moore, Junior Master Pilot, is granted privilege leave for one month and twenty-five days, under article 676 (*a*) of the Civil Service Regulations, with effect from the afternoon of the 4th August 1903.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

The 14th August 1903.

No. 100Marine.—In exercise of the power conferred by section 5 of the Indian Explosives Act, 1884, and in supersession of the rules sanctioned under the Notification of this Government No. 6Marine, dated the 10th January 1902, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following amended rules to regulate the transport and importation of explosives, other than those mentioned in section 14 of the Act, in the Port of Calcutta.

These rules are supplementary to the rules relating to the transport and importation of explosives made by the Governor-General in Council and published in Home Department Notification No. 5528, dated the 11th October 1901, and amended under Notifications Nos. 2336 and 2547, dated the 11th June and the 25th June 1903, respectively.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

N.B.—"Explosive," as defined in section 4, Act IV of 1884, and as used in these rules—

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powder, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions and every adaptation or preparation of an explosive as above defined. It also includes any dangerous substance which may have been ordered by the Governor-General in Council, under section 17 of the Indian Explosives Act, 1884, to be deemed an explosive.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosive, as defined in section 4, Act IV of 1884, except 15 lbs. of common gundowder in addition to 12 rockets and 12 blue-lights. All explosives which vessels are by this rule permitted to keep on board shall be stored in a copper magazine out of risk of fire and explosion.

All explosives which by this rule may be ordinarily retained on board vessels in port shall be discharged before a vessel is taken into dry dock.

2. All inward-bound vessels carrying explosives in excess of 15 lbs. of common gunpowder, in addition to 12 rockets and 12 blue-lights, are prohibited from proceeding above Budge-Budge, and the master of any vessel lying within the port which shall have on board any explosive in contravention of these rules shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6 and 7, as laid down in the rules issued under Government of India Notification No. 5528, dated 11th October 1901, that is to say, gunpowder, ammunition and fireworks in excess of the quantity prescribed in Rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping the powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the keeper in respect of the ship's powder shall not commence until it is landed on the bank, and shall cease as soon as it is shipped on board the boat. Every precaution will be taken to insure the safety of the powder while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's powder, such vessels shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of such consignments, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules published under Government of India's Notification No. 5528, dated 11th October 1901, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, percussion caps and, under certain conditions, fuzes for shells and tubes friction for guns brought as part of a general cargo and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' bye-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any

explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

7. In order to avoid unnecessary detention, masters of vessels requiring the use of the powder-boat shall hoist a flag at the fore-topmast head on coming in sight of the magazine as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ships' gunpowder previously to their being landed; if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when artificial lights are required to be used, and no explosives shall be landed, received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such master for the re-delivery of such packages.

11. Before entering the limits of the port, the master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather, or by being in distress from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghat, and the master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels outward bound, who may require ship's gunpowder for their outward voyage, shall not take such powder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 15 lbs. of common gunpowder in addition to 12 rockets and 12 blue-lights.

15. Masters of vessels who have deposited ship's powder at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders shall be forwarded to the keeper to place the powder in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the powder on board, the receipt granted by the magazine-keeper shall be given up.

16. Boats shall be permitted to take on board at the Moyapore magazine and bring as far as Neemuck Mehal Ghat, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50 lbs. of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder under the provisions of Rules 16 and 17 shall be allowed to proceed above Neemuck Mehal Ghat. All such powder shall be landed at Neemuck Mehal Ghat, and no powder shall be landed at any other ghat, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamp between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Home Department, No. 5528, dated 11th October 1901, must make their own arrangements for the discharge of the explosives:—

CLASS 2.—Nitrate mixture.	CLASS 4.—Chlorate mixture.
„ 3.—Nitro compound.	„ 5.—Fulminate.

21. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore magazine. They shall only be allowed to enter, and pass through, the port under the supervision of the Port Police and subject to such restrictions as may, from time to time, be ordered by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the rules promulgated by the Government of India under Notification No. 5528, dated 11th October 1901. But they may be landed at Diamond Harbour and conveyed thence by rail to Durgapur: provided they are taken direct from the vessel to wagons; or if there be no wagons ready to receive them, arrangements are made for their safe custody after leaving the vessel.

23. Boats containing explosives of the classes specified in the two foregoing rules may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

DACCA DIVISION.

UNIVERSITY ENTRANCE EXAMINATION.

Private Students.

1. A student who has not attended any H. E. School recognised by the University since the 1st September next preceding the Entrance Examination or has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private student.

2. The term "Private student" includes school-masters.

3. Private students desirous of being sent up to the ensuing University Entrance Examination must appear at the test examination of one of the undermentioned schools:—

(1) Dacca Collegiate School.	(3) Faridpur Zilla School.
(2) Mymensingh Zilla School.	(4) Barisal Zilla School.

4. The test examinations of the zilla schools will be held on the 16th December 1903 and the following days. The date of examination of the collegiate school should be ascertained from the Head Master of that school.

5. Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions:—

(*a*) that he has not failed at the test examination of any Entrance school during the current session;
(*b*) that he has not left school from any class lower than the first; and
(*c*) that he has left the school in which he last read with a transfer certificate, or (in case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt.

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *bonâ fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *bonâ fide* teacher in all of them.

6. Every private candidate must pay a fee of Rs. 2 to the Head Master of the school at which he appears for examination. After payment of the necessary expenses, the balance of fees will be paid to the examiners as remuneration.

7. He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test examination.

8. The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination, and are authorised to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and transmission to the Registrar of the University of Calcutta in due time.

9. Private candidates should arrange to remit their examination fees, together with the application forms direct to the Registrar.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools will be admitted to the F.A. and B.A. Examinations as private candidates, provided they have served in their respective capacities for a period of two academical years.

Bonâ fide teachers are those who hold paid appointments in English schools teaching at least the Middle English standard.

2. Exceptions to the above rule will be made in case of those candidates who, after failure at a previous examination, have served for six months since the date of the examination. If, however, a candidate does not complete six months' service at the time of submitting his application, he must satisfy this office that he will stick to the post till he completes six months' service before the examination.

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, and also the University certificates, in proof of their having passed the Entrance or F.A. Examination, as the case may be. Candidates who were admitted to a previous examination should produce the Registrar's receipt in addition.

4. Applications must reach this office on or before the 9th January 1904.

5. Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 6th February 1904.

DACCA,
The 3rd August 1903.

MUHAMMAD IBRAHIM,
Inspector of Schools, Dacca Division.

OFFICE MEMO.

RULES FOR APPEARING AT THE F.A. AND B.A. EXAMINATIONS FOR CANDIDATES FROM THE RAJSHAHI DIVISION, WHO ARE NOT STUDENTS OF ANY AFFILIATED INSTITUTION.

DEPUTY INSPECTORS OF SCHOOLS, Sub-Inspectors of Schools, and *bonâ fide* masters of English schools, who have served as such for the full period of two academical years, or of six months after the examination of the same class last held by the University, in the case of those only who were admitted to a former examination of that class, will be admitted to the abovementioned examinations. The applications of school-masters should be accompanied by certificate of length of service from the Secretaries or Managers of the schools in which they are employed, and should reach this office not later than the 6th January 1904. The application of a school-master for permission to appear at the F.A. or B.A. examination should be signed by him in the *presence* of the Secretary or a Member of the Managing Committee of the School in which he is employed. The application should be forwarded to this office for counter-signature, together with the Registrar's certificate, to prove, if this be the case, that the candidate has appeared at the examination in a previous year, and the certificate in proof of his having passed the Entrance or F.A. examination, as the case may be, and it will be sent back to him (the candidate) who will have to send it, together with the examination fee, to the Registrar of the University *direct*. School-masters are not required to pay any fee for getting their application for permission to appear at either of the abovementioned examinations countersigned by this office.

2. Candidates should read carefully the form of the certificate which this office is required to sign, and should be careful to supply all information and documents required, including the Registrar's receipt in the case of those school-masters who have been admitted to a former examination of the same class, without which the Inspector must decline to sign the certificate.

3. By *bonâ-fide* masters of schools are to be understood masters who hold regularly paid appointments in English schools, teaching at least the M.E. course.

7. Darjeeling ,, ...	Darjeeling High School ...	

The examinations will begin as stated above, and each private student will pay a fee of Rs. 2 to the head of the institution at which he appears for examination. The balance, after payment of expenses (stationery, etc.), will go as remuneration to the examiners

3. Applications for permission to appear must be sent so as to reach *this office* not later than the 24th November, with the following information, etc.—

From Private Candidates proper.

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate from the same; or

(*c*) In the case of a candidate who previously appeared at the Entrance examination, the Registrar's receipt (in original) for the fee paid.

(*d*) Age of the candidate.

From Schoolmasters.

(*e*) A certificate from the Secretary or Proprietor of the school in which the candidate is serving, to the effect that he has been a *bonâ-fide paid* teacher of the school in which he teaches, and has been so ever since the 1st June 1903. In case of a schoolmaster who has served *in more than one school*, he must produce certificates from the several schools in proof of his having been a *bonâ-fide paid* teacher all along since the 1st June 1903.

Failing to produce the above certificate or certificates, a schoolmaster will be subject to the rules applicable to *bonâ-fide* private candidates, as given above.

4. If this office is satisfied that all is in order, the Inspector will countersign and return the application, and this then will be the candidate's passport for admission *to the test-examination.*

5. The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 2nd January with their applications for admission to the Entrance examination, and in the case of those candidates who have satisfied the test, he will cause them to sign their application forms in his presence and will grant the necessary certificates, and then forward the applications to this office for countersignature, after which they will be sent by the Inspector *direct* to the candidates.

6. Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur.

7. *Under no circumstances should the entrance fee be sent to this office.*

8. Private students will understand that the test-examination of any schools other than those named above will not be accepted by this office.

9. Addresses of private students should be supplied to this office.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

W. C. MACPHERSON,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

PUBLIC.

Simla, the 13th August 1903.

No 2929—The Governor-General in Council is pleased, under section 27 of the Indian Arms Act, 1878 (XI of 1878), to make the following addition to clause (9) of paragraph 1 of the Notification of the Government of India in the Home Department, No. 518, dated the 6th March 1879, as amended by subsequent notifications, namely:—

After sub-clause (*d*3) the following shall be added, that is to say—

"(*d*4) Such officials of the Paigah Nobles and the larger Jagirdars of the Hyderabad State as may be authorized by the Resident at Hyderabad to carry arms when travelling on duty from one part of the Hyderabad territory to another part of the same territory."

EXAMINATIONS.

Simla, the 8th August 1903.

No. 470.—The following Regulations respecting the examination of Candidates for the Civil Service of India, to be held in August 1904, are published for general information:—

[*Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.*]

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

An open Competitive Examination for admission to the Civil Service of India will be held in London, under the subjoined Regulations, commencing on the 1st August 1904.

The number of persons to be elected at this Examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received, on or before the 1st July 1904, *an application on the prescribed form, accompanied by a list of the subjects in which the Candidate desires to be examined.*

If Candidates who fill up and return the Application Form do not receive an acknowledgment of it within four complete days, they should write to the Secretary, Civil Service Commission, Burlington Gardens, London, W.

The Order for admission to the Examination will be posted on the 18th July 1904 to the address given on the Form of Application. It will contain instructions as to the time and place at which Candidates will be required to attend, and as to the manner in which the fee (£6) *is to be paid.*

CIVIL SERVICE COMMISSION,
17th June 1903.

REGULATIONS.

*** *The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year:—*

1. An Examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) that he is a natural-born subject of His Majesty;

(ii) that he had attained the age of twenty-one, and had not attained the age of twenty-three, on the first day of the year in which the Examination is held;

[*N.B.—In the case of Natives of India it will be necessary for a Candidate to obtain a certificate of age and nationality issued under Notification of the Government of India, No. 2252, dated 21st August, 1888, as amended by Notification No. 404, dated 19th May, 1898, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division, within which his family resides, or should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.*]

(iii) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India;

(iv) that he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee, will be admitted to the Examination. The Commissioners may, however, in their discretion at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries, in the case of any Candidate, should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a Probationer.

4. The Open Competitive Examination will take place only in the following branches of knowledge:—

	Marks.
English Composition	500
Sanskrit Language and Literature	500
Arabic Language and Literature	500
Greek Language and Literature	750
Latin Language and Literature	750
English Language and Literature (including special period named by the Commissioners) (*a*)	500
French Language and Literature	500
German Language and Literature	500
Mathematics (pure and applied)	900
Advanced Mathematical subjects (pure and applied)	900
Natural Science, *i.e.*, any number not exceeding *three* of the following subjects:—	
Chemistry 600	1,800
Physics 600	
Geology 600	
Botany 600	
Zoology 600	
Animal Physiology 600	
Greek History (Ancient, including Constitution)	400
Roman History (Ancient, including Constitution)	400
English History	500
General Modern History (one of the periods specified in the Syllabus issued by the Commissioners) (*a*)	500
Logic and Mental Philosophy (Ancient and Modern)	400
Moral Philosophy (Ancient and Modern)	400
Political Economy and Economic History	500
Political Science (including Analytical Jurisprudence, the Early History of Institutions, and Theory of Legislation)	500
Roman Law	500
English Law. Under the head of "English Law" shall be included the following subjects, viz.:—(1) Law of Contract; (2) Law of Evidence; (3) Law of the Constitution; (4) Criminal Law; (5) Law of Real Property; and of these five subjects Candidates shall be at liberty to offer any four, but not more than four	500

(*a*) A Syllabus, defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission, Burlington Gardens, London, W.

Candidates are at liberty to name any or all of these branches of knowledge.(*a*) None is obligatory.

5. The merit of the persons examined will be estimated by marks; and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (*b*) in order to secure that no credit be allowed for merely superficial knowledge.

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the branches in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction abovementioned, a greater aggregate number of marks than any of the remaining Candidates, will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified; shall be deemed to be a selected Candidate. A Candidate entitled to be deemed a selected Candidate, but declining to accept the nomination as such, which may be offered to him, will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for one year, at the end of which time they will be examined, with a view of testing their progress in the following subjects (*c*):—

	Marks.
Compulsory—	
(1) Indian Penal Code	400
(2) Code of Criminal Procedure	200
(3) The Indian Evidence Act	200
(4) Indian History	400
*(5) The principal Vernacular Language of the Province to which the Candidate is assigned	400
Optional [not more than one of the following subjects]—	
(1) Hindu and Muhammadan Law	450
†(2) Sanskrit	400
†(3) Arabic	400
(4) Persian	400
(5) Chinese (for Candidates assigned to the Province of Burma only)	400

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination.*"

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

10. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

The examinations in Riding will be held as follows:—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(*a*) A Syllabus, defining the character of the Examination in the various subjects, may be obtained on application to the Secretary, Civil Service Commission, Burlington Gardens, London, W.

(*b*) No deduction will be made from the marks assigned to Candidates in Mathematics or English Composition.

(*c*) Instructions, showing the extent of the Examination, will be issued to the successful Candidates as soon as possible after the result of the Open Competition is declared.

* The principal Vernacular Language prescribed for each Province to which Candidates are assigned is as follows:—

For the United Provinces of Agra and Oudh, the Punjab, and the Central Provinces...	Hindustani.
For Burma	Burmese.
For Bombay	Marathi.
For Madras	Tamil or Telugu } At the option of the Candidate.
For the Lower Provinces of Bengal ...	Hindustani or Bengali }

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari character; and in the case of the last two Provinces mentioned above, a Candidate whose Vernacular Language is either of the languages shown against his Province, must offer the other for examination.

† These subjects may not be offered by any Candidate who has offered them at the Open Competition.

(2) Again, at the time of the Final Examination, Candidates who may fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback, shall receive a Certificate which shall entitle them to be credited with 200 or 100 marks according to the degree of proficiency displayed, to be added to their marks in the Final Examination.

(3) Candidates who fail to obtain this Certificate, but who gain a Certificate of minimum proficiency in Riding, will be allowed to proceed to India, but will be subjected on their arrival to such further tests in Riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government. A Candidate who fails at the end of the year of probation to gain at least the Certificate of minimum proficiency in Riding will be liable to have his name removed from the list of Selected Candidates.

11. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

12. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, W.," at any time after the 1st December, in the year previous to that in which the Examination is to be held. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before the 1st July (or, if that date should fall upon a Sunday or public holiday, then, on or before the first day thereafter on which their office is open) in the year in which the Examination is to be held.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

(i) *Selected Candidates will be allotted to the various Provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to £100 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews and Aberdeen; Victoria University, Manchester; University College, London; and King's College, London: provided such Candidates shall have passed the Final Examination to the satisfaction of the Civil Service Commissioners, and shall, in the opinion of the Secretary of State, have conducted themselves well and complied with such rules as may be laid down for the guidance of Selected Candidates. The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted, except for special reasons approved by the Secretary of State.*

(iii) *The allowance of £100 will not be paid to any Selected Candidate until he has been certified by the Civil Service Commissioners to be entitled to be appointed to the Civil Service of India; and every Certificated Candidate must, before receiving his allowance, give a written undertaking to refund the amount in the event of his failing to proceed to India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Civil Service of India of the Selected Candidates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Selected Candidates will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates rejected at the Final Examination held in any year will in no case be allowed to present themselves for re-examination.*

N.B.—A Manual of Rules and Regulations applicable to members of the Covenanted Civil Service of India has been compiled by permission of the Government of India, and may now be procured either from Messrs. A. Constable & Co., 2 Whitehall Gardens, S.W. or from Mr. E A. Arnold, 37 Bedford Street, Covent Garden. Price 2*s.* 6*d.*

The Commissioners have been requested by the Secretary of State for India to draw the attention of Selected Candidates to the prefatory note attached to this manual, as it is considered important that it should be clearly understood that this compilation is not to be regarded in any other light than that of a collection, made for facility of reference, of certain information and rules; that it is by no means exhaustive, and that it is liable to such modifications as may from time to time be sanctioned by competent authority.

[*Copies of this paper may be obtained on application to the Secretary to the Government of India, Home Department.*]

CIVIL SERVICE OF INDIA;

CLERKSHIPS (CLASS I) IN THE HOME CIVIL SERVICE; AND EASTERN CADETSHIPS.

Syllabus showing the extent of the Examination in certain subjects.

English Composition.—An Essay to be written on one of several subjects specified by the Civil Service Commissioners on their Examination Paper.

English Language and Literature.—The Examination will be in two parts. In the one the Candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria:

Verse—Chaucer, Langland, Spencer, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied the chief productions of the greatest English writers *in themselves*, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature. Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated:—

1.	A.D. 1360 to A.D. 1600.
(1904)	[Chaucer to Spencer.]
2.	A.D. 1600 to A.D. 1700.
(1905)	[Shakespeare to Dryden.]
3.	A.D. 1700 to A.D. 1800.
(1906)	[Pope to Cowper.]
4.	A.D. 1800 to A.D. 1832.
(1907)	[Nineteenth Century writers to the death of Scott.]

The Examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners.* The names placed under the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

French Language and Literature.—Translation and Composition. Critical questions on the French Language and Literature. Conversation.

German Language and Literature.—Translation and Composition. Critical questions on the German Language and Literature. Conversation.

* The books for 1904 are:

Chaucer: Tales of the Prioress, the Nonne Preste, the Wife of Bath (without the Prologue), the Canon Yeoman.

The Romaunt of the Rose, to line 1705 (in Skeat's edition).

Spencer: Fairy Queen, I, II.

Shepherd's Calendar.

Wyatt and Surrey: Poems.

Malory: Morte d'Arthur.

Ascham: Toxophilus.

Hooker: Ecclesiastical Polity, Bk. 1.

Latin Language and Literature.—Translation from Latin into English, Composition in Prose and Verse, or (as an alternative for Verse-Composition) a Latin Essay or Letter. Critical questions on the Latin Language (including questions on Philology) and Literature.

Greek Language and Literature.—Translation from Greek into English, Composition in Prose and Verse, or (as an alternative for Verse-Composition) a Greek Dialogue or Oration. Critical questions on the Greek Language (including questions on Philology) and Literature.

Sanskrit Language and Literature.—Translation from Sanskrit into English, and from English into Sanskrit. History of Sanskrit Literature (including knowledge of such Indian history as bears upon the subject); Sanskrit Grammar; Vedic Philology.

Arabic Language and Literature.—Translations as in Sanskrit; History of Arabic Literature (including knowledge of such Arabic History as bears upon the subject), Arabic Grammar; Arabic Prosody.

English History.—General questions on English History from A.D. 800 to A.D. 1848; questions on the Constitutional History of England from A.D. 800 to A.D. 1848.

General Modern History.—Candidates may, at their choice, be examined in any one of the following periods:—

1. From the accession of Charlemagne to the Third Crusade.

   [A.D. 800 to A.D. 1193.]

2. From the Third Crusade to the Diet of Worms.

   [A.D. 1193 to A.D. 1521.]

3. From the Diet of Worms to the death of Louis XIV.

   [A.D. 1521 to A.D. 1715.]

4. From the accession of Louis XV to the French Revolution of 1848.

   [A.D. 1715 to A.D. 1848.]

Periods 3 and 4 will include Indian History.

Greek History.—Questions on the General History of Greece to the death of Alexander; questions on the Constitutional History of Greece during the same period.

Roman History.—Questions on the General History of Rome to the death of Vespasian; questions on the Constitutional History of Rome during the same period.

In Greek and Roman History candidates will be expected to show a knowledge of the original authorities.

Mathematics.—Algebra, Geometry (Euclid and Geometrical Conic Sections), Plane Trigonometry, Plane Analytical Geometry (less advanced portions), Differential Calculus (Elementary), Integral Calculus (Elementary), Statics, Dynamics of a Particle, Hydrostatics, Geometrical Optics.

Candidates may use the methods of the Differential and Integral Calculus in any other division of the subject, but the questions will be such as can be solved without the aid of these methods.

Advanced Mathematics.—Higher Algebra, including Theory of Equations, Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry (Plane and Solid), Statics including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydrodynamics, the Mathematical Theory of Electricity and Magnetism.

Political Economy and Economic History.—Candidates will be expected to possess a knowledge of economic theory as treated in the larger text-books, also a knowledge of the existing economic conditions, and of statistical methods as applied to economic inquiries, together with a general knowledge of the history of industry, land tenure, and economic legislation in the United Kingdom.

Logic and Mental Philosophy (Ancient and Modern).—Logic will include both Deductive and Inductive Logic. Mental Philosophy will include Psychology and Metaphysics.

Political Science.—The Examination will not be confined to Analytical Jurisprudence, Early Institutions, and Theory of Legislation, but may embrace Comparative Politics, the History of Political Theories, etc.

Candidates will be expected to show a knowledge of original authorities.

OPEN COMPETITION OF 1904.

(FORM TO BE FILLED UP BY CANDIDATES FOR EXAMINATION.)

*** *The order for admission to the Examination will not be issued unless this Form, filled up by the Candidate himself, is received by the Secretary of the Civil Service Commission on or before the* 1st July 1904.

*Date*_____

SIR,

I beg to inform you that I wish to be a Candidate at the Examination for the Civil Service of India, which is appointed to commence in London on the 1st of August 1904.

I hereby declare that I was born on the day of 18 , and that therefore I had attained the age of 21 years and had not attained the age of 23 years on the 1st of January 1904; I also declare that I have no disease, constitutional affection, or bodily infirmity unfitting me, or likely to unfit me, for the Civil Service of India; and that I am of good moral character, and otherwise eligible under the Regulations; and I undertake that, if I am successful, I will conform, during my period of probation, to such rules respecting the conduct of Public Servants as have been laid down, or may hereafter be laid down, by the Secretary of State for India in Council.

This should be given on the form attached.

I send herewith a statement of the subjects in which I desire to be examined.

I also send herewith a Certificate of my Birth issued in accordance with the rule respecting Natives of India printed in paragraph III on the next page.

Candidates who are not Natives of India should strike out this paragraph.

I have also to state, with reference to Section 2, Clause (i) of the Regulations, that I am a natural-born subject of His Majesty.

Candidates not born within the British Dominions should state this fact in a separate letter.

I beg further to add that I have*_____been examined under the directions of the Civil Service Commissioners in the year 1_____† as a Candidate for the situation of_____.

* If you have never been examined, insert here the word "never."

† If you have been examined, give the date, etc., of the *last* occasion.

I am, SIR,

Your obedient Servant,

*Name in full*_____

Address to which it is desired that the Order for Examination should be sent‡_____

‡ If a London address, state postal district; if a country, state the post town.

*Date*_____

To the Secretary,
Civil Service Commission.

This application form relates only to the competition for the Civil Service of India, and does not entitle a candidate to compete also for the Home or Colonial Civil Service.

Certificates of age (except as mentioned above), health, and character, should not be supplied until after the result of the Examination has been declared.

N.B.—Attention is drawn to the annexed Form, which must be filled up by every Candidate.

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE OF INDIA.

I. Every Candidate born in the United Kingdom should be prepared to produce, when required, a Certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his provincial Officers. This Certificate may be obtained from the Registrar-General in London, Dublin or Edinburgh, or from the Superintendent Registrar of the district in which the birth took place.

II. A Candidate born of European parents in India should be prepared to produce, when required, a Certificate of Baptism from the district in which he was baptised. If this does not also mention the date of birth, it should be accompanied by a statutory declaration by one of the Candidate's parents, stating the date and place of birth. When such certificates are not in the possession of the candidates, an Extract from the Registers kept at the India Office will probably be obtainable.

III. A Candidate who is a Native of India must, *before he can be admitted to the Competition*, produce a certificate of age and nationality issued under Notification of the Government of India, No. 2252, dated 21st August 1888, as amended by Notification No. 404, dated 19th May 1898, and signed, should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division, within which his family resides, or should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides. *No other Certificates will be accepted for this competition.*

Except as noted in paragraphs II and III, every Candidate who proves to be successful is expected to produce a Certificate of *Birth*. The Civil Service Commissioners will not in ordinary cases accept a Certificate of Baptism, or other testimony, unless they are first satisfied that a Certificate of Birth cannot be procured.

Official Certificates of Birth may generally be obtained as follows:—

(*a*) *For persons born in England or Wales.*—From the Registrar-General, Somerset House, London, or from the Superintendent Registrar of the district in which the birth took place.

(*b*) *For persons born in Scotland.*—From the General Register Office, Edinburgh; or from the Registrar of the parish or district in which the birth took place.

(*c*) *For persons born in Ireland.*—From the General Register Office, Dublin; or from the Superintendent Registrar of the district in which the birth took place.

(*d*) *For persons of English, Scottish, or Irish parentage born on board British ships.*—From the General Register Office, London, Edinburgh, or Dublin, according to parentage.

(*e*) *For persons born in India of European parents.*—From the Director of Funds, India Office, London, S.W. [These are Certificates of *Baptism*, but they usually furnish the date of birth and are then accepted as Certificates of *Birth*.]

Any Candidate who cannot produce a Certificate of Birth from one of the authorities named should, if possible, procure a Certificate of Baptism, and should then apply to the Secretary, Civil Service Commission, for further instructions.

NOTE.

If Open Competitive Examinations for the following Services, viz.:

Eastern Cadetships in the Colonial Service;
Clerkships (Class I) in the Home Civil Service;

should be held in 1904 concurrently with the Open Competitive Examination for the Civil Service of India, Candidates duly eligible in respect of age will be admitted to compete for any two or all three of these Services, subject to the following conditions:—

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Midnapore, will be put up to sale at the village of Hiradharpur, pargana Chandrakona, at 12 o'clock noon, on the 20th August 1903, corresponding with 3rd Bhadra 1310, Bengali era.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidder above the upset prices, which have been fixed by the Collector. The purchaser of these estates will be considered as the proprietor of the estates, and the entire proprietary right of Government in such estate will be transferred to him permanently free of rent.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Northern Bengal State Railway, in the district of Rangpur, will be put up to sale at 11 o'clock on the 31st of August 1903, corresponding with the 14th Bhadra 1310 (B.S.) at Nilphamari.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th August, 1903:

NO. 10 OF 1903.

A Bill to provide for the regulation of the possession and sale of all poisons in certain local areas, and the importation, possession and sale of white arsenic generally.

WHEREAS it is expedient to provide for the regulation of the possession and sale of all poisons in certain local areas, and the importation, possession and sale of white arsenic throughout the whole of British India; It is hereby enacted as follows:

Short title and extent.

1. (*1*) This Act may be called the Poisons Act, 1903; and

(*2*) It extends to the whole of British India.

Poisons generally.

Power to regulate possession for sale and sale of any poison in certain areas.

2. (*1*) Subject to the control of the Governor General in Council, the Local Government may, by rule, regulate within the limits of any municipality or cantonment the possession for sale and the sale, whether wholesale or by retail, of any poison.

(*2*) In particular, and without prejudice to the generality of the power conferred by sub-section (*1*), rules made thereunder may provide for, amongst other matters,—

(*a*) the grant of licenses to possess any poison for sale, wholesale or by retail;

(*b*) the classes of persons to whom alone such licenses may be granted;

(*c*) the classes of persons to whom alone any poison may be sold;

(*d*) the maximum quantity of any poison which may be sold to any one person;

(*e*) the maintenance by vendors of any poison of registers of sales, the particulars to be entered in such registers, and the inspection of the same; and

(*f*) the labelling of packets in which any poison is sold or possessed for sale.

White Arsenic.

Power to prohibit importation into British India of white arsenic except under license.

3. The Governor General in Council may, by notification in the Gazette of India, prohibit, except under and in accordance with the conditions of a license, the importation of white arsenic into British India, and may, by rule, regulate the grant of licenses and prescribe the conditions to be imposed thereby under this section.

Power to regulate possession for sale and sale of white arsenic throughout province.

4. (*1*) Subject to the control of the Governor General in Council, the Local Government may, by rule, regulate within the whole or any part of the

territories under its administration the possession for sale and the sale, whether wholesale or by retail, of white arsenic.

(2) In particular and without prejudice to the generality of the power conferred by sub-section (1), rules made thereunder may provide, amongst other matters, for all or any of the matters specified in section 2, sub-section (2).

(3) Rules made under sub-section (1) may further provide that no person shall sell any powdered white arsenic unless the same is, before the sale thereof, mixed with soot, indigo or Prussian blue in the proportion of half an ounce of soot, indigo or Prussian blue at least to one pound of the white arsenic, and so in proportion for any greater or less quantity:

Provided that, where such arsenic is stated by the purchaser to be required for some purpose for which such admixture would, according to the representation of the purchaser, render it unfit, such arsenic may be sold, without such admixture, in a quantity of not less than ten pounds at any one time.

Power to regulate possession of white arsenic in certain tracts.

5. (1) The Local Government, with the previous sanction of the Governor General in Council, may further, by rule, regulate the possession of white arsenic in any local area in which murder by poisoning with that drug or the offence of mischief by poisoning cattle therewith appears to it to be of such frequent occurrence as to render restrictions on the possession thereof desirable.

(2) In making any rule under sub-section (1), the Local Government may direct that any breach thereof shall be punishable with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both, together with confiscation of the white arsenic in respect of which the breach has been committed, and of the vessels, packages or coverings in which the same is found.

Other Poisons.

[*Cf.* VIII of 1899, s. 22 (1).]

Power to apply Act to other poisons.

6. The Governor General in Council may, by notification in the Gazette of India, apply to any poison other than white arsenic all or any of the provisions of this Act relating exclusively to white arsenic.

Penalties and Procedure.

Penalty for unlawful importation, etc.

7. (1) Whoever,—

(*a*) commits a breach of any rule made under section 2 or section 4, or

(*b*) imports into British India, without a license, white arsenic the importation of which is for the time being restricted under section 3, or

(*c*) breaks any condition of a license for the importation of white arsenic granted to him under section 3,

shall be punishable with imprisonment for a term which may extend to three months, or with fine which may extend to five hundred rupees, or with both.

(2) Any poison in respect of which an offence has been committed under this section, together with the vessels, packages or coverings in which the same is found, and any animals and conveyances used in carrying it, shall be liable to confiscation.

Power to issue search-warrant.

8. (1) The District Magistrate, the Sub-divisional Magistrate and, in a Presidency-town, the Commissioner of Police, respectively, may issue a warrant for the search of any place in which he has reason to believe or to suspect that any poison is possessed for sale or sold in contravention of this Act or any rule thereunder or that any poison liable to confiscation under this Act is kept or concealed. [*Cf.* XII of 1896, s. 40.]

(2) The person to whom the warrant is directed may enter and search the place in accordance therewith, and the provisions of sections 47 to 49 of the Code of Criminal Procedure, 1898, shall, as far as may be, be deemed to apply to the execution of the warrant. V of 1898.

Previous publication, etc., of rules.

9. (1) Every power to make rules conferred by this Act is subject to the condition of the rules being made after previous publication. [*Cf.* VIII of 1899, s. 24.]

(2) All rules made by the Governor General in Council or by the Local Government under this Act shall be published in the Gazette of India or the local official Gazette, as the case may be, and on such publication shall have effect as if enacted by this Act.

Savings.

Savings.

10. (1) Nothing in this Act or in any license granted or rule made thereunder shall extend to or interfere with anything done in good faith in the exercise of his profession or business as such— [*Cf.* 31 & 32 Vict., c. 121, s. 16.]

(*a*) by a medical practitioner, or

(*b*) by a chemist or druggist duly qualified to act as such under the law for the time being in force in the United Kingdom, or

(*c*) by a chemist or druggist dispensing or compounding in compliance with the prescription of a medical practitioner, or

(*d*) by a manufacturer of pharmaceutical preparations, sheep-dips or weed-killers, or

(*e*) by a tanner or hide-merchant.

(2) Notwithstanding anything hereinbefore contained, the Local Government may in its discretion, by general or special order, declare that all or any of the provisions of this Act shall not be deemed to apply to any article, or class of articles, of commerce specified in such order or to any poison, or class of poisons, used for any purpose so specified, and may, from time to time, alter or vary any such declaration.

STATEMENT OF OBJECTS AND REASONS.

THE question of restricting by legislation the sale and possession of poisons in India has been under the consideration of the Government for many years. It was at one time thought that the working of a general law on the subject would be attended with such difficulties as to render its enforcement all but impracticable. Among the reasons for this conclusion were the facts that some mineral poisons are largely used for legitimate purposes connected with trade, and that, since plants from which vegetable poisons can be extracted grow all over the country and are readily accessible, any restriction on the sale and possession of mineral poisons might result in inducing criminals to have recourse to the more subtle and less easily detected vegetable poisons, which could in no case be placed beyond their reach. On further consideration, however, it seems to the Government of India to be an extraordinary anomaly, which should be removed with the least practicable delay, that a deadly poison, such as arsenic, which is without taste or smell, which produces effects very similar to those of cholera, and which is known to be the agent most frequently employed for homicidal purposes, should be procurable in unlimited quantities in every part of India. There is, so far as the Government of India are aware, no other civilized country in the world in which the sale and possession of poisons is not carefully restricted, and it is thought that, notwithstanding the special conditions prevailing in India, a beginning at least in the direction of legislation should be made. This view is supported by the great mass of opinion which has been obtained from Local Governments and Administrations and from the several Chambers of Commerce and Trades Associations.

2. The only measure in the Indian Statute-book dealing with poisons generally is Bombay Act VIII of 1866; but that enactment extends only to the Province of Bombay, and even there, owing to defects in its form and limitations in its scope, it has produced but little effect. No provision is made in it for the inspection or searching of vendors' shops, and it places no restriction on the amount of poison which may be possessed or sold. In the United Provinces the matter is regulated by rules under section 128 (*l*) of the North-Western Provinces and Oudh Municipalities Act, 1900; but these have not been rigidly enforced and seem to have been virtually inoperative. The experience of the United Provinces seems, indeed, to show that the matter is one which cannot with safety be left to municipal control.

3. The present Bill provides in the first place (clause 2) for the control of the sale of poisons generally within municipalities and within cantonments, which often adjoin municipalities. It also (clause 3) authorises the prohibition of the importation of white arsenic into British India except under license, and (clauses 4 and 5) empowers the Local Government to regulate the sale of that poison within the whole or any part of the Province, and its possession in any area in which murder by poisoning with that drug, or the offence of mischief by poisoning cattle, is of frequent occurrence. It further (clause 6) takes power for the Governor General in Council to apply to any other poison the provisions relating to white arsenic, and thus there will be an immediate remedy at hand should it be found that other poisons are beginning to take the place of white arsenic for criminal purposes. Finally protection is secured (clause 10) for acts done in good faith by members of the medical profession and by chemists and others who deal with poisons in the ordinary course of their business. The measure will be permissive, and its effectiveness will depend entirely upon the extent to which it is applied, and upon the success attained in framing and enforcing rules under it.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th August, 1903:

NO. 11 OF 1903.

A Bill further to amend the Transfer of Property Act, 1882.

IV of 1882.

WHEREAS it is expedient further to amend the Transfer of Property Act, 1882; It is hereby enacted as follows:

1. This Act may be called the Transfer of Property (Amendment) Act, 1903.

Short title.

2. In the fourth paragraph of section 1 of the said Act, after the words "extend this Act" the words "or any part thereof" shall be inserted.

Amendment of section 1, paragraph 4, Act IV of 1882.

3. In the second paragraph of section 59 of the said Act, for the words "an instrument" the words "a registered instrument" shall be substituted, and to the same paragraph the following proviso shall be added, namely:

Amendment of section 59, Act IV of 1882.

"Provided that the Local Government may, with the previous sanction of the Governor General in Council, from time to time, by notification in the local official Gazette, direct that all or any mortgages made within the territories under its administration or any part thereof, shall be effected only by such instruments as aforesaid."

4. In the last paragraph of section 59 and in clause (*c*) of section 69 of the said Act, for the words "and Rangoon" and for the words "or Rangoon" the words "Rangoon, Moulmein, Bassein and Akyab" and the words "Rangoon, Moulmein, Bassein or Akyab" shall be respectively substituted.

Amendment of last paragraph of section 59 and of section 69, Act IV of 1882.

5. For the second paragraph of section 107 of the said Act the following paragraph shall be substituted, namely:

Substitution of new paragraph for second paragraph of section 107, Act IV of 1882.

"All other leases of immoveable property may be made either by a registered instrument or by oral agreement accompanied by delivery of possession:

Provided that the Local Government may, with the previous sanction of the Governor General in Council, from time to time, by notification in the local official Gazette, direct that leases of immoveable property, other than leases from year to year, or for any term exceeding one year, or reserving a yearly rent, may be made by unregistered instrument or by oral agreement without delivery of possession."

6. In section 117 of the said Act, after the words "to be so applicable" the words "in the case of all or any of such leases" shall be inserted.

Amendment of section 117, Act IV of 1882.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to make certain amendments in the Transfer of Property Act, 1882, which the Government of India have decided to undertake for the following reasons.

2. Under the Indian Registration Act, 1877, registration is compulsory in the case of certain documents and merely optional in that of others. Documents of the first class are practically of no effect unless registered, but those belonging to the latter are equally effective, whether registered or not, subject to this limitation, that, if unregistered, they are liable to be superseded by subsequent registered documents. Among the documents the registration of which is optional are those relating to the transfer of rights in immoveable property of less than Rs. 100 in value, and it is in consequence of the questions that have

arisen in connection with this latter class of documents that the present Bill has been prepared.

3. There was at one time a diversity of opinion as to the effect of section 50 of the Registration Act, which postpones all unregistered documents relating to land of which the registration is optional to a subsequent registered one of the same character. But it has recently been decided by all the chartered High Courts as well as by the Chief Court of the Punjab, that the section should be read subject to the equitable doctrine of notice, or, in other words, that an unregistered document should not be postponed to a registered one where it can be shown that the transferee under the latter had notice of the transfer evidenced by the former at the time when the latter was executed. These rulings did not appear to the Government of India to leave the law on a satisfactory footing. They learnt that in England there had been divergence of opinion with regard to the propriety of the recognition of the equitable doctrine of notice in connection with the construction of the English Registry Acts, and that that doctrine had in 1884 been deliberately abolished by Parliament in the case of the Yorkshire Registry, whilst past experience in this country had shown that the application of that doctrine in India was open to very grave objection. The Indian Registration Law prior to Act I of 1843 expressly provided for notice, and, as stated in the preamble to that Act, it was in consequence of the "forgeries, perjuries, fraudulent concealments and other practices" to which the application of the doctrine gave rise that that Act, which ignored the doctrine, was passed.

4. After giving the whole question very careful consideration the Government of India came to the conclusion that, instead of attempting to amend the provisions of the Registration Law as to priority between registered and unregistered instruments relating to the transfer of land in order to meet the difficulties to which the existing law gives rise, the better course would be so to amend the law on the subject of transfer of immoveable property as to make it impossible for such difficulties to arise in the case of future transfers of such property. It seemed to them that this result could be obtained if the law required all transfers of such property throughout India, when effected by written instruments, to be registered. They accordingly asked the opinion of Local Governments on the following proposals designed to carry out this intention:

(1) that the whole or certain sections of the Transfer of Property Act, 1882, should be extended to the parts of British India to which that Act had not yet been extended under the powers conferred by section 1, namely, the Punjab, and Lower Burma outside Rangoon;

(2) that section 59 of the Act (relating to mortgages) should be amended so as to require all mortgages effected by written instruments to be registered, whatever the amount secured; and

(3) that section 107 of the Act (relating to leases) should be amended so as to require all instruments of lease to be registered and all leases made by oral agreement to be accompanied or followed by possession.

5. With regard to the first point the Government of the Punjab objected strongly to the extension of the Act to that Province, and, as the arguments advanced by the Local Government against this proposal seemed to the Government of India to be of much force, this proposal has been abandoned in so far as the Punjab is concerned. The Government of Burma desired (1) to extend the whole of the Act to the towns of Moulmein, Bassein and Akyab, and to include those towns in the list of towns contained in sections 59 and 69; (2) to extend sections 54, 59, 107, 117, 118 and 123 to the whole of Lower Burma with the exception of areas to which the Registration Act does not apply and of specially backward tracts; and (3) to take power to extend from time to time any part of the Act which may appear to it to be suitable to any part of the province. The amendments of the Act proposed in clauses 2 and 4 of the Bill are designed to enable the Local Government to give effect to its wishes in this respect.

6. Apart from the Punjab, all Local Governments accepted the second proposal which is given effect to by the amendment of the second paragraph of section 59 of the Act contained in clause 3 of the Bill. The proviso which it is further proposed to add to the same section of the Act is intended to give effect to a suggestion of the Government of Bengal that Local Governments should have power to require mortgages made within their territories, even when securing a less sum than Rs. 100, to be effected by registered instrument.

7. The third proposal was accepted by all Local Governments except the Governments of Bombay and Bengal, in deference to whose objections the Government of India have, while amending the second paragraph of section 107 of the Act, as originally proposed, in clause 5 of the Bill, added at the same time to the revised section a proviso reserving power to Local Governments to adopt or not to adopt, as they may think fit, the revised section in their respective provinces.

8. The Chief Commissioner of the Central Provinces made a further suggestion that a proviso should be added to section 107 of the Act on the lines of the proviso to section 17 of the Indian Registration Act in order to encourage the application of Chapter V of the latter Act to agricultural leases. Though the principle of the suggestion is accepted by the Government of India, it appears to them that it will be more simply and conveniently given effect to by amending section 117 of the Act as proposed in clause 6 of the Bill, so as to give power to Local Governments to limit the scope of any notification issued under that section to particular classes of agricultural leases.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 4th August, 1903:

NO. 12 OF 1903.

A Bill further to amend the Indian Tariff Act, 1894.

WHEREAS it is expedient further to amend the VIII of 1894. Indian Tariff Act, 1894; It is hereby enacted as follows:

1. (*1*) This Act may be called the Indian Tariff (Amendment) Act, 1903. Short title and duration.

(*2*) Section 3 shall remain in force until the thirty-first day of March, 1904.

2. In section 8A, sub-section (*1*), of the VIII of 1894. Indian Tariff Act, 1894, as amended by section 2 of the Indian Tariff Amendment Act, 1899, before the words "the exportation therefrom" the words "the production therein or" shall be inserted. Amendment of section 8A, Act VIII, 1894. XIV of 1899.

3. After section 8B of the Indian Tariff Act, 1894, as amended by section 2 of the Indian Tariff (Amendment) Act, 1902, the following section shall be added, namely. VIII of 1894. VIII of 1902. Addition of new section, 8C, to Act VIII, 1894

"8C. Notwithstanding that the condition precedent to the imposition of a duty under section 8A may have ceased to exist, and notwithstanding anything in section 1, sub-section (*2*), of the Indian Tariff (Amendment) Act, 1902, any duties which may have been imposed and are chargeable under section 8A or section 8B on the thirty-first day of August, 1903, shall continue to be chargeable in accordance with any rules which may have been in force on the said date: VIII of 1902. Continuation of duties chargeable under section 8A or 8B on 31st August, 1903.

Provided that the Governor General in Council may, by notification in the Gazette of India, reduce the rate at which any such duty is levied, and amend or vary any such rules as aforesaid."

STATEMENT OF OBJECTS AND REASONS.

SECTION 8A of the Indian Tariff Act, 1894, provides for the levy of an additional duty on articles on which a bounty is given directly or indirectly by a foreign State, and section 8B provides for the levy of additional duties in certain cases in which high protective duties render possible the creation of bounties by private trade combinations or cartels. The majority of the chief sugar-producing countries of Europe have agreed to arrangements designed to secure the abolition of all bounties and high protective duties on sugar on the 1st of September, 1903. Large stocks of sugar exist in those countries on which bounties have been paid and which have been produced under the cartel system. The object of this Bill is to continue the present additional duties on sugar until the 31st of March, 1904, when it is expected that the greater part of the stocks which have received bounties will have been consumed.

The opportunity has been taken to make it clear that section 8A of the Act of 1894, as amended in 1899, extends to bounties or grants paid or bestowed upon production as well as upon exportation.

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF 1903-1904.

No. 8107B., dated Calcutta, the 11th August 1903.

From—H. WHEELER, Esq., Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Financial Department.

I AM directed to submit the following report on the state of the salt market for the first quarter of the year 1903-1904, comprising the months of April, May and June 1903.

Member in charge:
THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

2. The quantity of salt of every description cleared during the quarter amounted to 28,99,901 maunds, as compared with 28,78,656* maunds in the previous quarter, and 32,49,311 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 55,38,184, as against Rs. 64,05,866* in the previous quarter, and Rs. 76,80,087 in the corresponding quarter of the previous year.

3. The subjoined Table (I) shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter,

* Revised figures.

as compared with the figures of the corresponding quarters of the two previous years:—

6. The quantity of salt despatched during the quarter by the East Indian Railway to stations beyond Buxar amounted to 1,215 maunds, against 1,620 maunds in the previous quarter and alike amount in the corresponding quarter of the previous year.

7. The quantity of saltpetre salt excised in the refineries of the Lower Provinces during the quarter amounted to 5,247 maunds, as compared with 7,320 maunds in the previous quarter, and 4,742 maunds in the corresponding quarter of the previous year.

8. The shipments of Liverpool salt during the quarter for the port of Calcutta, according to the published market reports, amounted to 23,060 tons. It is reported that no vessel was afloat for Calcutta at the close of the quarter with full cargoes of salt from Hamburg.

9. Table IV shows the average wholesale prices per 100 maunds of Liverpool and other descriptions of salt during each fortnight of the quarter:—

During the quarter the prices of all kinds of salt showed an upward tendency. The marked fluctuations in the price of Muscat salt were due to the small stocks of *karkatch* salt in bond, and also to the fact that the prices quoted are of two qualities. The variations in the price of Bombay salt were also due to the small stocks in bond.

10. The following Table (V) shows the quantity of sea-imported salt admitted into bond and cleared from bond and shipboard at the several out-ports and inland warehousing stations:—

Compared with the corresponding quarter of the previous year, there was an increase both in the quantity admitted into bond and cleared.

No transactions in sea-imported salt were reported for the quarter from Cuttack and Puri.

WORKING OF TREASURIES IN BENGAL DURING THE YEAR 1902-1903.

FINANCIAL DEPARTMENT—FINANCE.

Calcutta, the 13th August 1903.

RESOLUTION—No. 3805F.

READ—

A letter from the Accountant-General, Bengal, No. 182T.M., dated the 31st May 1903, reporting on the working of treasuries in Bengal for the year 1902-1903.

THE aggregate number of irregularities committed during the past year shows a decrease of 7,016 as compared with those detected in the preceding year, and the Lieutenant-Governor notices with satisfaction that the result of calling attention to those errors in past years has been to materially diminish the number of them, inasmuch as Treasury Officers have thus been made familiar with the commonest forms of such defects.

2. No serious mistakes were committed in the treasuries at Calcutta, Noakhali, Chittagong, Champaran, Muzaffarpur, Angul and Khondmals and Puri.

3. The smallest number of irregularities occurred at Manbhum (10), and the treasuries at Dumka, Malda, Murshidabad, and Jalpaiguri were responsible for only 18, 19, 21, and 25 errors, respectively.

4. Very great improvement took place in the administration of the treasuries at Hooghly, Muzaffarpur, Champaran, Shahabad, Tippera, Cuttack, Bhagalpur, Murshidabad and Purnea. Considerable improvements are noticeable also in the cases of Rajshahi, Patna, Dacca, Backergunge, and 24-Parganas, although in each of these treasuries a few serious errors occurred.

5. The Accountant-General has brought to notice the names of certain Treasury Officers, who are most deserving of commendation for the good work achieved by them in improving the working of the treasuries of which they were in charge during the year under review. These are—

(1)	Babu Banku Behari Bakhsi	... Gaya.
(2)	„ Hira Lall Banerjee	... Dumka.
(3)	„ Bhabani Prosad Neogi	... Tippera.
(4)	„ Kedar Nath Mukerjee	... Murshidabad.
(5)	„ Chandra Bhusun Chackravarti	... Hooghly.
(6)	„ Gopal Chandra Mukerjee	... 24-Parganas.

The Lieutenant-Governor has much pleasure in acknowledging their services.

ORDER.—Ordered that a copy of the Resolution be forwarded to all Commissinoers of Divisions for information and communication to the District Officers in their Division (and through them to the Treasury Officers) and to the Accountant-General, Bengal, and the Appointment Department for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Secy. to the Govt. of Bengal.

PRELIMINARY FORECAST OF THE SUGARCANE CROP OF BENGAL, 1903.

THE following note is published for general information.

A. EARLE,
Offg. Secy. to the Govt. of Bengal.

The 17th August 1903.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Preliminary Forecast of the Sugarcane Crop of Bengal, 1903.

Explanatory.—With Government order No. 114T.—R., dated the 22nd May 1899, instructions were received for including in this forecast an estimate of the raw sugar produced in these Provinces from other sources than cane, and an attempt is made to give effect to the above order in the present report, but the information available on the subject is yet far from complete.

2. *The character of the season.*—The drought which commenced in the beginning of October 1902 lasted till after the end of the year. The rainfall in January and February was deficient everywhere, except in the Orissa and Chittagong Divisions and in parts of the Burdwan, Presidency, and Dacca Divisions. In March, there were fairly good showers throughout Bengal, although Bihar and Chota Nagpur continued to suffer from the drought. The fall in April and May was in defect everywhere, except Chota Nagpur, and the deficiency continued through June all over the Province, save in North Bengal, in the North Gangetic districts of Bihar, in some parts of the Presidency Division, and in Dacca, Mymensingh, Tippera and Noakhali in East Bengal. The rains during the past month were general but scanty almost throughout the Province, and more rain is urgently needed at this moment in the Burdwan, Presidency, Patna, and Bhagalpur Divisions, and in some districts of the Rajshahi, Chittagong, and Chota Nagpur Divisions. On the whole, the season has not been favourable to the sugarcane crop.

3. *Area sown.*—The normal area under sugarcane in this Province is now estimated at 689,100 acres, against 682,600, returned last year. It is estimated that the area planted this year is 643,000 acres, the contraction being due to the unfavourable character of the sowing season.

4. *Character of the crop.*—It will be seen from the summary of the district returns appended to this report, that

in eleven districts the outturn is expected to reach or exceed the normal, while nine other districts anticipate an outturn of over 90 per cent. In eleven districts the estimate varies between 80 and 89 per cent., while in the remaining fourteen districts crops from 59 to 79 per cent. of the normal are anticipated.

5. *Outturn.*—According to the estimates of the District Officers, the outturn of the crop for the Province as a whole will this year amount to 89 per cent. of a normal crop. But a tendency to underestimate the crop is observable in the important sugarcane-growing districts of East Bengal, and I anticipate that under normal conditions for the rest of the year, the provincial outturn will reach 92 per cent. of a normal crop.

Offg. Director of Land Records and Agriculture, Bengal.

Preliminary forecast of the Sugarcane Crop of 1903.

Division.	District.	Total area of district, in acres.	Total area estimated to be under cultivation, in acres.	Approximate normal area under sugarcane, in acres.	Approximate area under sugarcane last year (1902), in acres.	Estimated area under sugarcane this year (1903), in acres.	Taking 100 to represent the normal outturn, how much represented the outturn last year (1902)?	Taking 100 to represent the normal outturn, how much will represent this year's outturn (1903)?	Remarks by District Officers.	Remarks by the Department of Land Records and Agriculture, Bengal.
1	2	3	4	5	6	7	8	9	10	11
Burdwan ...	Burdwan ...	1,720,960	1,284,800	27,400	27,900	27,700	81	76	The monsoon is late this year. June rains were deficient, and it has been found on enquiry that want of proper rains at the end of May affected the seedlings. Hence a comparatively low outturn is expected.	
	Birbhum ...	1,121,920	800,000	9,000	9,000	9,000	80	100		
	Bankura ...	1,677,440	642,800	14,000	15,000	13,000	90	100	The area is below the normal, but the outturn may now be estimated at 100 per cent.	
	Midnapore ...	3,519,640	2,190,800	20,400	17,900	17,100	76	80		
	Hooghly ...	1,067,360	652,300	14,300	14,300	13,600	99	88	Want of timely rainfall is the cause of the decrease in outturn.	
Presidency ...	24-Parganas ...	3,574,851	1,079,700	4,000	4,400	4,400	108	95	The figures in columns 4 and 5 have been revised. Want of seasonable rainfall accounts for the low outturn this year.	
	Nadia ...	1,787,520	630,500	11,400	7,500	5,700	75	59	The decrease in the area and outturn is due to want of seasonable rainfall.	
	Murshidabad	1,371,520	965,500	14,700	14,600	14,500	81	85	The decrease in the area sown is due to the fact that the market was low last year.	
	Jessore ...	1,572,800	1,142,100	15,000	12,400	9,300	74	79	Failure of this crop last year and want of rainfall during the sowing time this year are the chief causes of the decrease in area under this crop.	
	Khulna ...	3,103,942	870,000	3,100	1,200	600	100	75	For want of rain, half the land could not be cultivated for the sugarcane crop, and the outturn is expected to be below the normal for the same reason.

Rajshahi ...	Rajshahi ...	1,663,040	1,262,100	18,000	16,000	15,500	100	100		
	Dinajpur ...	2,526,080	1,697,600	25,000	30,000	25,000	110	100	The low outturn is due to want of rains at the time of the planting of the crop.	
	Jalpaiguri ...	1,894,600	925,000	5,000	4,400	4,100	90	75	The decrease in area and outturn is due to want of seasonable rain.	
	Darjeeling ...	744,960	148,000	400	200	200	75	60		
	Rangpur ...	2,235,520	1,602,700	24,100	22,800	22,100	85	89		
	Bogra ...	869,760	622,900	20,000	17,000	18,300	75	90	Revised figures have been shown in columns 4 and 5 (*vide* Director's letter No. 414A., dated the 10th March 1903).	
	Pabna ...	1,176,960	884,500	3,500	3,100	3,200	80	90		
Dacca ...	Dacca ..	1,780,480	1,213,500	20,000	20,000	19,900	91	100	The subdivisional reports show that for want of timely rain this year the outturn is expected to be less than that of the last year. But as I think the outturn was estimated last year at less than its real value there is a discrepancy in the figures. This year's crop will probably be about normal.	
	Mymensingh	4,062,480	2,465,700	35,000	33,500	34,600	81	92		
	Faridpur ...	1,459,840	1,132,600	42,000	35,000	30,000	75	75	The area under sugarcane is gradually decreasing.	
	Backergunge	2,335,360	1,418,000	20,500	20,000	18,500	80	75	The outturn is expected to be below the normal owing to want of rainfall at the sowing season, which has also decreased the area sown from that of last year. The outturn of date-gur is expected to be normal.	

Chittagong	Tippera ...	1,539,360	1,209,000	8,800	8,700	7,900	63	83	The figures in columns 4, 5, and 6 have been revised.
	Noakhali ...	1,653,300	784,900	900	600	600	70	80	Sugar is not produced in this district from date-palm or from any other source
	Chittagong ...	1,594,815	559,800	9,200	9,000	9,000	80	75	The low outturn is due to insufficient rainfall.
Patna	Patna ...	1,328,000	1,062,100	20,200	1,000	20,000	82	100	The figures in columns 3, 5, and 7 have been revised.
	Gaya ...	3,015,680	2,207,500	29,000	29,500	29,400	100	100	
	Shahabad ...	2,798,720	1,841,900	36,000	41,100	34,300	73	89	The decrease in the area sown is due to want of sufficient moisture at the sowing season.
	Saran ...	1,708,726	1,357,300	36,500	46,800	42,000	85	75	The failure of winter rains has told much upon the area and prospects of the crop this year. Rain also failed at the time of planting and germinating.
	Champaran ...	2,679,815	1,447,700	10,300	9,900	10,500	90	100	There is reported to be a slight decrease in area under sugarcane in Bettiah and an increase near Seeraha sugar-works.

WEATHER AND CROP REPORT.

For the week ending the 17th August 1903.

Burdwan.—Rainfall at Sadar 2·80, Kalna 1·83, Katwa 2·69, Raniganj 2 06. Weather cloudy. Transplantation of *aman* continues. Condition of sugarcane, *aus*, jute, and indigo fair. Fodder and water sufficient. Scarcity of water still prevails in some parts of thanas Katwa and Mangalkot, where transplantation is proceeding with difficulty. Condition of cattle good. Common rice sells at 10 seers per rupee.

Birbhum.—Rainfall at Sadar 4·65, Rampur Hât 7·84. Weather seasonable. Transplantation rapidly in progress. Sugarcane is in flourishing condition. Rice sells at 11½ seers per rupee. Fodder and water sufficient.

Bankura.—Rainfall at Sadar 2·95, Vishnupur 1·7. Transplantation going on throughout the district. Rice sells at 10 seers a rupee. Fodder and water sufficient.

Midnapore.—Rainfall at Sadar 1·30, Contai ·07, Tamluk ·95, Ghatal 1·14. Transplantation continues. Rain greatly needed throughout district. Prospects of paddy uncertain. Crop damaged by insects. Jute and sugarcane thriving. Fodder sufficient. No cattle-disease. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Contai	12	0	
Tamluk	11	12	
Ghatal	Not reported.		

Hooghly.—Rainfall at Sadar 0·65, Serampore 0·49, Arambagh 2·38. Transplantation has been going on well during the week, but rain is badly wanted for completion. Prospect of *aus* good. Jute and sugarcane doing well. Common rice sells as follows:—

	Srs.	ch.	
Sadar	10	0	per rupee.
Serampore	10	4	
Arambagh	9	8	

Howrah.—Rainfall at Sadar 1·09. Weather cloudy and seasonable. Condition of standing crops good. The recent rain has done immense good to the standing paddy. The transplantation of *aman* paddy is going on briskly. Sowing of jute over. Fodder and water sufficient. No cattle-disease reported. Common rice is selling at 10¾ seers per rupee.

24-Parganas.—Rainfall at Sadar 1·47, Barasat 2 00, Basirhat 0 24, Diamond Harbour 0·27. Weather cloudy. Rainfall insufficient in Sadar and Basirhat subdivisions and thana Mograhat in the Diamond Harbour subdivision, but more rain is wanted in the remaining thanas of the last-named subdivision also. *Aus* and jute doing well as also *aman* sown broadcast on *bil* lands. Transplanted *aman* seedlings in Basirhat want rain badly. Prospect of *aus* and jute good, but that of *aman* problematical. Jute being cut and steeped. Transplantation of *aman* in fair progress excepting in Basirhat, where it is at a standstill for want of rain. Common rice sells at 11¾ seers per rupee except at Barasat and Diamond Harbour, where it sells at 10 seers per rupee. Cattle-disease reported to have made its appearance at Chaital, in the Basirhat subdivision. Fodder and water good.

Nadia.—Rainfall at Sadar 1·74, Kushtia 4·72, Meherpur 6·53, Chuadanga 10·93, Ranaghat 7·18. Rainfall sufficient throughout the district except in a few places in Meherpur and Kushtia subdivisions where still some more rain wanted. Prospects of standing crops better. Transplantation of *aman* far advanced. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Kushtia	11	0	
Meherpur	10	10	
Chuadanga	11	8	
Ranaghat	11	0	

Murshidabad.—Rainfall at Sadar 2·76, Kandi 3·56, Jangipur 3·54, Lalbagh 10·60. Weather seasonable. Recent rains greatly improved the condition of standing crops, especially *aus* and *aman*. Transplantation of *aman* goes on. Jute and sugarcane thriving. Prospects of *maize* specially good in Forekka outpost in Jangipur subdivision. *Bhadoi* has been much damaged for absence of rain. No cattle-disease. Fodder sufficient. Common rice sells as follows:—

	Srs.	ch	
Sadar	10	0	per rupee.
Kandi	11	8	
Jangipur	12	4	
Lalbagh	11	0	

Jessore.—Rainfall at Sadar 1·37, Jhenida 7·18, Magura 8·07, Narail 2·24, Bangaon 1·98. Weather hot and cloudy. Recent rain has done good to the *aman* paddy, especially in Jhenida and Magura. Its transplantation going on vigorously. More rain wanted. Harvesting of *aus* begun. Fodder and water sufficient. Cattle-disease reported from Salikha. Common rice sells as follows:—

	Srs.	ch.	
Sadar	11	8	per rupee.
Jhenida	12	0	
Magura	12	0	
Narail	12	5	
Bangaon	12	5	

Khulna.—Rainfall at Sadar 2·35, Bagerhat 2·57, Satkhira 0·80. Weather seasonable, but more rain is urgently wanted, as transplantation is still being retarded. Transplantation of winter paddy is now estimated at 65 per cent. *Til* sowing is estimated at 79 per cent. Cattle-disease reported from Khulna, Paikgacha, Kaligunge, and Budhatta. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	4	per rupee.
Bagerhat	12	0	
Satkhira	11	0	

Rajshahi.—Rainfall at Sadar 4·19, Nator 4·15, and Naugaon 5·61. Prospects of *aus* paddy much improved. Steeping of jute and transplantation of winter paddy going on. More rain wanted. Condition of cattle good. Fodder and water ample. Common rice selling at 13 seers a rupee.

Dinajpur.—Rainfall at Sadar 7·16. Fall in the district general, varying from 10·54 to 2·24. Weather seasonable. Steeping of jute has commenced in some places. Standing crops fair. Transplantation of winter rice is going on well. No cattle-disease. Fodder and water plentiful. Common rice sells at 13 seers a rupee.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

[Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.]

(3) Babu Sarat Chandra Brahmachari, M.A., Deputy Inspector of Schools, Champaran, and now Officiating Deputy Inspector of Schools, Bankura (Class IV), to be Assistant Head Master of the Patna Training School, *vice* Babu Rajendra Prasad.

(4) Babu Trisuldhari Singh, Deputy Inspector of Schools, Singhbhum (Class IV), to be Deputy Inspector of Schools, Champaran, *vice* Babu Sarat Chandra Brahmachari.

(5) Babu Harabans Sahai, Deputy Inspector of Schools, Monghyr (Class III), to be Deputy Inspector of Schools, Singhbhum, *vice* Babu Trisuldhari Singh.

(6) Babu Kishun Sahay, Sub-Inspector of Schools, Saran, and now Officiating Deputy Inspector of Schools, Champaran (Class VI), to be Deputy Inspector of Schools, Monghyr, *vice* Babu Harabans Sahai.

The 25th August 1903.—Babu Jadu Nath Banerji, an Assistant Master in the Rajshahi Collegiate School (Class VIII), was absent on leave for three weeks, under article 271 (1) of the Civil Service Regulations, in continuation of the leave granted to him under the orders of the 31st July 1903.

Babu Nanda Lal Gupta, an Assistant Master in the Rajshahi Collegiate School, on a salary of Rs. 45 a month, acted in Class VIII of the Subordinate Educational Service, during the absence, on leave, of Babu Jadu Nath Banerji.

A. PEDLER,

Director of Public Instruction, Bengal.

ORDERS BY THE SYNDICATE OF THE CALCUTTA UNIVERSITY.

1. In supersession of the previous notification, the following text-book in Telugu Poetry has been prescribed for the Entrance Examination in 1904 and the two following years:—

Bhaskarasatakamu—The whole.

2. The following text-books in Gujrathi have been prescribed for the Entrance Examination in 1904 and two following years:—

Prose.

Navalaram—Navala Granthavali, Volume I, pages 1—220.

Poetry.

Kabi Premananda—Nalákhyán.

3. In supersession of the Syllabus announced on pages 211-212 of the Calcutta University Calendar for 1903, the following revised syllabus in Practical Histology has been prescribed for the B.Sc. Examination, Pass and Honours, in 1905:—

Pass Course.

Haliburton	...	Essentials of Chemical Physiology, Elementary Course. Blood, Milk, Albumen, Digestive Juices, Urine (normal) and Glycogen.
Stirling	...	Outlines of Practical Physiology, 4th Edition. *Experimental Physiology.*—The Frog's Heart,—Beating of the Heart,—Effect of Heat and Cold,—Section of the Heart, pages 360—363; Stannius's Experiment, pages 376-377;—The Laryngoscope—Vowels, page 481; Reflex Action—Action of Poisons—Knee-jerk in Man, pages 492—496;—Eye—Formation of Image, pages 509—514—Touch, Smell, Taste, Hearing, pages 565—568 and 580-581, omitting small print.
Stirling	...	Practical Histology, 2nd edition—Preparation of fresh tissues from a Frog, omitting 1, 3, 4, 8 (*b*), 10, 13, 17—23.

Honour Course.

Haliburton	...	Essentials of Chemical Physiology, Elementary Course.—(i) The Proteids; (ii) Blood, Hæmoglobin; (iii) Digestion—Salivary, Gastric, Pancreatic, Glycogen in the Liver; (iv) Urine—Volumetric Analysis for Urea; Sugar in Urine, Qualitative and Quantitative.
Stirling	...	Outlines of Practical Physiology,—4th Edition. *Experimental Physiology.*—(i) Nerve-muscle Preparation—Stimulation of Nerve—Mechanical, Chemical and Thermal Stimuli, pages 219—225 and 243—251, omitting small print; (ii) The Frog's Heart—Stannius's Experiment, pages 360—364 and 376-377; (iii) The Laryngoscope—Vowels, page 481; (iv) Reflex Action—Action of Poisons—Knee-jerk in Man, pages 492—496; (v) The Eye—Formation of an Image, &c., pages 509—514; (vi) The Ophthalmoscope, pages 560-561; (vii) Touch, Smell, Taste, Hearing, pages 565—568 and 580-581, omitting small print.
Stirling	...	Practical Histology, 2nd Edition—Preparation of fresh tissues from a Frog, omitting 1, 3, 4, 8 (*b*), 10, 13, 17, 23.

4. In the list of text-books for B.A. Honour English in 1905 (Calendar, 1903, page 195) under "*Permanent subjects*," for "Shaw—Outlines of English Literature" has been substituted "Smith—Students' English Literature, being a History of English Literature by Thomas B. Shaw, edited by William Smith."

5. In the list of text-books in English prescribed for the M.A Examination in 1905 (Calendar, 1903, page 215) after "Hooker—Ecclesiastical Polity, Book I (Clarendon Press series)," the following has been added—

"More ... Utopia."

6. The following changes in the Regulations of the University adopted by the Senate at their meeting held on the 23rd August 1902 have been approved by His Excellency the Governor-General of India in Council:—

(*i*) Paragraph 2 of the Regulations for the Examination for Honours in Medicine (Calendar for 1903, page 72) has been altered as follows:—

"2. The Examination shall take place annually at such time as the Syndicate may, from time to time, appoint, and shall be conducted by means of written papers and practical tests."

The above change will come into operation at and from the Examination in 1904.

(*ii*) In the form of application for admission to the Entrance Examination on page 94, Calendar, 1903, after the heading "Entrance Examination," the following words have been added:—

"*Form of application to be used only by candidates who appear as students of a High School recognised by the Calcutta University.*"

(*iii*) Paragraph 2 of the Regulations for the First Examination in Engineering (page 74, Calendar, 1903) has been modified as follows:—

"Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in a School of Engineering affiliated to the University for five years after passing the Entrance Examination, or for three years after passing the F.A. Examination."

(*iv*) The following sentence has been omitted from paragraph 2 of the above Regulations:—

"A student who has passed the B.A. Examination in the B Course shall be admitted to the F.E. Examination after two years' study in a School of Engineering affiliated to the University."

(*v*) Paragraph 2 of the Regulations for Licence in Engineering (page 79, Calendar, 1903) has been altered as follows:—

"Any undergraduate of the University may be admitted to this Examination on producing a certificate from the Head of an Institution affiliated up to the L E. standard in Engineering showing that he has prosecuted a regular course of study for one year after passing the First Examination in Engineering."

(*vi*) Paragraph 2 of the B.E. Regulations (page 85, Calendar, 1903) has been altered as follows:—

"Any candidate who has passed the First Examination in Arts may be admitted to this Examination, provided he produces a certificate from the Head of an Institution affiliated up to the B.E. standard in Engineering showing that he has prosecuted a regular course of study for one year after passing the First Examination in Engineering."

(*vii*) The following revised Syllabus in Mathematics has been substituted for the one given in paragraph 5 of the F.E. Regulations under heading "I—Mathematics" (pages 74-75, Calendar, 1903):—

I.—MATHEMATICS.

FIRST PAPER.

Computations and Mensuration.

(*a*) Practical applications of Arithmetic with special reference to contracted methods.

The theory of logarithms; application of logarithms to arithmetical and trigonometrical calculations, including the solution of triangles and the determination of heights and distances.

(*b*) Mensuration of plane and solid figures, including the application of Simpson's rules, the prismoidal formula and Guldin's theorems, and not excluding proofs of the formulæ in use.

N.B.—Books of logarithmic tables will be provided for the use of candidates during the examination.

SECOND PAPER.

Algebra, Trigonometry and Plane Analytical Geometry.

(*a*) Summation of arithmetic and geometric series, and of series in which the n-th term is an integral function of n.

Binomial, exponential and logarithmic series with easy examples.

Partial Fractions.

(*b*) Geometrical representation of complex quantities: addition and multiplication of complex quantities; De Moivre's theorem; derived trigonometrical formulæ, including the ordinary formulæ of Elementary Trigonometry.

The expansions and exponential values of $\cos\theta$ and $\sin\theta$; the hyperbolic functions.

Summation of a series of sines and cosines of angles in arithmetical progression, and of other simple trigonometrical series.

(*c*) Rectangular Cartesian co-ordinates and polar co-ordinates; the analytical geometry of the straight line; equations representing two or more straight lines.

The special forms of the equations of the circle, parabola, ellipse and hyperbola without reference to the general equation of the second degree.

Determination of the asymptotes of a conic given by any equation of the second degree; their use in discriminating the character of the curve.

N.B.—The methods of pure Geometry and of the Differential Calculus will not be disallowed.

THIRD PAPER.

Statics and Dynamics.

(*a*) Uniform and uniformly accelerated motion. Composition of velocities and accelerations. Relative velocities and accelerations. Projectiles. The laws of motion with simple illustrations, such as the motion of a particle on an inclined plane, motion of two particles connected by a string, uniform circular motion of a particle.

(*b*) Composition of concurrent and parallel forces acting on a rigid body. Centre of parallel forces; centres of mass. Reduction of any system of coplanar forces acting on a rigid body to a single resultant force or couple; properties of resultant; conditions of equilibrium; statically equivalent system of forces; problems on equilibrium. Friction. Machines.

(*c*) Impulse of a force; principle of linear momentum for a single particle and for a system of particles; simple cases of impact, including the impact of two spheres whose centres move in the same plane.

Work of a force; principle of energy for a single particle and for a system of particles; application of the principle to the solution of problems.

FOURTH PAPER.

Differential and Integral Calculus.

(*a*) Differentiation in general, including Leibnitz's theorem, partial differentiation, and differentiation of implicit functions.

Orders of smallness; infinitesimals and differentials. Elementary proofs of Taylor's and Maclaurin's Theorems. Expansions of functions of a single variable.

Evaluation of undetermined forms.

Tangents and normals of curves.

Maximum and minimum values of a function of one independent variable.

(*b*) Integration regarded as a process of a summation, and as the inverse of differentiation. The standard integrals. Integration by substitution and by parts.

Integration of rational functions. Simple integrals involving trigonometrical functions.

Application of the Integral Calculus to the determination of lengths of curves, areas, volumes; centres of mass and moments of inertia.

N.B.—Special importance will be attached to the performance and the applications of quite simple differentiations and integrations.

(*viii*) The following revised Syllabuses in Chemistry and Physics have been substituted for those prescribed for the F.E. Examination on pages 75—78 of the Calendar, 1903, under heading "II.—Natural Science."

II.—NATURAL SCIENCE.

CHEMISTRY.

I.—General properties and changes of matter in simple common cases. Relation of chemical changes to physical and mechanical changes.

Experimental proofs of the indestructibility of matter.

Elementary forms of matter; compounds and distinction of compounds from mixtures.

Experimental deduction of the principal fundamental laws of Chemistry: equivalents.

Dalton's atomic theory.

Experimental determination of the properties of gases with regard to heat and pressure; Boyle's and Charles' laws.

Experimental determination of the volume relations of reacting gases; law of gaseous volumes.

Deduction from above laws of the probable physical composition of matter; Avogadro's hypothesis.

Distinction between the molecule and molecular weight.

Density, relative density, vapour density, and specific gravity of substances.

Relation between relative density of gases and molecular weights.

Determination of relative density of gases by direct weighing and of vapour density of volatine substances by Dumas' method; deduction of molecular weights.

Relation between atoms and molecules.

Distinction between atoms and atomic weights.

Deduction of the maximum value of atomic weights of elements from the molecular weights of their volatile compounds.

Relation between atomic weights and equivalents; valency.

Dulong and Petit's law of atomic heats; its use as subsidiary method of determining atomic weights.

Chemical symbols and formulæ; representation of chemical changes by equations. Quantitative meaning of symbols; calculations.

General types of chemical action as illustrated by the experimental work previously done.

II.—Occurrence, preparation, and properties of the elements listed below, and of their simpler compounds:—Hydrogen, Chlorine, Bromine, Iodine, Fluorine, Potassium, Sodium, Ammonium, Copper, Silver, Gold, Calcium, Strontium, Barium, Magnesium, Zinc, Mercury, Boron, Aluminium, Carbon, Titanium, Silicon, Tin, Lead, Nitrogen, Phosphorus, Arsenic, Antimony, Bismuth, Oxygen, Chromium, Manganese, Tungsten, Sulphur, Iron, Nickel, Cobalt, Platinum—considered generally.

A more detailed study of the preparation, properties and determination of the composition of the typical compounds—Hydrogen, Chloride, Water, Ammonia, and Methane.

Salts, bases, acids, and other compounds; their nature, behaviour on solution and relationship with each other.

General methods for the preparation of Haloides, Oxides, Hydroxides, Sulphides, Sulphates, Nitrates, Phosphates, Carbonates, Carbides, Nitrites, and Hydrides.

The Peroxides and their relation to Ozone and Hydrogen Peroxide.

Double salts, crystallization, water of crystallization.

Isomorphism and its use in controlling atomic weights.

Systematization of Chemical data: the Periodic law, its uses and consequences.

III.—The Phenomena of combustion, explosions, reversible reaction; dissociation Phenomena.

Thermo-chemical methods of investigation

Calorimetry—Heat of combustion, heat of formation, heat of neutralisation, heat of solution.

Exothermal and endothermal reactions.

Allotropy and the Allotropic modifications of the elements, allotropy of metals.

Applications of the principles of thermo-chemistry to the solution of technical problems.

The Ionic theory of solution; deduction of the laws of dilute solutions from thermodynamical data; derived methods of determining molecular weights; explanations of chemical reactions based on the Ionic theory, and foundations of Analytical Chemistry.

IV.—Chemical Technology.

Natural waters: their composition, analysis, and determination of suitability for various purposes. Purification of waters on the large scale.

Preparation on the large scale of (Chemistry of the)—

(1) Chlorine, hydrochloric acid, bleaching powder.
(2) Oxygen, red lead.
(3) Quick-lime.
(4) Hydraulic lime, Portland cement, glass, soluble glass, porcelain, pottery, bricks.
(5) Plaster of Paris, alums.
(6) Sulphuric acid, sodium carbonate, caustic soda.
(7) White lead, permanent white.
(8) Tin plate, galvanized iron.
(9) The setting and hardening of Mortars and Cements.

V.—PRACTICAL CHEMISTRY.

Preparation and demonstration of the properties of the common gases, such as Hydrogen, Oxygen, Nitrogen, Carbon Dioxide, Nitric Oxide, Nitrogen Monoxide, Hydrogen Sulphide, Hydrogen Chloride, Ammonia.

Preparation of the commoner acids, bases, oxides and salts, *e.g.*, Nitric Acid, Calcium Oxide, Calcium Hydrate, Copper Oxide, Ferrous Sulphate, Copper Sulphate, Zinc Sulphate, Sodium Chloride, Ammonium Chloride.

Determination of the relative density and molecular weight of soluble gases.

Determination of approximate equivalents of metallic radicles in the most simple cases, *e.g.*, Copper, Lead, Iron.

Detection of the commoner substances by their physical characteristics.

Qualitative analysis (including blow-pipe analysis) of mixtures containing not more than two acid and two basic constituents (excluding phosphates insoluble in water) from the following list:—

Hydrogen, Potassium, Sodium, Ammonium, Magnesium, Calcium, Strontium, Barium, Zinc, Manganese, Iron, Aluminium, Chromium, Arsenic, Antimony, Tin, Mercury, Lead, Copper, Silver, Carbon, Sulphur, Hydrochloric Acid, Hydrofluoric Acid, Nitrous Acid, Nitric Acid, Carbonic Acid, Silica, Silicic Acid, Sulphuric Acid, Phosphoric Acid.

Qualitative analysis of substances, such as Iron, Brass, Bronze, Solders, Iron Ores, Boiler Scale, Lime-stones, Lime, Cement, Clay, Brick, Paints and Colour washes (for commoner inorganic constituents only).

Simple gravimetric estimations of Calcium, Zinc, Iron, Copper, Silver, Hydrochloric Acid, Carbonic Acid, Sulphuric Acid, and Silica, Commercial analysis of Lime, Lime-stone, and Brass.

PHYSICS.

I.—HEAT.

Expansion of solids, liquids, and gases. Regnault's experiments on the absolute expansion of Mercury and the expansion of gases. Charles' law. Principles of Thermometers. Temperature as measured by the expansion of solids, liquids, and gases. Mercurial thermometers; air thermometers. Thermometers for various purposes. Density of solids, liquids

and gases. Absolute temperature. Calorimetry. Correction for radiation. Specific heats of solids and liquids: method of mixture; Bunsen's Ice Calorimeter. Specific heat of gases—at constant pressure, Regnault; at constant volume, Rontgen. Dulong and Petit's law. Changes of state of aggregation. Regulation. Critical temperature; continuity of state. Measurement of heat of fusion and vaporization. Influence of pressure on melting and boiling points. Methods of liquifying gases. Maximum pressure of vapours, Regnault; pressure of saturated steam below and above 100°C. Vapour densities; Dumas', Hoffman's *vs.* Meyer's methods Hygrometry. Conduction; variable and permanent stages; simple cases of steady flow across a plate and along a bar; Wiedemann and Franz' experiments. Convection. First law of thermo-dynamics. Joule's experiments. Van der Wahl's Theory. Adiabatic transformations. Second law of thermo-dynamics. Cooling of gases by expansion.

II.—STATICAL ELECTRICITY.

Electrification by friction. Electroscopes. Ice-pail experiments. Induction. Electrophorus. Voss and Wimhurst's Influence machine. Electric work and energy. Indicator diagram of electric work. Exploration of electric field. Potential at any point of the field. Lines and tubes of force. Equipotential surfaces; lines of induction. Measurement of electricity. Attracted disc electrometer; quadrant electrometer. Dimensions. Electrostatic units: Capacity, Condensers; two concentric spheres; Leyden Jar. Specific inductive capacity. Absolute measurement of capacity; statical comparison of capacities; measurement of specific inductive capacity; standard air condenser.

III.—CURRENT ELECTRICITY.

Chemical and thermal methods of producing currents: Daniell; Grove, Bunsen, Leclanche, Lahande; thermopile; thermo-electric battery. Electrolytic conduction. Electrolysis of fused compounds and of saline solutions. Faraday's laws. The voltameter. Metallic conduction.

Ohm's law. Kirchhoff's laws. Units of resistance. Resistance coils. Wheatstone's bridge. Resistance of battery. Resistance of galvanometer. Electromotive force. Standard cells—Latimer Clerk. Determination of electromotive force; statical method. Poggendorff's compensation method. Relation of electricity to heat; Joule's law. Gaseous conduction. Disruptive discharge. Flow of electricity and flow of electrical energy. Phenomena attendant on the starting, stopping, and varying of a current. Oscillating discharges.

IV.—MAGNETISM.

Fundamental experiments. Magnetic field. Magnetic elements. Declination theodolite; dip circle; magnetometer. Methods of magnetization.

Relation of magnetism to electricity. Oersted's experiment. Tangent galvanometer; Thomson's reflecting galvanometer: Wiedmann's two-coiled galvanometer. Electro-dynamic experiments; the Solenoid. Electro-magnets; types. Permeability and methods of measuring it. Magnetic hysteresis. Magnetic flux, Magneto-motive force, reluctance. The law of traction. Induction of currents; Lenz's law. Self-induction. Ruhmkorff's coil. Electro-magnetic units.

V.—RADIANT ENERGY.

Laws of vibrating particle. Harmonic vibrations. Transverse and longitudinal waves. Interference of waves travelling in the same and in opposite directions. Stationary waves. Composition of undulations; eliptical, circular, and rectilinear vibrations. Huyghen, principle. Reflection and refraction of thermal, luminous, and electric waves. Velocity of propagation; Foucault and Fizeau's experiments. Plane and spherical mirrors. Refraction. Prisms, minimum deviation. Determination of refractive indices of solids and liquids. Lenses; cardinal points; systems of lenses. Melloni's experiments on radiant heat. Hertz's experiments on electrical radiations. Röntgen rays. Wireless telegraphy. Dispersion. Spectroscope and spectra. Absorption of ethereal waves; diathermancy and athermancy; coloured bodies. Structure of the human eye.

VI.—APPLIED PHYSICS.

1. *Heat.*—Electric pyrometers. Outlines of construction of the double-acting steam-engine. Otto's gas-engine, petroleum engines, and modern ice-making machinery.

2. *Light.*—The sextant; photometry; telescopes; modern field-glasses; microscopes. Principles of photography.

3. *Electricity and Magnetism.*—Telegraphy. Batteries in common use; signals; sounder; Siemens' inkwriter; Siemens' relay. Lightning-conductors. Terminals, single and multiple points; earth connection, its importance; the conductor proper; material; form; joints; clips and brackets; ridge circuits; incidental connections; space protected; protection of dwelling-houses, magazines, chimneys, periodical inspection and testing. The telephone and microphone; electric bells and indicators. Dynamo-electrical machinery. Efficiency, causes of loss of energy. Types of armatures. Armature coils and cores. Field-magnets, Pole-pieces, Field-magnet coils. Commutators, Collectors, Brushes, brush-holders. Curves of potentials and induction. Reaction of armature and field. Lead of brushes. Methods of exciting field-magnets. Classification of dynamos. Examples.

Transmission of electric energy. Accumulators. Transformers, Airlines, insulators, testing; modes of attaching the wire, material for wires, joints, lightning-protectors. Underground conduits. The three-wire system. Comparison with other methods of transmitting energy.

Motors: construction and application. Electric lighting. Incandescent lamps; arc lamps. Electric welding. Electric measurements and measuring apparatus. The volt. Amperemeters and voltmeters; construction and calibration. Ampere balances The balistic galvanometer. The Ohm; resistance coils; the shunts box; Ohmmeters. The Farad and micro-farad. The Watt.

VII.—PRACTICAL EXERCISES.

Measurement of the thickness of plates by the wire-gauge, micrometer, micrometer calliper, cover-glass tester, spherometer.

Determination of the radius of curvature of lenses by the spherometer.

The cathetometer; constructional details; adjustments; measurement of differences in heights; verification of Boyle's law; coefficient of tentional elasticity.

The longitudinal dividing machine: construction; manipulation, its use as a comparator; calibration of thermometer tubes.

The circular dividing machine: construction; manipulation.

The balance: adjustment; weighing by the method of vibration; comparison and calibration of weights; specific gravity of solids; cross-section of wires.

Moments of inertia.

The barometer: readings and corrections.

Themometer: comparison; verification of fixed points. Coefficients of expansion.

Hygrometry: absorption hygrometer; dewpoint hygrometers; the psychrometer; comparison of results.

Calorimetry: correction for loss of heat; specific heat of solids; heat of evaporation; heat of combustion.

Melting and boiling points; distillation.

Study of magnetic fields.

Faraday's Ice-pail experiments; exercises with quadrant electrometer.

Setting up and reading of galvanometers. Ohm's law; Wheatstone's bridge The meter bridge; insulation resistance by deflection method; resistance of wires by Kelvin's apparatus.

The potentiometer: current and voltage measurements.

Kelvin's balance; current; voltage; wattage.

The balastic galvanometer; determination of constant, dip and intensity of earth's magnetic field by the earth inductor.

Electrolysis: electrolytic current measurements.

Secondary batteries: constructional details and management.

Thermo-electrical experiments.

Exercises at the spectroscope. Photometric experiments. Focal distances of mirrors and lenses.

(*ix*) The following revised Syllabus in Mathematics has been adopted for the one given in paragraph 5 of the L.E. and B.E. Regulations (pages 79-80, Calendar, 1903):—

I.—MATHEMATICS.

FIRST PAPER.

Statics and Dynamics.

(*a*) Principle of virtual work. Analytical conditions of equilibrium.

Solution of problems in Statics by resolving and taking moments, by the principle of virtual work and by graphic methods.

Bending moments. The funicular polygon. The Catenary. Equilibrium of simple jointed frame-works.

(*b*) Units and dimensions.

Statical equivalence of the externally impressed forces with the effective forces in any system of bodies; the principles of linear and angular momentum; the principles of *vis viva*.

Gravitational Potential energy; potential energy of a stretched elastic string.

Motion under gravity of a particle on a smooth vertical circle and on other simple curves; simple harmonic motion; the simple and conical pendulum.

Motion of a rigid body about a fixed axis; the compound pendulum.

SECOND PAPER.

Hydrostatics.

Nature and general properties of fluid pressure.

Density and specific gravity of a homogeneous mixture.

Relations between pressure, density and force.

Thrust on a plane area. Centre of pressure.

Resultant pressure on an immersed solid on any immersed surface, particularly in the case of a homogeneous liquid at rest under gravity.

Conditions for the equilibrium and for the stability of the equilibrium of a floating body.

Hydrostatic Instruments. Determination of specific gravity. Properties of gases.

(*x*) The following revised Syllabuses in Natural Science for the L.E. and B.E. Examinations has been substituted for those given on pages 80—83, Calendar, 1903 :—

II.—NATURAL SCIENCE.

Geology.

I.—*Object of Geology.*—Its relations to other sciences. The doctrine of uniformity, its limits.

II.—*Astronomical Geology.*—Information obtained from meteorites and by the spectroscope. Probable history of the earth in its earlier stages of existence.

III.—*Geognosy.*—The globe and its envelopes. Shape and nature of globe; density; probable internal condition; evidences of pressure and internal heat. Persistence of continent ridges and abysmal depressions.

IV.—*Petrography.*—Macroscopic and Microscopic character of rocks. Microscopic elements; their importance for the study of the history of rocks. Microscopic character of quarts, orthoclase, plagioclase, augite, hornblend, olivine, calcite. Essential and accessory constituents. Classification of rocks. Characters and essential constituents of the following rocks.—Lime-stone, quartzite, amphibolite, gneiss, micaceous and chloritic schists, phyllite, granite, granophyr, quartzporphyry, syenite, trachyte, phonolite, obsidian, pumic, norite, diorite, biobase, dolerite, plagioclase-basalt, sand and gravel, sand-stones, conglomerates, breccias, shale, clay, laterite, tuffs, shellmarl, coral lime stone, chalk, peat lignite, coal, anthracite, graphite, petroleum, asphalt, clay iron-stone.

V.—*Dynamical Geology.*—Volcanic phenomena, description of volcanoes—kind, shape, description, relation to lines of weak resistance and instability. Theories of volcanicity. Hot springs. Earthquakes. Secular upheaval and depression. Geological functions of air. Geological functions of water and ice. Chemical and mechanical actions, denudation and deposition. Peculiarities of Indian rivers; glacial erosion; formation of lakes. Geological functions of plants and animals; coral islands.

VI.—*Petrogenetic Geology.*—Origin of granite, diorite, and basalt. Origin of sedimentary rocks; minerogen, phytogen and zoogen sedimentary rocks; theories on the origin of coal-beds. Origin of laterite. Origin of metamorphic rocks, theories of metamorphism, local and regional metamorphism. Origin of rock-cleavage. Ore deposits. Origin and classification.

VII.—*Architectonic Geology.*—Forms of bedding. Surface-markings. Concretions. Relative strata. Overlap. Groups of strata. Joints. Strike and dip; outcrop; monocline; syncline; anticline. Faults, origin and kinds. Intrusive phase of eruptivity; bosses, sheets, dykes, necks; inter-bedded phase of eruptivity, lavas, tuffs. Unconformability.

VIII.—*Palæontological Geology.*—Object. Conditions for the entombment of organic remains. Preservation of organic remains in mineral masses; fossilizator. Uses of fossils in Geology.

IX.—*Historical Geology*—Leading principles in stratigraphy. Equivalent strata, absence strata, and formations.

X.—*Indian Geology.*—With special reference to the Geology of the Bengal Presidency. Peninsular area. The metamorphic and crystalline series. The transition series. Lower and Upper Vindhyas; petrology; the Vindhyan basin. The Gondwana system; geological positions and characters, probable fluviatile origin; relations of Gondwana basins to existing valleys; lower and upper groups, Talchir-Karharbari, Barakar iron-stone shales, Raniganj, Rajmahal; the most important coal fields. The Deccan trap series, area and petrology. Laterite; distribution, age. Post tertiary and recent formations; older river gravels and clays; kankar. Indo-Gangetic plain; upland and alluvial soils, red soils, regur, peat. General outlines of the Geology of the Himalayan area.

XI.—*Physiographical Geology.*—Terrestrial features due to disturbance of crust, monoclival, symmetrical, unsymmetrical, reversed flexures, Alpine type of mountain structure. Features due to volcanic action. Features due to erosion. Indian examples.

XII.—*Field Geology.*—Geological surveying instruments, tracing of boundaries and faults. Sections; how to find direction and amount of dip; Dalton's construction; clinometer. Levelling. Surface, profile, datum level; benchmarks; methods of geological levelling. Lithology; practical exercises in the identification of Indian rocks.

Mineralogy.

PROVINCE OF MINERALOGY.. ITS RELATION TO OTHER SCIENCES.

I.—Properties of crystals independent of direction. Density and specific gravity. Methods of determining specific gravities; hydrostatic balance; pyknometer, Jolly's balance; floatation methods. Separation of rock-forming minerals by the floatation method.

II.—*Physical Crystallography.*—Elasticity. Relation of coefficient of elasticity to direction. Classification of crystals with reference to elasticity.

Cohesion. Cleavage, fracture, hardness: Mohs' scale.

Optical properties of minerals. Kind and degree of lustre. Double refraction and polarization. Nicol's prism. Classification of crystals according to their optical properties.

Uni-axial and bi-axial crystals. Examination of crystals in parallel and convergent polarized light. Rotation of plane of polarization. Absorption of light; idiochromatic and allochromatic minerals; pleochroism; Haidinger's dichroscope, microscope with one nicol.

Electrical properties. Pyro-electricity. Magnetic properties. Separation of rock-constituents by the electro-magnet.

III.—*Geometrical Crystallography.*—Relation of physical properties to geometrical form. Crystalline form; faces. Planes of reference, axes, parameters, indices; symbols. Law of rationality of indices. Principles of Miller's, Weiss', Naumann's notation. Fundamental form; its selection. Symmetry: planes and axes. Classes and systems. Simple forms and combinations. Closed and open forms; prismatic, tabular, and pyramidal habit. Nature of hemihedrism. The nature of tetartohedrism. Hemimorphism. Crystallographic mimicry. Isomorphism and heteromorphism. Morphotrophism and isogonism Twinning: twinning plane; twinning axes. Contact twins and penetration twins; distinctive features of hemitropes. Crystalline aggregates, druses. Pseudomorphism. Measurement of angles; contact and reflecting goniometers; relative merits.

IV.—*Chemical Mineralogy.*—Calculation of formula. Classification of minerals. Group tests.

V.—*Descriptive Mineralogy.*—A somewhat detailed description of the following minerals:—

Elements.—Diamond, gold.

Sulphides—Pyrite, marcasite, pyrhotite, galena, sphalerite, chalcopyrite.

Oxides—Corundum, hematite, spinel, magnetite, quartz, cassiterite, limonite.

Oxysalts:—

(*a*) Carbonates—Calcite, dolomite, siderite, arragonite, malachite.

(*b*) Sulphates—Anhydrite, barite, gypsum.

(*c*) Phosphates—Apatite.

(*d*) Silicates—Tourmaline, epidote, olivine, garnet, muscovite, biotite, talc, serpentine, pyroxene, amphibol, orthoclase, microcline, albite, aligoclase-labradorite, kaolinite.

Haloidsalts—Halite, flourite.

VI.—*Practical exercises.*—Determination of specific gravities. Use of the scale of hardness. Exercises at the polarization microscope. Measurement of angles by the aid of contact and reflecting goniometers. Blow-pipe analysis. Identification of Indian minerals.

Practical Metallurgy.—

Preparation of common alloys of known composition (and determination of the tensile strength of the alloys prepared).

(Mechanical testing of mortars and cements.)

Fire testing of the qualities of clays and brick earths.

Determination of ash, coke, and sulphur in fuels.

Determination of the calorific power of fuels by the Thomson and Hempel calorimeters.

Determination of furnace temperatures by some form of pyrometer.

Rough analysis of products of combustion.

Furnace gases and gases from gas-engines.

VIII.—*Mechanics of a Machinery.*—Simple practical applications of kinematics and dynamics of machinery. Elementary forms of machines. Gearing for transmitting and modifying motion.

Steam-Engine.—Heat and work. Properties of steam.

Registrar, Calcutta University.

CALCUTTA UNIVERSITY.

NOTICE.

THE Senate will proceed in the month of August 1904 to the election of a Tagore Professor of Law for the term of one year, to commence on the 1st of August 1905.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects:—

(1) The rules of Interpretation in Hindu Law, with special reference to the Mimánsá aphorisms as applied to Hindu Law.
(2) The Mahomedan Law of Inheritance according to the several schools, with a history of its origin, growth, and development.
(3) The Law of Specific Relief in British India.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1904, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will be expected to commence his lectures in August 1905, to complete the delivery thereof in the following January, and to hold an examination of the students who have attended his lectures. He will be further required to send to the Registrar a complete manuscript copy of his lectures before the commencement of the delivery thereof, failing which his appointment shall be liable to be cancelled by the Senate on the recommendation of the Faculty of Law.

SENATE HOUSE,
The 24th August 1903.

Office Memo. of the Inspector of Schools, Bhagalpur Division.

UNIVERSITY ENTRANCE EXAMINATION, 1904.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred since the 1st September next preceding the examination, without the consent of the Inspector, to the school from which he appears, will be treated as a private student.

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination unless accompanied, for the purpose of identification, by some person known to the Head Master.

3. The first day of the test-examination in all zilla schools in the Bhagalpur Division will be the 14th December 1903.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the Head of the institution at which he appears. The balance of fees, after payment of expenses (stationery, &c.), will go as remuneration to the examiners.

5. Candidates for the test-examination should apply to this office not later than the 9th November 1903. They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1902-1903 and then left the school cannot under any circumstances be allowed to appear at the Entrance examination that will be held on the 7th March 1904 and following days.

7. Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance examination.

8. *Bonâ-fide* teachers employed in any of the recognised schools in the Bhagalpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

9. The forms of application for permission to appear at the Entrance examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. Applications and fees for admission to the Entrance examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 25th January 1904.

F.A. AND B.A. EXAMINATIONS, 1904.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools in the Bhagalpur Division of two years' standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 4th January 1904.

2. Candidates for the B.A. examination must forward with the applications their F.A. certificates, and those for the F.A. examination their Entrance certificates.

3. Candidates should read carefully the certificate which this office will have to sign, and must be careful to supply all information and documents required, without which the Inspector must decline to sign it.

4. The F.A. and B.A. examinations in 1904 will be held on the 21st March 1904 and following days.

5. Applications and fees for admission to the above examinations must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 6th February 1904.

BHAGALPUR,
The 19th August 1903.

P. CHATTERJEE,
Inspector of Schools, Bhagalpur Division.

DACCA DIVISION.

UNIVERSITY ENTRANCE EXAMINATION.

Private Students.

1. A student who has not attended any H. E. School recognised by the University since the 1st September next preceding the Entrance Examination or has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private student.

2. The term "Private student" includes school-masters.

3. Private students desirous of being sent up to the ensuing University Entrance Examination must appear at the test examination of one of the undermentioned schools:—

(1) Dacca Collegiate School.	(3) Faridpur Zilla School.
(2) Mymensingh Zilla School.	(4) Barisal Zilla School.

4. The test examinations of the zilla schools will be held on the 16th December 1903 and the following days. The date of examination of the collegiate school should be ascertained from the Head Master of that school.

5. Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions:—

(*a*) that he has not failed at the test examination of any Entrance school during the current session;

(*b*) that he has not left school from any class lower than the first; and

(*c*) that he has left the school in which he last read with a transfer certificate, or (in case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt.

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *bonâ fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *bonâ fide* teacher in all of them.

6. Every private candidate must pay a fee of Rs. 2 to the Head Master of the school at which he appears for examination. After payment of the necessary expenses, the balance of fees will be paid to the examiners as remuneration.

7. He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test examination.

8. The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test examination within a fortnight from the date of the said examination, and are authorised to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and transmission to the Registrar of the University of Calcutta in due time.

9. Private candidates should arrange to remit their examination fees, together with the application forms direct to the Registrar.

F.A. AND B.A. EXAMINATIONS.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bonâ fide* teachers of recognised English schools will be admitted to the F.A. and B.A. Examinations as private candidates, provided they have served in their respective capacities for a period of two academical years.

Bonâ fide teachers are those who hold paid appointments in English schools teaching at least the Middle English standard.

2. Exceptions to the above rule will be made in case of those candidates who, after failure at a previous examination, have served for six months since the date of the examination. If, however, a candidate does not complete six months' service at the time of submitting his application, he must satisfy this office that he will stick to the post till he completes six months' service before the examination.

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, and also the University certificates, in proof of their having passed the Entrance or F.A. Examination, as the case may be. Candidates who were admitted to a previous examination should produce the Registrar's receipt in addition.

4. Applications must reach this office on or before the 9th January 1904.

5. Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 6th February 1904.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Northern Bengal State Railway, in the district of Rangpur, will be put up to sale at 11 o'clock on the 31st of August 1903, corresponding with the 14th Bhadra 1310 (B.S.) at Nilphamari.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

APPENDIX XXX.

[See Chapter III, Rule 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Barun-Daltonganj Railway, in the district of Gaya, will be put up to sale at 12 o'clock on Friday, the 18th September 1903, corresponding with the 12th Asin 1311 Fusli, at the Gaya Collector's Court.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of the original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

PUBLIC DEBT OFFICE, BANK OF BENGAL.

Calcutta, the 17th August 1903.

CORPORATION OF CALCUTTA.

IN exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation

Any person having any objection to the bye-laws should submit it in writing to the Chairman of the Corporation before the 25th September 1903.

Bye-laws under Section 559 (4) prescribing the procedure to be followed by owners or occupiers desiring a water-supply.

1. The owner or occupier of any masonry building in Calcutta who requires a supply of filtered or unfiltered water for use within such building, and any person who required such a supply for the purpose of any business or trade or other object, shall send to the Chairman a written application on a printed form (to be supplied by the Chairman free of charge).

2. Such application shall specify the name of the licensed plumber who is to be employed on the work, and shall be signed by the applicant or an agent duly authorised on his behalf.

Bye-laws under Section 559 (5) prescribing a schedule of charges of water supplied for other than domestic purposes.

Every person who is supplied with unfiltered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of four annas for every 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time. Such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

Every person who is supplied with filtered water within Calcutta under section 254 of the Act for any purpose other than a domestic purpose shall pay for the same at the rate of six annas for every 1,000 gallons, except when water is required for the manufacture of articles for consumption by human beings, when the charge shall be three annas per 1,000 gallons, or at such other rate or rates as may be fixed by the General Committee from time to time; such rate shall be payable in addition to any rent which may be payable for a meter provided under section 254 or 270 of the Act.

Bye-laws under Section 559 (8) of the Act regulating in any particular not specifically provided for in the Act (i) The construction and maintenance of water-pipes, taps and fittings. (ii) All matters and things connected with the supply and use of water, the control of the water-supply and the administration of Chapter XX of the Act.

1. No person other than a licensed plumber shall execute any work connected with the supply of water to any premises in Calcutta.

2. No stop-cocks, taps, ferrules, cisterns or other fittings shall be used in connection with the water-supply unless they have been previously submitted to and stamped by an officer of the Corporation duly authorised by the Chairman in that behalf with a special die to indicate that they have been approved under section 260 of the Act.

3. After the application referred to in bye-law under section 559 (4) of the Act has been sanctioned, the licensed plumber in charge of the work shall send to the District Engineer a further written application on a printed form (to be supplied by the Corporation free of charge) for an order authorising him to open the street within which the water main is situated, to enable him to lay the service-pipe connecting such main with the premises in respect whereof the work is being carried on. Such application shall be accompanied by a separate written application for an order directing the shutting off of the water in the main.

Such applications shall be made not later than 2 P.M. on the day previous to that on which the proposed connection is to be made, and shall be accompanied by a fee of Rs. 1-12 in respect of every new connection, shifting connection or re-connection.

If the licensed plumber in charge of the work proposes to lay any pipes or to make any connection under the rails of any tramway or railway, the applications referred to in the preceding paragraph hereof shall be made at least 48 hours before the work is to be commenced.

4. No connection between a service-pipe and a main shall be permitted to be made otherwise than in the presence of the licensed plumber in charge of the work, or of some responsible and qualified person acting on his behalf and of a Municipal Officer authorised in that behalf.

If any excavation made in a street by a licensed plumber is not filled up by him in a proper and workmanlike manner and to the satisfaction of the Municipal Officer hereinbefore referred to, or if the street is not restored to its former condition, or if the street subsides within three months after such excavation has been filled up, the District Engineer may, at the expense of such licensed plumber, carry out such work as may appear to him to be necessary for the purpose of filling up such excavation and restoring such street to its former condition.

5. The service-pipes laid down by a person for the purpose of connecting his premises with the mains of the Corporation must be of galvanised-iron tubing or of lead. Such pipes

must be capable of withstanding a pressure equal to that of a column of water 200 feet in height.

6. Lead pipes must be at least of the following weights:—

½ inch bore	...	... 2½ lbs. per yard.
¾ " "	...	... 3½ " " "
1 " "	...	... 4½ " " "
1¼ " "	...	... 5½ " " "
1½ " "	...	... 6 " " "
1 " "	...	... 8½ " " "

All joints are to be wiped-joints.

Galvanised-iron pipes must be at least of the following thicknesses:—

½ inch diameter	...	... One-eighth of an inch.
¾ " "	...	... Three-sixteenths of an inch.
1 " "	...	... Seven-thirty-seconds of an inch.

7. Only such bends or elbows as are in the opinion of the Engineer absolutely necessary will be allowed in any service-pipes.

8. If for the purpose of connecting any premises with the Corporation mains any trench or excavation has to be made or the pavement or surface of any street has to be opened or broken up, the licensed plumber in charge of the work shall cause the place to be properly fenced and guarded and to be sufficiently lighted during the night, and shall with all convenient speed and in a proper and workmanlike manner complete the work, fill in such trench or excavation after watering and ramming the same, and restore the surface of the road to its former condition, and carry away the earth and rubbish occasioned by such work to such place as may be required by the District Engineer.

9. A brass stop-cock of a pattern to be prescribed by the Chairman must be fitted to every service-pipe; such stop-cock must be placed outside the premises to which it belongs in such position as the Engineer may direct and must be covered with a cast-iron cover for the purpose of affording access to it and indicating its position.

The covers must be of a pattern approved by the Engineer.

10. All taps must be made of brass and must be of the screw-down loose valve type or of such other type approved by the Engineer as to obviate all risk of concussion in the pipes owing to the tap being closed too rapidly. Taps shall not be of the plug or barrel type or of any similar pattern. They must be of the best and most approved kind, and the name of the maker must in each case be stamped upon them.

11. All taps on filtered water pipes in or about a courtyard, compound, stable, cattle-shed, cow-house, out-office of any premises, and tenanted land must be fixed not less than 3 feet above ground level. No tap, whether erected before or after the passing of these bye-laws, shall be allowed to project *outside any premises or* in such a position as to be available for use by the public.

12. No tap may be altered or moved and no alteration or addition may be made in any existing pipe or work without the written consent of the Engineer.

13. Service-pipes must be laid at a depth of not less than 2 feet below the surface of the ground.

14. Whenever a service-pipe is laid, whether before or after the passing of these bye-laws, across a sewer or open drain, or in any place where, in the opinion of the Engineer, it is liable to injury, such pipe must be passed through an iron pipe of sufficient length and strength to afford due protection to it, and at such level as the Engineer may direct. If any dispute arises regarding the size or quality of the iron pipe, the matter shall be referred to the Engineer, whose decision shall be final

15. No service-pipe shall be laid along or through or adjacent to any drain or water-course or in any place where, in the opinion of the Engineer, there is a risk or likelihood of the water in such service-pipe becoming contaminated.

16. No pipe shall be laid through or across any drain or water-course in such a manner as in the opinion of the Engineer is likely to cause an obstruction in such drain or water-course

17. Every cistern and reserve tank must be absolutely watertight and must be provided with a ball-valve and with a tell-tale or warning pipe made of galvanized-iron and with proper means of access and inspection

18 No cistern or reserve tank containing or intended to contain filtered water shall be placed immediately over or in the same room as a privy.

19. No service-pipe will be allowed under any circumstance to communicate directly or indirectly with the basin or the trap otherwise than through the cistern or reserve tank of a water-closet, connected privy or urinal.

20. No water-closet, connected privy or urinal shall be flushed otherwise than by a supply of water discharged direct from the cistern or reserve tank hereinbefore referred to.

21. No premises shall be furnished with more than one service-pipe either from the Municipal main or from any other premises without the written sanction of the Engineer.

PENALTY CLAUSE.

Whoever contravenes any provision of any of the foregoing bye-laws under section 559-4, 5, 6, 7 and 8 of the Act, or who fails to comply with any direction lawfully given

to him or any requisition lawfully made upon him under any of the said bye-laws, shall be liable—

(*a*) to a fine which may extend to Rs. 20, and, in the case of a continuing breach of any of the provisions of any said bye-laws, to a fine which may extend to Rs. 10 for every day during which such breach continues after conviction for the first breach; or,

(*b*) in cases where a notice can be issued, to a fine which may extend to Rs 20, and for every day during which the breach continues Rs. 10.

Bye-laws under section 559 (11) specifying the materials to be used in the construction of drains.

1. All materials made use of in connection with the external or internal drainage of any premises must be of the best quality and shall be subject to approval or rejection by the District Engineer or other officer appointed for that purpose by the General Committee. If any question arises as to whether any material is of the best quality, the matter shall be referred to the Engineer of the Corporation, whose decision shall be final

2. All masonry will consist of first class bricks set in mortar consisting of two parts clean sharp Mugra sand and one part of fresh pure Portland cement of approved brand.

3. All plastering shall be done with mortar as specified in preceding bye-law.

4. The cast-iron covers for pits of all bends shall be of the standard pattern to be seen at the District Engineer's Office.

5. All stoneware pipes to be salt-glazed, true in section, of equal thickness throughout and be perfectly sound in all respects, and to be jointed with pure cement.

PENALTY CLAUSE.

6 Any person who shall be guilty of a breach of any of the provisions of the foregoing bye-laws under section 559 (9), (10) and (11) shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach of any such provisions, to a further fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under section 559 (12) regulating the construction and cleaning of privies and urinals.

1. Every connected privy and water-closet must, if required by the Chairman, be provided with a reserve tank of not less than *80 gallons* in capacity for every seat. Every such tank shall be of galvanized or wrought-iron of 14 gauge.

2. Every connected privy and every water-closet must be provided with a flushing cistern of not less than 3 gallons capacity with the pan; such flush-pipe must not be less than 1¼ inches in diameter.

3. Every syphon trap of a connected privy or water-closet shall be proof against syphonage, and in all cases where connected privies or water-closets are more than one storey high, an anti-syphonage pipe shall be provided having a sectional area of not less than one-fourth the sectional area of the soil pipe.

4. No inlet for the admission of pure air to the master-trap of any premises shall be fixed within ten feet of a door, window, ventilating grating or chimney of any building unless such inlet is provided with a mica or aluminum valve.

5. Every urinal shall be provided with a syphon-trap which must be proof against syphonage.

PENALTY CLAUSE.

6. Any person who shall be guilty of a breach of any of the provisions of the foregoing bye-laws under section 559 (9), (10) and (11) shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach of any such provisions, to a further fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under section 559 (16) for the provision, maintenance and lighting of hoards or fences in public streets when building work is carried on.

Re-erect means "re-erect" as defined in section 3 (39) of the Act—

1. Whenever any building is to be erected, re-erected, altered, repaired or added to in the neighbourhood of or abutting upon a public street, and such public street is likely to be obstructed on account of such work, the owner of the premises or the person in charge of the work (which term shall include the builder and his servants and agents and every other person engaged upon the work) shall, after obtaining the permission in writing of the Engineer, cause sufficient hoards or fences to be erected to the satisfaction of the Engineer before beginning the work.

The Chairman may by written notice require any such owner or the person in charge of the works who has not erected such hoards or fences, or who has erected hoards or fences

which are in the opinion of the Chairman inadequate, or who has removed any hoards or fences, to erect such hoards or fences as may appear to the Chairman to be necessary, and any person who fails to comply with such notice shall be liable to a daily fine which may extend to Rs. 10 per diem for every day (after the date of service of the notice) during which he shall continue to fail to comply with the same within 48 hours.

2 Every such hoard or fence provided under the foregoing bye-law shall be maintained by the owner of the premises or the person in charge of the works in good condition to the satisfaction of the Engineer.

3. Every hoard or fence shall be sufficiently lighted by the owner of the premises or the person in charge of the works at night to the satisfaction of the Engineer.

4. No person shall erect any hoard, fence or similar contrivance without the written permission of the Engineer.

Such permission shall specify the time during which such hoard, fence or similar contrivance shall be allowed to stand, and such hoard, fence or similar contrivance shall, on the completion of the works, be removed by the owner of the premises or the person in charge of the works, on the completion of the works or on the expiry of the time mentioned in the written permission of the Engineer, whichsoever shall first happen, unless the time shall be extended by the Engineer in writing. A week's notice of the intention to remove a hoard or fence shall be given to the Engineer in writing.

5. Every permission to erect a hoard or fence on any public street shall be granted on such terms and conditions as to payment of rent, and provision of a footpath for passengers and generally upon such terms and conditions as the Chairman may require.

6. If any hoard or fence shall not be removed as provided in bye-law 4 hereof, the Engineer may cause a written notice to be served upon the party concerned requiring him to remove the same at once, and after the issue of such notice in case of non-compliance the Engineer himself may cause it to be removed.

7. If any person shall commit a breach of any of the provisions of bye-laws 2, 3, 4, 5 and 6 hereof, he shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under Section 559 (17) for regulating the making of holes and the depositing of materials in a public street.

1. If in any case, which is not otherwise provided for in any bye law drawn under the Act, any person is desirous of opening or making an excavation or trench in any public street, he shall make a written application to the Engineer for leave to proceed with the work, specifying the reason for such opening, excavation or trench, and the Engineer shall in his discretion either refuse permission or grant permission on such terms as he may think fit.

2. After receipt of permission in writing from the Engineer and not less than 48 hours before the opening, excavation, or trench shall be begun, such person shall send to the Engineer a written notice specifying the date and hour upon which it is proposed to commence the work.

3. No person shall commence or carry on any such work until he has complied with the provisions of the two foregoing bye-laws.

4. The person to whom permission shall be granted to make an opening, excavation or trench in a public street or the person in charge of such work, shall cause any opening, excavation or trench made in a public street to be at all times fenced and guarded and in addition at night sufficiently lighted to the satisfaction of the Engineer.

5. The person to whom the written permission shall be granted under bye-law 1 of these bye-laws or the person in charge of the work shall complete it with all convenient speed and shall fill up any opening, excavation or trench and restore the surface of the street to its former condition and maintain it in such a condition for a period of three months and carry away all earth and rubbish occasioned by the work as quickly as possible, and in default the Engineer may cause a written notice to be served upon the party concerned requiring him to carry out such work to the satisfaction of the Engineer.

6. Any person who shall commit a breach of any of the provisions of the foregoing bye-laws shall be liable to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-law under Section 559 (19) for the provision and maintenance of gutters and pipes for carrying and discharging water from buildings in public streets.

When any person has, whether before or after the passing of this bye-law, fixed, attached or connected any gutter or spout upon, to or with any building in such a manner as to project over any public street or in such a manner that the water which passes through such gutter, or which is discharged from such spout, falls upon a public street, the Chairman may, by written notice, require the owner or occupier of the building to which such gutter or spout belongs to remove such gutter or spout or to carry out such alterations as may appear

to the Chairman to be necessary, and any person who fails to comply with such notice shall be liable to a fine which may extend to Rs. 10, for every day after the date of the service of the notice during which such person shall continue to fail to comply with the same.

Bye-laws under Section 559 (26) specifying the manner in which stables, cattle-sheds and cow-houses kept for profit are to be constructed and connected with the Municipal drains.

1. Every stable, cattle-shed and cow-house kept for profit which, after the date when this bye-law comes into force, may be constructed, extended or materially altered, or the roof whereof may, after the date aforesaid, be removed, shall conform to standard type plans approved by the General Committee, copies of which can be had on application at the Municipal Office, or the district office of the district within which any such stable, cattle-shed or cow-house is situated, and on payment of a fee of rupee one.

2. Every stable, cattle-shed and cow-house shall be well paved by the owner with asphalt, stone, brick-on-edge with cement-pointing, flag-stones set in cement, or, with the approval of the Chairman, some other suitable impervious material, and the floor shall incline to a channel or gutter sloping towards and emptying directly into a gully, or in the unsewered area, a cesspool situated immediately outside the stable, cattle-shed or cow-house and the contents whereof shall be removable to a Municipal sewer, either by hand or by flow after filtration.

3. In the unsewered area such cess-pool shall be constructed of bricks set in cement and cement-plastered, or, with the approval of the Chairman, some other suitable impervious material and so constructed as not to admit of rain water.

4. Every stable, cattle-shed and cow-house shall be properly lighted and ventilated; an open space of not less than one foot in width below the junction of the eaves and the wall of the building shall be kept open on all sides for light and ventilation in addition to such other openings as may be required by the Chairman.

5. Every stable, cattle-shed and cow-house shall be provided by the owner with an adequate supply of filtered water for the cattle to drink and for washing utensils used for milk; an adequate supply of unfiltered water shall also be provided by the owner for flushing purposes, except in the case of cow-houses referred to in section 254 (1) of the Act.

6. No well shall be allowed on the premises occupied by a stable, cattle-shed or cow-house.

7. The owner of every stable, cattle-shed or cow-house shall provide in connection with the same a suitable receptacle protected from the rain, for dung, manure, soil, filth or other offensive or noxious matter which may from time to time be produced in such premises. He shall cause such receptacle to be constructed so that the bottom or floor thereof shall not in any case be lower than the surface of the ground adjoining such receptacle. He shall also cause such receptacle to be constructed in such a manner and of such materials and to be maintained at all times in such a condition as to prevent any escape of the contents thereof or any soakage therefrom into the ground or into the wall of any building. He shall, once at least every day, remove or cause to be removed all dung, manure, soil, filth or other offensive or noxious matter produced in or upon such stable, cattle-shed or cow-house and deposit it in such receptacle.

8. No person shall keep any horse or cattle or deposit the dung of any horse or cattle in such a situation or in such a manner as to pollute any water supplied for use, or used, or likely to be used by man for drinking or domestic purposes or for manufacturing ice or drinks for the use of man, or any water used or likely to be used in any dairy.

9. In case of the erection or material alteration of a stable, cattle-shed or cow-house, or in case of the removal of the roof, the total area covered by the whole of such stable, cattle-shed or cow-house shall not exceed two-thirds of the total area of the site. The remaining one-third of the site shall be kept open to the sky, and shall be paved throughout with impermeable material to be approved by the Chairman and shall be provided with a drain, such drain being constructed of brick masonry or concrete plastered with Portland cement or of natural or artificial stone or of glazed half round pipes, and being connected with a Municipal sewer through trapped inlets in the manner prescribed by the Act.

10. If on any site more than one range of stables, cattle-sheds or cow-houses be constructed, or materially altered, or if the roof of any such stables, cattle-sheds or cow-houses be removed, such stables, cattle-sheds or cow-houses shall be disposed so as to form three sides of a parallelogram, the fourth side being left open and the interior of the parallelogram being occupied by an open court-yard.

11. On every cow-house premises for keeping milch-cows or buffaloes, a separate shed or place shall be provided for the temporary storage of milk and the keeping of milk vessels, and no such shed or place shall communicate with a cow-house.

12. The Chairman, if he considers it necessary, may by written notice require the owner of any stable, cattle-shed or cow-house, abutting upon or within fifty feet of any open drain or footpath, to construct and maintain a crossing over such drain or footpath of such description and of such materials and of such dimensions as the Chairman may direct, and

any person who fails to comply with such notice shall be liable to a fine which may extend to Rs. 20, and in the case of a continuing breach shall be liable to a daily fine which may extend to Rs. 10 per diem for every day during which the breach continues after conviction.

13. Every person who shall offend against any of the foregoing bye-laws shall be liable for every such offence to a fine which may extend to Rs. 20, and, in the case of a continuing breach, to a fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Bye-laws under Section 559 (55) for the purpose of carrying out the provisions and intentions of Section 14 (2) of the Calcutta Municipal Act, 1899.

1. The Chairman may prescribe during what hours any Municipal square or garden shall be open to the public, and when any Municipal square or garden is not left open by day and by night, a notice or notices shall be affixed at one or more of the entrances to such Municipal square or garden, stating at what hour the same will be opened and at what hour it will be closed.

No person other than an officer or servant of the Corporation, or a person or servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a Municipal square or garden, shall on any day enter a Municipal square or garden before the time appointed for the opening thereof, or enter a Municipal square or garden or remain therein after the time appointed for the closing thereof.

2. No person shall enter or quit any Municipal square or garden otherwise than through some one of the gates, wickets, passages or openings appointed by the Corporation as the authorised means of entrance to or egress from the Municipal square or garden.

3. No person shall wilfully or improperly resume or displace any board, plate or tablet, or any support, fastening or fitting of any board, plate or tablet used or constructed or adapted to be used for the exhibition of any bye-law or notice and fixed or set up by the Corporation in any part of a Municipal square or garden, or in or upon any building or structure therein, or at or near to any one of the appointed means of entrance to or egress from a Municipal square or garden, or in or on any wall or fence enclosing a Municipal square or garden.

4. No person shall deface, injure or destroy any part of any wall or fence in or enclosing a Municipal square or garden, or any part of any building, barrier or railing, or of any fixed or moveable seat, or of any other structure or erection in a Municipal square or garden.

5. No person shall remove or displace any barrier, railing or post or any fixed or moveable seat, or any part of any building, structure or erection, or any monument, work of art, ornament, or decoration, or any implement, utensil, apparatus, appliance or article provided for use or used or adapted to be used in the laying out, planting, improvement or maintenance of any Municipal square or garden, or in the case of cultivation, or protection of any tree, sapling, shrub, underwood, fern, herb, or plant in a Municipal square or garden, or in a street or other public place.

6. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a public square or garden shall at any time ride, drive or bring or cause or suffer to be ridden, driven, or brought into a Municipal square or garden any beast of draught or burden.

7. No person shall drive or bring, or cause to be driven or brought into any Municipal square or garden, any bullock or cow, heifer, steer, calf, sheep, lamb, goat, hog, pig or sow, unless, in pursuance of an agreement with the Corporation, or otherwise in the exercise of any lawful right or privilege, such person shall be authorised to drive or bring any such animal or cause any such animal to be driven or brought into a Municipal square or garden for pasturage or any other lawful purpose.

8. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement, or maintenance of a Municipal square or garden, shall at any time drive or wheel, or cause or suffer to be driven or wheeled into a Municipal square or garden, any barrow, truck, tricycle, bicycle or any vehicle of any kind whatever other than a vehicle propelled by hand and used for the conveyance of infants.

9. No person other than an officer or servant of the Corporation, or a person acting in pursuance of their directions in that behalf, shall affix, or post any bill, placard or notice to or upon any wall or fence in or enclosing a Municipal square or garden, or to or upon any part of any building, barrier or railing, or of any fixed or moveable seat, or of any other structure or erection in a Municipal square or garden, or to or upon any tree in a Municipal square or garden, or in a street or other public place.

10. No person, other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a Municipal square or garden, or street or other public place shall at any time, in any part of a Municipal square or garden, or in any street or other public place, remove or disturb any part of the soil of any

flower-bed, or any soil under or about any tree, sapling, shrub, underwood, fern or plant, or any soil in course of preparation or cultivation as a flower-bed, or for the reception or growth of any tree, shrub, underwood, fern or plant.

11. No person other than an officer or servant of the Corporation, or a person or servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement or maintenance of a Municipal square or garden, shall at any time, in any part of a Municipal square or garden, walk or run over, or stand, sit or lie upon any part of any flower-bed, or any shrub, underwood, fern or plant, or any ground in course of preparation or cultivation as a flower-bed, or for the reception or growth of any shrub, underwood, fern or plant.

12. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation in or about any work in connection with the laying out, planting, improvement, or maintenance of a Municipal square or garden or a street, or other public place, shall at any time, in any part of a Municipal square or garden, or in a street or other public place, cut or displace any turf, or uproot or displace any tree, sapling, shrub, underwood, fern, or plant.

13. No person shall at any time, in any part of a Municipal square or garden, or in any street or other public place, pluck any bud, blossom, flower or leaf of any tree, sapling, shrub, underwood, fern, or plant.

14. No person shall soil or defile any part of any wall, or fence in or enclosing a Municipal square or garden, or any part of any building, barrier or railing, or any fixed or moveable seat, or of any monument, work of art, ornament or decoration, or of any other structure or erection in a Municipal square or garden, or throw or deposit any filth, rubbish or refuse, or cause or suffer any filth, rubbish, refuse to fall, or to be thrown, or deposit upon any part of a Municipal square or garden.

15. No person shall throw or discharge in a Municipal square or garden any stone or other missile to the damage or danger of any person.

16. No person shall climb any wall or fence in or enclosing a Municipal square or garden or any tree in a Municipal square or garden, or in any street or other public place or any barrier, railing, or post in or enclosing a Municipal square or garden.

17. No person shall bathe, wade or wash in any tank, pond or other ornamental water in a Municipal square or garden, or wash clothes in, foul or pollute any such water, or take, injure or destroy, or attempt to take, injure or destroy, or disturb any fish in any such water.

18. No person shall cause or suffer any dog belonging to him or in his charge to enter or remain in a Municipal square or garden.

19. No person shall play or take part in any game in or fly kites in any Municipal square or garden without the permission of the Chairman.

20. No person shall drink, or bring or cause or suffer to be brought any intoxicating liquor in a Municipal square or garden.

21. No person other than an officer or servant of the Corporation, or a person or a servant of a person employed by the Corporation, in or about any work in connection with the laying out, planting, improvement or maintenance of a public square or garden, shall, except as is hereinafter provided, erect any post, rail, fence, pole, tent, booth, stand, building or other structure in any part of a Municipal square or garden: provided that the foregoing prohibition shall not apply in any case whereupon an application to the Chairman for permission to erect any post, rail, fence, pole, tent, booth, stand, building or other structure in any part of a Municipal square or garden, upon such occasion and for such purpose as shall be specified in such application, the Chairman may grant, subject to compliance with such conditions as he may prescribe, permission to any person to erect such post, rail, fence, pole, tent, booth, stand, building or other structure.

22. No person shall in any part of a Municipal square or garden beat, shake, sweep, brush or cleanse any carpet, drugget, rug, mat or any other fabric retaining dust or dirt.

23. No person shall in any part of a Municipal square or garden hang, spread or deposit any linen or other fabric for the purpose of drying or bleaching.

24. No person shall deliver any public address in any part of a Municipal square or garden without the sanction of the Chairman.

25. No person shall, in any part of a Municipal square or garden, sell or offer, or expose for sale, or let to hire, or offer or expose for letting to hire any commodity or article unless, in pursuance of an agreement with the Corporation, or otherwise in the exercise of any lawful right or privilege, such person may be duly authorised to sell, or let to hire in a Municipal square or garden such commodity or article.

26. No person shall in any part of a Municipal square or garden wilfully obstruct, disturb, interrupt or annoy any other person in the proper use of a public square or garden, or wilfully obstruct, disturb or interrupt any officer or servant of the Corporation in the proper execution of his duty, or any person or servant of any person employed by the Corporation in the proper execution of any work in connection with the laying out, planting, improvement, or maintenance of a Municipal square or garden.

27. No person shall commit a nuisance in a Municipal square or garden.

28. Every person who shall commit a breach of any of the foregoing bye-laws shall be punishable with fine which may extend to Rs. 20, and, in the case of a continuing breach, with fine which may extend to Rs. 10 for every day during which the breach continues after conviction for the first breach.

Wanted Population.

A LARGE area of culturable land is lying uncultivated in Bhilsa and Esagarh districts of the Gwalior State for want of sufficient population; most of the land is black *mar*, which is without irrigation, fit for wheat growing in years of ordinary rainfall; in some districts the land is either *padua*, *dumat* or *rankad*; but it is fit for growing wheat by means of irrigation.

The cultivators who come to settle from outside and cultivate the land will be given the following concessions:—

(1) That the cultivator who cultivates 100 bighas of land will be given occupancy right in the land, and he will have to pay rent one anna less in the rupee than the rent ordinarily paid by other tenants.

(2) That the cultivators who cultivate more than 100 bighas of land will be given zamindari *hug* in the land, i.e., he will have to pay rent according to the settlement rates which will be fixed at the time of the settlement.

(3) That the cultivator who populates a village and cultivates 1,000 bighas of land will be given zamindari *hug* in the village, and that a well for drinking purposes in the village will be sunk, if necessary, by the Durbar at its own cost.

(4) That any cultivator who desires to populate one or more depopulated villages may apply for special concessions which will be granted by the Durbar.

(5) That the cultivator who takes *patta* of the land is bound to bring ¼ of the land under cultivation within the first three years; ½ within the six years; and the whole of it, excepting the land under houses and that reserved for grazing, within ten years from the date of the *patta*.

(6) That the cultivator shall be charged nothing for the land which he brings under cultivation for the first six years; that one-half rent will be charged for the next three years; and that full rent will be charged thereafter.

(7) That the cultivator will be charged nothing for timber which he takes from the forest for building houses and making implements for cultivation; that the new settlers will be charged no *sayar* taxes on timber for six years; after that ½ anna *sayar* tax per cart of timber will be charged.

(8) For any further particulars application may be made to the Subha of the districts of Bhilsa and Esagarh or to the Secretary, Board of Revenue.

D. H. KUNTE, Secretary, Board of Revenue.

Hiro sima approach—Beacon constructing and provisional light at Nishinogoban sho.

THE British Admiralty has given notice (No. 597 of 1903) that a beacon from which it is intended to exhibit a light is now in course of construction on a 2¾ fathoms patch, named Nishinogoban sho, situated about 14 cables S. 45° W from the south-western point of Kurahasi sima, in the approach to Hiro sima.

Approximate position, lat 34° 4′ N., long. 132° 26½′ E.

During the construction of the beacon a provisional *red fixed* light, elevated 15 feet above high water, will be exhibited on a pole near the base of the projected beacon. This light will be unwatched and therefore unreliable.

(*Variation 4° Westerly in 1903.*)

Further Notice will be given when the beacon is completed and the light established.

NEW ZEALAND—NORTH ISLAND.

Port Nicholson entrance—Falcon shoals in fairway.

THE British Admiralty has given notice (No. 601 of 1903) of the existence of the undermentioned shoal heads in the fairway into port Nicholson, now named Falcon shoals, and of a shoal in Lyall bay:—

(1) A shoal, with a depth of 24 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 30° E., distant 9 cables, and the outer extremity of the rocks off Kau point N. 65° W.

(2) A shoal, with a depth of 24 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 34° E., distant 10¾ cables, and the outer extremity of the rocks off Kau point N. 59° W. This shoal is within the sector of white light shown from Somes island light.

(3) A shoal, with a depth of 23 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 39° E., distant 11¾ cables, and the outer extremity of the rocks off Kau point N. 54° W.

(4) A shoal, with a depth of 26 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 44° E., distant 14½ cables, and the outer extremity of the rocks off Kau point N. 40° W.

(5) A shoal, with a depth of 27 feet over it at low water, situated with the northern extremity of Ward island bearing N. 17° E, distant 11½ cables, and the outer extremity of the rocks off Kau point N. 58° W.

(6) A shoal, with a depth of 18 feet over it at low water, situated with the northern extremity of Ward island, bearing N. 2° E, distant 11½ cables, and the outer extremity of the rocks off Kau point N. 61° W.

(7) Hope shoal, 5 cables S. 41° W., from the northern extremity of Ward island, has a depth of 5 feet, at low-water springs, and not 10 feet, as shown on the Chart.

(8) There are several patches of from 7 to 10 feet between Hope shoal and Ward island.

(9) The depths in the passage eastward of Ward island between it and Robinson bay have decreased to 10 feet in places.

Lyall bay:—

A shoal, with a depth of 16 feet over it at low water, exists in Lyall bay, 4½ miles south-westward of Ward island, situated with the signal station bearing N. 46° E, distant 17 cables, and mount Albert N. 49° W. Foul ground, with depths of from 21 to 27 feet over it, extends for a distance of 1½ cables S.S.E. from this shoal.

Approximate position, northern extremity of Ward island, lat. 41° 17½′ S., long. 174° 52½′ E.

NEW ZEALAND—North Island, West coast.

Kawhia harbour—Leading beacons and lights.

The British Admiralty has given notice (No. 611 of 1903) that a beacon, 35 feet high, has been erected on the south-western extremity of Te Motu, and another, 26 feet high, on the rising ground 1¾ miles S. 62° E. from it. These beacons in line S. 62° E. lead over the bar in a depth of 12 feet at low-water ordinary springs.

On and after 1st July 1903, when vessels are expected or leaving the harbour, a *white fixed* lantern light, elevated 13 feet above high water, will be exhibited from the front beacon, and a *white fixed* lantern light, elevated 60 above high water, from the rear beacon. These lights should be visible 2 miles outside the bar.

The former beacon on Te Motu and that on the rock off South head have been removed.

Approximate position, lat. 38° 4¼′ S., long. 174° 49′ E.

Caution.—The Kawhia harbour bar is subject to change, so that, although these leading marks are available now, it is possible that they may not be so hereafter.

MARINE DEPARTMENT.

Dated Calcutta, the 22nd August 1903.

RESOLUTION.

READ—

Letter No. 6314B., dated 20th July 1903, from the Board of Revenue, Lower Provinces, submitting the report on the working of the Shipping Offices at Calcutta Chittagong and the Orissa Ports during the year 1902-1903.

THE receipts of the Shipping Office, Calcutta, amounted, during the year under review, to Rs. 71,668, showing an increase of Rs. 2,602 over those of the previous year. This is due mainly to an increase in the income derived from the shipping and discharging fees. There was a decrease of Rs. 868 in the sale of discharge certificates, as fewer certificates were issued during the year, the majority of Indian seamen having previously provided themselves with them.

The new Branch Shipping Office at Kidderpore will, it is hoped, be completed during the current year.

2. The expenditure aggregated Rs. 27,339, which is slightly more than in the previous year.

3. The Trust Funds showed an increase of Rs. 36,316 in the receipts during the year, the large portion of this increase being due to the Shipping Master insisting, before sanctioning the discharge of European seamen, on deposits being made by them to prevent their becoming a source of expense to the State. A sum of Rs. 1,171 lapsed to the State, and the undisbursed balance at the close of the year amounted to Rs. 12,643.

4. The number of seamen shipped and discharged were—

Shipped	...	...	36,724
Discharged	..	...	32,584

There was an increase of 134 in the number of seamen shipped under European Articles, while there was a decrease of 792 in the number shipped under Indian Articles. The numbers vary according to the requirements of the trade; 121 Eurasians were shipped and 273 discharged, against 134 and 281 in the previous year. A larger number and a better class of men are offering themselves as ordinary seamen, but it is difficult to find them suitable employment, as the demand is for able-bodied seamen.

Besides the above, 42 seamen were shipped and 59 discharged by Foreign Consuls.

5. The value of the money-orders sent by European seamen, which fell from Rs. 16,634 in 1900-1901 to Rs. 7,622 in 1901-1902, rose again to Rs. 16,154 during the year under review.

6. Forty-six men were sent home as distressed seamen, against 18 in the year before.

7. At the request of the Vice-Consul for Spain, the Shipping Master sanctioned the discharge of a Spanish lad from the S.S. *Battersea Bridge* on the ground of ill-treatment on board. The Consul took charge of the lad, but found him incorrigible, and the Shipping Master had to ship him again.

In his last report the Shipping Master expressed the opinion that Indian crews would gradually displace their European rivals. The present report, however, shows slightly in favour of the Europeans. The Shipping Master states that this is in some measure due to the fact that he required the payment of the passage of the European crew back to the United Kingdom before consenting to their discharge in India.

8. At the port of Chittagong the number of seamen shipped and discharged were 32 and 366, against 161 and 539 during 1901-1902, and 45 and 43, respectively, in the year 1900-1901.

Chittagong.

The receipts amounted to Rs. 690 against Rs. 1,314 in the previous year, the decrease being due partly to the smaller number of men engaged and discharged during the year and partly to a reduction in the receipts credited as overtime fees.

The disbursements represent three-fourths of the overtime fees paid to the Shipping Officers. Out of the fees thus earned, viz., Rs. 160, only a sum of Rs. 12 was paid in September 1902. The disposal of the balance has been postponed pending settlement of the general question of the distribution of these fees in accordance with the recent orders of the Government of India on the subject.

9. The receipts from Trust Funds, consisting of deposits on account of the balance of wages of seamen discharged, amounted to Rs. 25,130: the whole of this was disbursed.

10. At the Orissa Ports no seaman was discharged during the year, while one British seaman was shipped at False Point. The Shipping Master inspected nine vessels at False Point, but received no complaints nor discovered any defects.

Orissa Ports.

One lascar died at False Point: the balance of his wages was forwarded to the Shipping Master, Calcutta.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Offg. Secy. to the Govt. of Bengal.

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN THE LOWER PROVINCES, BENGAL, DURING THE YEAR 1902-1903.

The 25th August 1903.—The following extracts from the Report of the Commissioner of Excise and Salt, Bengal, on the Administration of the Excise Department in the Lower Provinces of Bengal during the year 1902-1903 as well as the letter from the Board of Revenue reviewing the report are published for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 6807½B., dated Calcutta, the 1st August 1903.

From—H. WHEELER, Esq., Secretary to the Board of Revenue, L. P.,
To—The Secretary to the Government of Bengal, Financial Department.

I AM directed by the Board of Revenue to submit the report received from the Commissioner of Excise, Bengal, upon the administration of the Excise Department during the year 1902-1903. The review for the most part deals completely with the different features of interest during the year, and the comments which the Board have to make are few.

Member in charge:
THE HON'BLE MR. C. E. BUCKLAND, C.I.E.

2. *Paragraph 17 of the Report.*—It appears that the large increase said to have been gained at the new triennial settlements in Calcutta, as reported in the preceding year, was subsequently discounted to some extent by the surrender and cancellation of licenses. There still, however, remained a substantial balance to the good. The increase of revenue obtained at the new settlements for 1903-1904 in Manbhum, would appear to have been quite abnormal, and the Board will make further enquiry as to the reason. The information so far furnished is somewhat general in form, namely, that the fees ruled higher, more especially in the case of outstills.

3. *Paragraphs 24—26 of the Report.*—The consumption of distillery liquor in Burdwan remained practically stationary; in Bankura, Midnapore and Hooghly, there was some increase recorded. In Bankura and Midnapore, the detective establishments seem to have been more active, though the same can scarcely be said of Hooghly, where a recent inspection by the Commissioner of Excise has demonstrated the need for closer supervision. In Burdwan the Raina thana still maintained a discreditable notoriety for the prevalence of the offence of illicit distillation, and the measures so far adopted seem to have had little result. The Board will enquire what further action can be taken, and will suggest to the Excise Commissioner that the co-operation of the local *zamindars* should be sought, or, in default, that their responsibilities under the law should be enforced. It is observed that in the district of Ranchi (*paragraph 54 of the Report*) useful assistance was thus derived from a proprietor of certain villages concerned in this illicit traffic.

Paragraphs 31 and 32 of the Report.—It is noted that the patrol establishments in Jalpaiguri for the prevention of the smuggling of liquor from Bhutan and Kuch Bihar are alleged to have effected good results. It is true that the revenue from license fees showed an improvement, but the consumption was practically stationary, while the number of prosecutions instituted for the illegal possession of foreign exciseable articles actually declined. The same also was the case in Darjeeling, though both consumption and revenue there showed a substantial advance. It is observed that in the district of Jalpaiguri the incidence of taxation per proof gallon of country liquor is the third highest in the Province. The Excise Commissioner will be asked to consider whether, under the circumstances, this is not excessive.

Paragraphs 45 and 46 of the Report.—The Board have already separately given their opinion that the success so far achieved in the Sonthal Parganas by the measures taken to check illicit distillation by improved facilities for the supply of licit liquor, is decidedly hopeful.

4. *Paragraphs 57—62 of the Report.*—The figures regarding the consumption of country rum continue to be somewhat difficult to understand, but there was some recovery in the revenue. The closure of the Albion Distillery (Howrah), preceded by the failure of that at Sakri (Darbhanga), does not seem to indicate a successful prospect for the trade, at any rate in Bengal.

5. *Paragraph 65 of the Report.*—It is noticeable that the districts of Burdwan, Khulna, Backergunge and Tippera, all show an increase in the license fees for imported liquor shops. It was observed in the preceding year that the taste for such brands appeared to be spreading in Eastern Bengal.

6. *Paragraphs 83 and 84 of the Report.*—The figures are interesting as illustrating the violent fluctuations in the area under *ganja* with its attendant produce and resultant prices. As the result of the bumper crop of 1901-1902, prices ruled much lower. The effect of the orders of the Government of India, restricting the cultivation to a maximum of 976 acres, has yet to be seen.

7. *Paragraph 99 of the Report.*—The Board will address the Commissioner of the Chota Nagpur Division regarding the introduction of the Kuch Bihar system of *ganja*-supply into the Tributary States of that Division.

8. *Paragraphs 115 and 116 of the Report.*—The results which have followed in the district of Chittagong from the abolition of the system of restricted sales of opium to individual shops, will form the subject of special enquiry by the Commissioner of Excise. The decline under the head of license fees was very marked, and the detective establishments seem unable to check the smuggling of the drug to Burma.

9. *Paragraph 122 of the Report.*—The Board are somewhat apprehensive regarding the large increase in the issue of licenses for the sale of cocaine. They note that the matter has the attention of the Commissioner of Excise, but the restriction of the abuse of cocaine cannot be satisfactorily enforced until the Excise Law is amended.

10. *Paragraphs 125 and 127 of the Report.*—The Board agree with the Commissioner of Excise that the detective work of Excise officers leaves much room for improvement, which can only be ensured by closer supervision being exercised by Collectors and Excise Deputy Collectors Mr. Badshah is giving special attention to the point in the course of his own district inspections.

There would seem to have been some want of discretion in the institution of numerous prosecutions in respect of the unlicensed manufacture and possession of *pachwai* in Dinajpur. The Excise Commissioner has recently brought it to the notice of the Board that the excise administration in this district has not been altogether satisfactory.

11. *Paragraphs 143 and 144 of the Report.*—The attention of the Commissioners of the Rajshahi and Chittagong Divisions and of the Collectors of the districts marginally noted, will be drawn to the omission in respect of the inspection of their subordinate Excise offices.

SECTION III.—RECEIPTS AND EXPENDITURE.

* * * * *

Total revenue and charges.

10. The excise revenue and charges of the province for the last five years are shown below :—

PERIOD.	Revenue.	Charges.	Net revenue.	Percentage of charges.
	Rs.	Rs.	Rs.	
1898-99	1,34,27,290	6,74,503	1,27,52,787	5·02

Difference of the past two years ...	+ 7,62,412	+ 96,788	+ 6,65,624	+ ·4

* Revised figures.

The net revenue shows an increase of Rs. 6,65,624, or 4·6 per cent., over that of the previous year, and is the largest on record.

* * * * *

Excise charges.

14. The charges show an increase of Rs. 96,788. The increase of Rs. 75,223 under the head "Establishments" is due to the entertainment of new officers and their peons under the orders of the Secretary of State sanctioning the reinforcement and re-organisation of the Excise Preventive establishments in Bengal. The increase of Rs. 18,385 under the head "Travelling allowance" is attributed partly to increased establishments and partly to greater activity on the part of the inspecting and detective staff. The increase of Rs. 3,101 under the head "Supplies and Services" is partly due to the charges on account of uniforms supplied to jamadars and peons appointed recently and partly to the increased payments of rewards in consequence of the detection of important cases. The small increase of Rs. 79 under the head "Contingencies" is due to ordinary fluctuations. In Calcutta the entire cost of the establishment, whether employed in the Land Revenue, Stamps, or other departments, including the pay of the Superintendent of Excise Revenue and the Deputy Collector of Calcutta is charged to "Excise" under special orders.

SECTION IV.—DEMAND AND COLLECTION OF REVENUE.

Revenue under different heads.

15. The total revenue under the different heads of exciseable articles was Rs. 1,57,87,729 as against Rs. 1,50,25,317, in the previous year; showing an increase of Rs. 7,62,412, or 4·8 per cent. The increase was common to all but three districts. The largest increase (Rs. 1,82,305) took place in Calcutta. The increase was also considerable in Hazaribagh (Rs. 42,523), Sonthal Parganas (Rs. 36,927), Purnea (Rs. 35,888), Champaran (Rs. 33,957), Muzaffarpur (Rs. 32,283), and Ranchi (Rs. 30,089). On the other hand, the decrease was heavy in Gaya (Rs. 13,428). There was an increase under every head except miscellaneous, methylated spirit and beer. The largest increase occurred as in the previous year under the head "Country spirits," being Rs. 4,36,860. Ganja comes next with an increase of Rs. 1,74,466, followed by imported wines, pachwai, and opium which yielded an increase of Rs. 36,651, Rs 35,457 and Rs. 31,876 respectively. The largest decrease (Rs. 2,820) occurred under the head "Miscellaneous." The fluctuations in the revenue under the several heads of exciseable articles are discussed in the sections devoted to them.

* * * * *

SECTION V.—COUNTRY SPIRIT.

* * * * *

Licenses.

21. The number of outstills settled was 2,134, as against 2,128 in the previous year, showing an increase of six licenses. There was an increase of 10 in eight districts, and a decrease of four in as many districts. The number of licenses issued for the sale of distillery liquor was 1,237, as against 1,221 in the previous year, showing an increase of 16 licenses. There was an increase of 18 licenses in seven districts, and a decrease of two in as many districts.

Consumption of distillery liquor.

22. The consumption of distillery liquor in L. P. gallons rose from 610,354 to 652,009; there was thus an increase of 41,655 gallons. Of the 31 districts in which the distillery system is in force, there was an increase of 46,706 gallons in 20, and a decrease of 5,051 gallons in the remaining 11. The most noticeable increase took place in the Sonthal Parganas (12,590 gallons), Calcutta (10,862 gallons), Patna (10,507 gallons), Gaya (3,591 gallons), Hooghly (1,749 gallons), Puri (1,543 gallons), the 24-Parganas (1,357 gallons), Hazaribagh (1,088 gallons) and Howrah (1,040 gallons). The decrease was heavy in Monghyr (1,401 gallons) and Shahabad (1,278 gallons).

Revenue from outstill and distillery liquor.

23. The receipts from outstills rose from Rs. 35,68,589 to Rs. 37,26,567, showing an increase of Rs. 1,57,978. The increase was large in Hazaribagh (Rs. 33,250), Ranchi (Rs. 24,722), Purnea (Rs. 21,206), Muzaffarpur (Rs. 15,751), Manbhum (Rs. 10,674), Champaran (Rs. 10,576), and Darjeeling (Rs. 19,015). On the other hand, there was a heavy decline in Patna (Rs. 25,254) and Gaya (Rs. 22,023). Of the 30 districts in which the outstill system is in force, there was an increase of Rs. 2,07,924 in 26 districts, and a decrease of Rs. 49,946 in the remaining four. The revenue from distillery liquor increased from Rs. 34,53,138 to Rs. 37,32,020, showing an increase of Rs. 2,78,882. The increase is marked in Calcutta (Rs. 1,61,219), Patna (Rs. 45,614), the Sonthal Parganas (Rs. 21,261), Hooghly (Rs. 11,033) and the 24-Parganas (Rs. 10,577). Of the 31 districts in which the distillery system is in force, there was an increase of Rs. 2,87,469 in 21, and a decrease of Rs. 8,587 in the remaining ten. The total receipts from outstill and distillery liquor amounted to Rs. 74,58,587 as against Rs. 70,21,727 in the previous year, showing an increase of Rs. 4,36,860.

* * * * *

SECTION VI.—COUNTRY RUM.

Licenses.

57. Eleven licenses for the retail sale of rum only were taken out, of which ten were issued in Calcutta and one in Darjeeling, as in previous years. Rum is also sold under licenses for the sale of distillery spirit and imported liquors.

License fees.

58. The receipts from license fees amounted to Rs. 24,737 against Rs. 26,160 in the previous year, showing a decrease of Rs. 1,423. The decrease in Calcutta was Rs. 1,263 and was due to one of the shops having remained unsettled for a part of the year. The decrease of Rs. 160 in Darjeeling was due to the settlement of the shop at reduced fees in the absence of competition.

Source of supply.

59. Rum was supplied from the Albion Distillery at Sibpur in the district of Howrah, from the Rosa Distillery in the district of Shahjahanpur in the United Provinces, and from several distilleries in the Madras Presidency. The Albion Distillery at Sibpur has not been a paying concern for some time past, owing as it is reported to the large importation of country rum from Shahjahanpur and Madras, which is placed in the market at rates lower than those charged for the Albion rum. The proprietors, Messrs Abmuty and Co., are therefore winding up their business, and the distillery will be closed as soon as the liquor in stock is cleared.

SECTION VII.—IMPORTED LIQUOR.

General.

63. The following statement shows the total number of licenses, and the revenue derived from them, during the last three years:—

Year.	Wholesale	Retail.						Total wholesale and retail licenses	Revenue.
		Hotel.	Railway Refreshment Room.	Dining Car.	Steamer.	General	Dák Bungalow.		
									Rs.
1900-1901 ...	119	75	33	4	39	348	28	646	3,30,146
1901-1902 ...	119	75	36	4	30	353	30	646	3,37,434
1902-1903 ...	119	76	36	4	26	360	25	645	3,74,075

* * * * *

SECTION XII.—GANJA.

* * * * *

Statistics.

83. Statistics of the cultivation of ganja for the last five years are given below:—

Year.	Number of licenses issued.	Quantity of land estimated to have been cultivated.	Produce.	Average produce per bigha.
		B. c.	Mds s.	Mds. s. ch.
1898-99 ...	1,023	1,530 11	5,417 13	3 21 9
1899-1900 ...	1,603	2,733 0	7 551 23	2 30 8
1900-1901 ...	2,621	5,164 18	7,824 12	1 20 9
1901-1902 ...	2,413	4,416 12	11,324 32	2 22 9
1902-1903 ...	1,594	2,354 5	5,040 20	2 5 10

As there was a very large outturn in the preceding year, cultivation was restricted to a limited area, which was calculated to produce the estimated quantity of ganja required. The Supreme Government has been in favour of restricting cultivation, and orders were received during the year that only a limited area, not exceeding 976 acres, should be placed under ganja cultivation each season, and that this limit should not be exceeded without the previous sanction of the Government of India. The average outturn shows a decrease which is attributed to the ravages of insects before the crop was cut.

* * * * *

Total revenue.

93. The total receipts amounted to Rs. 32,62,120, as against Rs. 30,87,654 in the year 1901-1902, the net increase being Rs. 1,74,466. The increase was most marked in the districts of Calcutta (Rs. 26,441), Champaran (Rs. 22,228), Monghyr (Rs. 15,346), Muzaffarpur (Rs. 12,004), Purnea (Rs. 8,825), and Sonthal Parganas (Rs. 8,022). The increase in all these districts is both in license fees and duty, and in the district of Champaran it is mainly in duty.

* * * * *

SECTION XVI.—OPIUM.

Licenses for retail sale.

112. The total number of licenses issued for the retail vend of opium was 1,697 as against 1,651 in the previous year, showing an increase of 46. There was an increase of 51 shops in 16 districts, due to the opening of new shops in order to meet ascertained local demands and to check illicit practices, while there was a decrease of 5 shops in 3 districts in consequence of the closure of shops which appeared unnecessary. In the opium-producing districts of Gaya, Champaran, Muzaffarpur, Darbhanga, and Monghyr, 54 additional shops were opened for nominal fees in order to bring the licit drug within the easy reach of the consumers. In Bhagalpur two new shops were opened so as to check the smuggling of opium from Nepal.

Druggists' permits.

113. The number of permits issued was 2,060 against 2,058 in the previous year. The increase is most marked in Nadia (40), Rangpur (24), the 24-Parganas (18), Monghyr (18), and Birbhum (16). The increase in Rangpur is attributed to steps being taken in time for the settlement of these licenses. In Monghyr the increase was due to the activity displayed by the Excise staff in enforcing the rules. There was a large decrease in Khulna (49), Noakhali (30), Mymensing (28), Jessore (22), Dinajpur (18), and Midnapore (15). The decrease in each case is attributed to the fact that several medical practitioners refused to renew their licenses on the ground that they did not use raw opium

for medicinal purposes. Under the rules, only medical practitioners are exempted from taking out permits for the sale of medicinal preparations containing opium imported from Europe. But, in practice, druggists are allowed to sell these preparations without a license except in the districts of Dacca and Jessore. The question of amending the rule is now under the consideration of the Board.

* * * * *

Consumption and duty.

116. The quantity of opium sold increased from 2321 maunds, 17 seers, 9 chitaks to 2,351 maunds, 20 seers, 15 chitaks and the receipts from duty from Rs. 19,11,280 to Rs. 19,30,050, showing an increase of 30 maunds, 3 seers, 6 chitaks in the quantity sold, and of Rs. 18,770 in duty. The largest increase (52 maunds, 26 seers), took place in Chittagong, and was due to the abolition of the restrictive system. The Collector of Chittagong, Mr. Geake, writes as follows:—

"It is evident that most of the opium shewn as consumed found its way somehow or other to Burma. The Excise Preventive Staff of the district was increased by the addition of two Deputy Inspectors, 20 peons and 4 jamadars. One Deputy Inspector, 18 peons, and 4 jamadars were posted to Cox's Bazar and chiefly employed for detection and preventive work. There has been an increase of 52 maunds, 26 seers in the sale of opium over last year. Previous to the abolition of the restrictive issue of opium to shops, opium used to be transported from Backergunge, French Chandernagore and Calcutta by smugglers here for sale to Arracanese. Now owing to the abolition of the restrictive system smugglers get free supply from our licensed vendors who readily share in the smuggling business.

In Cuttack there was an increase of 16 maunds, 19 seers which is attributed to the fact that, in consequence of the introduction of a few new vendors, there was an unhealthy competition during the first half of the year The increase of 6 maunds, 32 seers in Patna was due to the abolition of the restrictive system. In Malda the rise in consumption amounting to 6 maunds, 7 seers is attributed to brisk competition and the consequent lowering of the retail price. The increase in Manbhum (5 maunds, 13 seers) was due to the increased supply of opium taken by the Tributary States, and to increased consumption within the district in consequence of the increase in the number of labourers in the coal mines. The decrease was heavy in Calcutta (83 maunds, 4 seers) which is attributed to the withdrawal of the restrictive system in Chittagong. The Superintendent of Excise Revenue, Calcutta, reports that it is well known that a considerable portion of the opium annually issued from the treasury represented the quantity smuggled to Arracan and other places and that the decrease was due to the fact that the smugglers had shifted their business to Chittagong. There is also a growing suspicion that cocaine is to a certain extent displacing opium in Calcutta. In Balasore there was a decrease of 9 maunds, 8 seers, which was due partly to the fact that some retail vendors raised the selling price of opium owing to an increase in license fees and partly to insufficient crops in parts of the district. Of the 47 districts, there was an increase of 129 maunds, 4 seers, 6 chitaks in 38 districts and a decrease of 99 maunds, 1 seer, in 8 districts. In Noakhali the consumption was stationary.

Total receipts.

117. The total receipts amounted to Rs 26,52,154, as against Rs 26,20,278 in the previous year, showing an increase of Rs. 31,876. Of this increase a sum of Rs 13,106 was contributed by license fees and Rs. 18,770 by duty.

Jessore.—Rainfall at Sadar 1·05, Jhenida 2·68, Magura 0·26, Narail 0·52, Bangaon 0·24. Weather cloudy. Prospect of *aman* paddy greatly improved by recent rains. Its transplantation still going on. More rain wanted, especially for the Sadar and Bangaon subdivisions. Harvesting of *aus* going on. No cattle-disease reported. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	13	0 (New *aus*)	per rupee.
Jhenida	12	0	
Magura	12	0	
Narail	12	5	
Bangaon	12	5	

Khulna.—Rainfall at Sadar 1·00, Bagerhat 3·27, Satkhira 0·84. Weather seasonable, but more rain is still urgently wanted, specially in the Satkhira subdivision. Transplantation of winter rice is still estimated at 65 per cent. Paddy plants are withering in some places for insufficient rainfall, but prospects generally somewhat improved by recent rains. *Til* sowing estimated at 80 per cent. Cattle-disease reported from Khulna, Dumuria, Kaligunge, and Budhatta. Fodder and water sufficient. Common rice sells as follows:—

	Srs.	ch.	
Sadar	12	0	per rupee.
Bagerhat	12	0	
Satkhira	10	8	

Rajshahi.—Rainfall at Sadar 0·38, Nator 0·65, Naugaon 0·51. Prospects of *aus* paddy better. Harvesting and steeping of jute continue. Transplantation of winter rice in progress. More rain wanted badly. Condition of cattle good. Fodder and water sufficient. Common rice selling on an average at 13 seers per rupee.

Dinajpur.—Rainfall at Sadar 2·61. Fall in the district general, varying from 3·60 to ·40. Weather seasonable. Standing crops fair. More rain badly wanted. Steeping of jute and transplantation of winter rice going on. No cattle-disease. Fodder and water plentiful. Common rice sells at 13 seers per rupee.

Malda.—Rainfall at Sadar ·79, Chanchal ·62, Gazole ·62, Shibganj 1·10. Fall general. Weather hot and cloudy. *Bhadoi* is ripening and is being cut in places. Transplantation of winter rice in progress, but more rain is urgently wanted. Fodder and water sufficient. Cattle-pox reported from Khorba thana. Common rice sells at 12 seers per rupee.

Santhal Parganas.—Rainfall at Sadar 2·70, Deoghar 3·93, Godda 0·60, Jamtara 3·80, Pakaur 0·85, Rajmahal 0·79. Weather hot. Transplantation of winter rice going on in all the subdivisions except at Rajmahal, where it has almost stopped for insufficient rain. Prospects of *bhadoi* good. New Indian-corn in the market. More rain generally needed for standing crops and for high land transplantation. Fodder and water sufficient. Rice sells at 11 seers per rupee at Dumka.

Cuttack.—Rainfall at Sadar 2·32. Fall general. *Beali* getting maturity and at places in ears. Weeding and transplantation of *sarad* still in progress. Prospect good. Fodder and water sufficient. Common rice sells at 14 seers 7 chitaks per rupee at Cuttack.

Balasore.—Rainfall at Sadar ·83. Fall general except in a small tract in the north. *Beali* in ears and at places ripening. Transplanting and weeding of *sarad* continues. Miscellaneous crops thriving. No cattle-disease. Fodder and water sufficient. Rice sells at 14 seers per rupee both at Sadar and Bhadrak.

Angul.—Rainfall at Sadar 3·32, Bisipara 1·14. Weather seasonable. Weeding of paddy and harvesting of millets in progress. Cultivation for *birhi* and *rasi* commenced. Common rice sells at 14 and 13½ seers per rupee at Sadar and Khondmals respectively.

Puri.—Rainfall 0·64 inches. Weather rainy, cloudy, and hot. Puddling, transplanting, and weeding of winter-rice paddy continues. Miscellaneous crops doing well. Sugarcane leaves are being tied up. *Beali* is maturing. Fodder and water-supply sufficient. Common rice sells at 15 seers per rupee.

Hazaribagh.—Rainfall at Sadar 0·82, Giridih 2·35. Weather hot. There was some rain in almost all parts of the district during the week, although not sufficient for transplantation of paddy, which is being retarded. *Bhadoi* crops promise well. Fodder and water sufficient. Common rice sells at 12 seers per rupee.

Ranchi.—Rainfall at Sadar 1·13. Weather cloudy. State of standing crops fair. Harvesting of *gundli* in progress. Cattle-disease reported from five thanas. Fodder and water sufficient. Common rice sells at Sadar at 12½ seers and at Gumla 16 seers per rupee.

Palamau.—Rainfall at Sadar 0·56. Weather seasonable. Moderate rain fell all over the district except in Testeeganj and Ker outpost, where transplantation of winter rice has been stopped. It continues slowly elsewhere. Rain urgently wanted. No estimate of winter crops can be formed now. Recent rains improved prospects of *makai* and *marua*. A ten-anna *bhadoi* crop is expected. Fodder and water sufficient. Rice sells at Sadar at 11¼ seers, and maize at 16 seers 14 chitaks per rupee.

Manbhum.—Rainfall at Sadar 3·94, Gobindpur 1·21. Weather seasonable. Prospects of crops fair. Transplantation of paddy is still going. More rain wanted. Fodder and water sufficient. Cattle-disease not reported. Common rice sells at Sadar at 12 seers and at Gobindpur at 10 seers per rupee.

Singhbhum.—Rain 0·84. Very little rain during the week. *Bhadoi* rice must now be a very short grow, and without good rain *bera* rice will be a partial failure. Fodder sufficient. Rice sells at 12 seers per rupee.

General Summary.—Rain fell during the week in every district, but the fall was generally light and in some districts insufficient. The recent rain has further improved the prospects of the *bhadoi* crop in the districts of Patna, Gaya, Shahabad, Saran, Monghyr, Bhagalpur, Sonthal Parganas, Hazaribagh, and Palamau, but more rain is urgently needed for the winter rice crop. More rain is required almost everywhere except in East Bengal and Orissa. Harvesting of early rice and jute continues. Sugarcane doing well. Transplantation of winter rice going on, but somewhat retarded by insufficient rain. Prospects generally have improved. Some damage to crops has been caused by flood in Saran. Cattle-disease reported from ten districts. Fodder and water generally sufficient. The price of common rice has risen in 7 districts, has fallen in 12, and is stationary in the rest.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

[Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.]

o, overcast; g, gloomy; p, passing temporary showers; t, thunder; d, drizzling rain.

No. 2831—42.

Extract from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899.

RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

NOTIFICATION.

No. 338T.—P.—The 29th August 1903.—The following notification issued by the Hon'ble the Agent to the Governor-General in Baluchistan is republished for general information.

L. P. SHIRRES,
Secy. to the Govt. of Bengal.

No. 3881, dated Quetta, the 11th August 1903.

NOTIFICATION—By the Hon'ble the Agent to the Governor-General and Chief Commissioner in Baluchistan.

IN supersession of the Regulations published with Notification No. 1482, dated the 2nd April 1903, and in exercise of the powers conferred by Foreign Department Notification No. 809I.A., dated the 1st March 1897, and by Home Department Notification No. 302, dated the 4th February 1897, the Hon'ble the Agent to the Governor-General and Chief Commissioner in Baluchistan is pleased to make the following temporary regulations under section 2, clause (1), and under section 2, sub-section 2, clause (*b*) of the Epidemic Diseases Act, 1897:—

I. Unless otherwise notified, the following will be the places of inspection, and, if necessary, segregation, in Baluchistan, for the period noted against each:—

(1) Sibi—15th October to 14th April, or such dates as may be notified by executive order.

(2) Hirok—15th April to 14th October, or such dates as may be notified by executive order.

II. Passengers by rail from India, except such Government and Railway servants travelling on duty as are exempted, are forbidden to alight—

(1) (When the inspection camp is at Sibi) at any station between Jhatpat and Mithri, both inclusive.

(2) (When the Camp is at Hirok) at any station between Jhatpat and Mach, both inclusive.

NOTE.—Government and Railway servants, although travelling on duty, are not exempt from this restriction, unless they are in possession of certificates signed by a British Officer of their Department, that they have not visited a plague-infected place within the previous ten days.

III. No railway tickets shall be issued, without the written authority of the Political Agent, Thal Chotiali, or of the Plague Inspecting Medical Officer, from any of the stations between Jhatpat and Mithri, both inclusive, whether the Camp be at Sibi or at Hirok, except to Sibi and beyond on the Harnai line or on the Mushkaf-Bolan line.

NOTE.—Officials of the Sibi tehsil travelling on duty who hold a certificate to this effect from the Political Agent in Thal Chotiali are exempt from the provisions of this rule, as also the officials of His Highness the Khan of Kalat when covered by a certificate from the Political Agent in Kalat.

IV. All passengers from India having tickets for Sibi or other stations on the Harnai line or on the Mushkaf-Bolan line will be required to proceed to Sibi or Hirok, as the case may be, for medical inspection, before being allowed to proceed on their journey by railway or otherwise.

V. When the camp is at Hirok, passengers from Sibi and upwards must travel in the carriages to be attached to the train at Sibi for local traffic only. These passengers are free to alight at any station up to and including Mach.

VI. The Medical Officer in charge of the Plague Camp will allow due consideration to those passengers from India who are in possession of certificates signed by a British Officer, a first class Magistrate or a commissioned Medical Officer, that they have not visited a plague-infected place within the previous ten days. Such passengers, when travelling third class, will usually be disinfected.

No. 108Marine.—Under the provisions of section 10, sub-section (1) of the Indian Petroleum Act, 1899, the Lieutenant-Governor is pleased to appoint the Civil Surgeon of Chittagong to be the officer for testing samples of petroleum landed within the Port of Chittagong in accordance with rules made under section 9 of the Act.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

The 1st September 1903.

No. 111 Marine.—Notification.—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899, and in supersession of the rules sanctioned under this Government Notification No. 62Marine, dated the 21st May 1895, which was published at page 504, Part I, of the *Calcutta Gazette* of the 22nd idem, the Lieutenant-Governor is pleased, with the previous sanction of the Governor-General in Council, to make the following rules for regulating the grant of licenses to possess and transport petroleum in the Lower Provinces of Bengal.

W. A. INGLIS,
Offg. Secy. to the Govt. of Bengal.

Preliminary.

1. The following rules shall extend to all the territories for the time being administered by the Lieutenant-Governor.

2. In these rules, including the forms annexed thereto,—

(I) "the town of Calcutta" means all places within the local limits of the original civil jurisdiction of the High Court of Judicature at Fort William in Bengal:

(II) "the Municipality of Calcutta" means the municipal limits of Calcutta as defined in the Calcutta Municipal Act, 1899:

(III) the expression "suburbs of Calcutta" means the local area for the time being excluded from the general police district of Bengal by notification under section I of the Calcutta Suburban Police Act, 1866: and

(IV) "petroleum in bulk" means petroleum in any vessel or receptacle having a capacity of 300 gallons and upwards.

Possession of Petroleum.

3. Licenses for the possession of Petroleum within the town of Calcutta shall be granted only when (1) the quantity of petroleum to be kept in one place does not exceed 50,000 gallons, and (2) the place intended to be used for the keeping of the petroleum fulfils the following conditions, namely: (*a*) if the quantity of petroleum to be kept in the place does not exceed 5,000 gallons the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than two feet above the level of the road or street, or the floor shall be sunk at least two feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire; (*b*) if the quantity of petroleum to be kept in the place exceeds 5,000 gallons the building itself shall be constructed of masonry with a terraced or iron roof, and the doorways and other openings of the building shall be built up to a height of not less than three feet above the level of the road or street, or the floor shall be sunk at least three feet below the level of the road or street, so that the petroleum cannot flow out of the place in case of fire, and there shall be a clear open space of at least twenty feet round the building.

4. Licenses for the possession of petroleum *in places* outside the town of Calcutta and which are not situated within any municipal limits shall, if the quantity of petroleum to be kept in the place does not exceed 50,000 gallons, be granted on the same terms as those granted in the town of Calcutta for the possession in one place of not more than 5,000 gallons. If a license for the possession in one place of a larger quantity than 50,000 gallons be required, the license shall be granted on the same conditions as those granted in the town of Calcutta for the possession in one place of petroleum exceeding in quantity 5,000 gallons: provided that, if the place in which the petroleum is to be kept is situated within one hundred yards of the river Hooghly or Tolly's Nala or the Circular Canal, the building shall further be surrounded by a wall or earthen embankment not less than four feet high, with a trench close to, and completely surrounding, the building, of sufficient capacity to hold all the petroleum stored, and to prevent its escape beyond the limits of the trench in case of fire.

5. Licenses for the possession of petroleum are not required in places situated within municipal limits other than Calcutta.

6. Notwithstanding anything in rules 3 and 4 and subject to such conditions as may be prescribed in each case, a license may be granted for the possession of any stated quantity of petroleum in a place specially prepared for the storage of petroleum in bulk in accordance with plans and specifications approved by the Local Government. The capacity in gallons shall be conspicuously marked on every storage-tank or other receptacle in such place.

7. The District Magistrate, or in the town and suburbs of Calcutta, the Commissioner of Police, or any Police Officer of, or above the rank of head-constable appointed by the District Magistrate or the Commissioner of Police, as the case may be, in writing for this purpose, may enter any place in respect of which a license for the possession of petroleum has been granted, for the purpose of inspecting the same at any time after sunrise and before sunset.

8 The District Magistrate, Commissioner of Police or any Police Officer as aforesaid may require a sample to be delivered to him from any tank or other receptacle containing petroleum stored in any licensed premises. The procedure prescribed in sections 12 and 13 of the Act shall apply to any demand for samples made under this rule, and to the testing of such samples.

9. The following fees shall be charged for licenses for the possession of petroleum in places situated within the Municipality of Calcutta :—

Licenses for the possession of dangerous petroleum :—

	Rs.
When the quantity to be stored exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons	5
When the quantity to be stored does not exceed 40 gallons (section 6)	

Licenses for the possession of other petroleum :—

	Rs.	
When the quantity to be stored exceeds 500 but does not exceed 1,000 gallons ...	12	
When the quantity to be stored exceeds 1,000 gallons but does not exceed 5,000 gallons ...	2	extra for each 1,000 gallons or part of 1,000 gallons in excess of 1,000 gallons.
When the quantity to be stored exceeds 5,000 gallons	4	for every (additional) 1,000 gallons or part of 1,000 gallons in excess of 5,000 gallons.

10. The fees for licenses for the possession of petroleum in places situated beyond the limits of the Municipality of Calcutta shall be half those prescribed in rule 9.

11. Every license for the possession of petroleum in any place shall specify the maximum quantity of petroleum which may be stored in that place.

12. Licenses for the possession of petroleum shall be in force for one year from the date of the grant of the license: provided that the Licensing Officer or the Local Government may, at any time, for good and sufficient reason, cancel a license.

13. Any premises belonging to the Commissioners of the Port of Calcutta and appertaining to the Budge-Budge Petroleum Depôt, and any premises used by the Commissioners for the temporary storage of petroleum brought into the Port of Calcutta, shall be deemed to be places in respect to which licenses for the possession of petroleum have been granted under these rules.

14. Any tank or other receptacle for the storage of petroleum in bulk that may be erected on the land belonging to the Commissioners of the Port of Calcutta, and appertaining to the Budge-Budge Petroleum Depôt, shall be deemed to be a place in respect of which a license for the possession of petroleum has been granted under rule 6.

Transport of Petroleum.

15. (1) Licenses for the transport of petroleum other than dangerous petroleum in quantities exceeding 500 gallons may be either general or special. Licenses for the transport of dangerous petroleum shall be special only. The transport of dangerous petroleum in bulk is absolutely prohibited.

(2) Licenses for the transport of petroleum, other than in bulk, shall only be granted if the petroleum to be transported is packed in air-tight tins or other vessels not easily broken or is contained in bottles securely stoppered and carefully packed so as to avoid risk of breakage or in air-tight tank carts of a pattern approved by an officer appointed by the Local Government in this behalf.

(3) Licenses for the transport of petroleum, other than dangerous petroleum in bulk, by railway may be granted, if the petroleum is contained in wagons approved by the railway administration over whose [illegible] is proposed to transport it.

(4) (*a*) Licenses for the [illegible]port of petroleum other than dangerous petroleum in bulk, by steamer or barge may be granted if the vessel is certified to be fit for the service by an officer appointed by the Local Government in this behalf.

(*b*) The vessel, if a steamer, must possess a certificate of survey granted under the provisions of the Inland Steam-vessels Act, 1884.

(*c*) The vessel, if a barge, should be towed by a steamer.

(*d*) Vessels carrying petroleum in bulk shall not be allowed to carry other inflammable cargo at the same time, such as jute, cotton, straw, etc., nor passengers; and such vessels shall not be allowed to load any cargo after having discharged the petroleum, until the oil compartments have been thoroughly cleaned and certified by an officer of the Government to be quite free from petroleum.

(*e*) A steamer towing a barge carrying petroleum in bulk shall not be allowed to carry any such inflammable cargo, nor shall such steamer be allowed to have in tow at the same time any other vessel carrying such inflammable cargo.

(*f*) No naked lights shall be allowed on board any vessel carrying petroleum in bulk.

16. General licenses for a period of twelve months shall be issued for transport by cart only. Such licenses shall authorise the holders to transport by cart any petroleum, being their own property, without restriction as to destination or quantity.

17. The holder of a general license shall, with each consignment of petroleum conveyed under cover of this license, issue a pass in Form G appended to these rules, specifying the places from and to which the petroleum is to be conveyed and the quantity of petroleum covered by it. Each pass shall be numbered, and the number of the general license under cover of which the petroleum is transported shall be legibly marked on a conspicuous part of the last case on the cart. The person or persons in charge of the carts shall not permit them to be moved after sunset or before sunrise, or to carry any light, and shall not permit any smoking thereon.

18. Special licenses for the transport of petroleum shall be in force for such period not exceeding six months from the date of the grant of the license as may be specified in the license.

19. The Licensing Officer may, for special reasons to be reported to Government, refuse a license in any case. The reasons for refusing a license shall be communicated to the applicant, if a request to that effect is preferred by him.

20. (1) Every special license for the transport of petroleum shall specify the places from and to which, respectively, the petroleum is to be conveyed, the quantity of petroleum covered by the license, and the time for which the license is in force.

(2) Petroleum transported to Calcutta or Howrah under a license shall be conveyed by land and not by water between Garden House and Cossipore.

Explanation.—This sub-rule shall not apply to the conveyance of petroleum which is brought under a license from beyond the limits of Calcutta or Howrah, and is not intended to be landed within those limits.

21. Applications for special licenses for the transport of petroleum by rail, by cart, by boat, or by steamer, or by two or more of these modes of conveyance, shall specify the description and quality of petroleum to be transported, and the places from and to which, respectively, the petroleum is to be conveyed, and shall describe the receptacles in which it is to be contained, or, in the case of petroleum to be transported in bulk, shall state that the wagon or vessel in which it is to be carried has been approved or certified, as the case may be, as required by sub-rules (3) and (4) of rule 15. In the case of applications for licenses for the transport of dangerous petroleum under section 5 of the Act, the application shall also contain the particulars required by sub-section (2) of that section.

22. When a license has been granted under these rules for the transport of petroleum, the District Magistrate, or, in the town and suburbs of Calcutta, the Commissioner of Police, or any Police Officer of, or above, the rank of head-constable, appointed by the District Magistrate or the Commissioner of Police, as the case may be, in writing for this purpose, may, at any time after sunrise, and before sunset, and on or before the arrival of the petroleum at its place of destination, board any steamer or boat, or detain any cart, used for such transport, for the purpose of inspecting the license and seeing whether its provisions are being complied with.

23. The following fees shall be charged for licenses for the transport of petroleum under the Act:—

Licenses for the transport of dangerous petroleum:—

	Rs.
When the quantity to be transported exceeds 40 gallons (section 5), for every 40 gallons or fraction of 40 gallons	4
When the quantity to be transported exceeds 3 gallons, but does not exceed 40 gallons (section 6)	2

Special license for the transport of other petroleum:—

When the quantity to be transported exceeds 500, but does not exceed 5,000 gallons	1
For every additional 5,000 gallons or part of 5,000 gallons ...	1
General license for the transport of petroleum by cart for twelve months	100

General.

24. Licenses for the possession or transport of dangerous petroleum in quantities exceeding 40 gallons, and licenses for the possession of petroleum in bulk, will be granted, subject to the provisions of section 5 of the Act in the case of dangerous petroleum, under the signature of an Under-Secretary to the Government of Bengal, on the recommendation of the Commissioner of Police, if the application for the license is made in the town and suburbs of Calcutta, or of the Commissioner of the Division, if the application is made elsewhere.

Application for such licenses should be made through the Commissioner of Police, Calcutta, or the Commissioner of the Division, as the case may be.

25. Licenses for the possession or transport of dangerous petroleum in quantities not exceeding 40 gallons, and licenses for the possession or transport of other petroleum, except

the possession of petroleum in bulk, will be granted in the town and suburbs of Calcutta by the Commissioner of Police, or Deputy Commissioner of Police, at Budge-Budge, by the Superintendent of the Petroleum Wharf, and elsewhere by the District Magistrate, or by such other officer as the Local Government may, by order in writing, appoint in this behalf.

26. Subject to the restrictions contained in section 5 of the Act and rules 3 and 4, the Licensing Officer may, in his discretion, grant a license for the possession or transport of such quantity of petroleum as he thinks fit.

27. Licenses granted under these rules shall be in the forms and shall have endorsed on them the rules and conditions respectively prescribed for them in the schedule hereto annexed. Every such license shall, on the breach of any such condition, be liable to be forfeited.

28. Every application for the renewal of a license shall be made in the same manner as an application for an original license. Every such application shall be made at a date not less than fifteen days before the date on which the original license expires. The same fee shall be charged for the renewal of a license as for a new license.

The person or persons in charge of the carts shall not permit them to be moved after sunset or before sunrise, or to carry any light.

The 27th August 1903.

No. 109 Marine.—In exercise of the powers conferred upon him by section 6 of the Indian Ports Act, 1889, the Lieutenant-Governor is pleased to make the following rules for the control of vessels entering the Port of Calcutta with petroleum in bulk:—

1. No fire or lights (except the galley and engine-room fires and the electric light) shall be allowed on board any bulk oil steamer within Port limits until the vessel has been cleansed inside from oil and vapour of oil.

This rule shall also apply to all vessels or boats lying alongside any vessel discharging oil.

2. When the hatches are open or oil is being discharged, no smoking shall be allowed on board .

3. When the oil has been discharged, the vessel shall be transported, immediately the tide permits, to a fixed mooring on the side of the river opposite to the oil depôt for the purpose of cleansing.

This rule does not apply to vessels which do not proceed above Budge-Budge, but leave the Port in ballast without cleaning.

4. A bulk oil steamer shall not be taken amongst other shipping or into wet or dry docks unless the Conservator of the Port is satisfied that she is in a safe condition to be so placed.

5. No vessel having bulk oil on board shall proceed above Diamond Harbour until the pumping berth or other suitable double mooring at Budge-Budge is ready to receive her.

Office Memo. of the Inspector of Schools, Bhagalpur Division.

UNIVERSITY ENTRANCE EXAMINATION, 1904.

TEST-EXAMINATION OF PRIVATE STUDENTS.

1. A student who does not appear from any school, or who has been transferred since the 1st September next preceding the examination, without the consent of the Inspector, to the school from which he appears, will be treated as a private student.

2. All private students are required to appear at the test-examination of a zilla school. No private student will be admitted to the test-examination unless accompanied, for the purpose of identification, by some person known to the Head Master.

3. The first day of the test-examination in all zilla schools in the Bhagalpur Division will be the 14th December 1903.

4. Each private student will have to pay a fee of Rs. 2 for permission to appear at the test-examination to the Head of the institution at which he appears. The balance of fees, after payment of expenses (stationery, &c.), will go as remuneration to the examiners.

5. Candidates for the test-examination should apply to this office not later than the 9th November 1903. They should forward the certificates granted to them under the transfer rules by the Head Master of the school in which they last read. In the case of a candidate who had failed at a previous Entrance examination and did not join a school afterwards, the Registrar's receipt, in original, will be accepted in lieu of the transfer certificate.

6. A student who had failed to pass the annual examination for promotion to the first class at the end of session 1902-1903 and then left the school cannot under any circumstances be allowed to appear at the Entrance examination that will be held on the 7th March 1904 and following days.

7. Each candidate should submit with his application a statement showing—

(1) Age.
(2) Residence.
(3) Father's name.
(4) Second language, besides English.
(5) Whether he appeared at any previous Entrance examination.

8. *Bond-fide* teachers employed in any of the recognised schools in the Bhagalpur Division may be admitted to the test-examination on payment of the prescribed fee, provided they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

9. The forms of application for permission to appear at the Entrance examination will be signed by the Head Master of the zilla school at which the candidates have undergone the test, and will be forwarded by him to the Inspector for countersignature.

10. Applications and fees for admission to the Entrance examination must be forwarded to the Registrar of the Calcutta University by the private candidates themselves, so as to reach his office on or before the 25th January 1904.

F.A. AND B.A. EXAMINATIONS, 1904.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools, and *bond fide* teachers of recognised English schools in the Bhagalpur Division of two years' standing, *i.e.*, who have served as such for full two academical sessions, or for six months in the case of those who were admitted to a former examination of the same class, will be admitted to the above examinations. These latter must have served for six months prior to the submission of their applications to the Inspector for countersignature. School-masters should produce certificates of character and length of service (with dates) from the Managers of the schools in which they are employed. Their applications must reach this office not later than the 4th January 1904

2. Candidates for the B.A. examination must forward with the applications their F.A. certificates, and those for the F.A. examination their Entrance certificates.

3. Candidates should read carefully the certificate which this office will have to sign, and must be careful to supply all information and documents required, without which the Inspector must decline to sign it.

4. The F A. and B.A. examinations in 1904 will be held on the 21st March 1904 and following days.

5. Applications and fees for admission to the above examinations must be forwarded to the Registrar, Calcutta University, by the candidates themselves so as to reach his office on or before the 6th February 1904.

Letter to the Commissioner of the Presidency Division, No. 1765T.—M., dated the 16th September 1902.

So far back as February 1895 the Sanitary Commissioner, Bengal, after inspecting the town of Santipur, brought to notice the unsatisfactory nature of the conservancy arrangements of the municipality. He found that almost the whole of the night-soil of the inhabitents was received into well-privies, of which there were about 4,000 in the town, and that the contents of the well-privies, which at the time of his inspection were in most cases from one half to three-fourths filled with sewage, had in them the germs of many diseases which were liable to pass from them through the pores of the soil into the neighbouring sources of the supply of drinking water. This report disclosed a very serious state of things, but at the same time it was reported by the Sanitary Commissioner that the Municipal Commissioners had resolved in March 1894 that "no new privies should be allowed to be dug, and that all old ones should be filled up gradually," and also that the Commissioners had reserved Rs. 1,000 for erecting, in the most crowded parts of the town, some public latrines, of which there were none at the time.

2. Little or no effect appears to have been given to this resolution, but in April 1898 the Commissioners resolved at a special meeting to apply to Government to extend to the town of Santipur the provisions of Part IX of the Bengal Municipal Act, 1884, giving powers for the cleansing of private privies and cess pools. Upon this the usual preliminary notification declaring the intention of Government to enforce Part IX in the municipality was published locally and in the *Calcutta Gazette*. Objections were raised to the measure by a number of rate-payers of the town, and although, in the opinion of the District Magistrate and of the Commissioner of the Division, the objections were groundless, the Commissioners were so far influenced by them that they rescinded their original recommendation for the enforcement of Part IX, and the proposal had, therefore, to be abandoned. In communicating orders, however, Government requested the Commissioner of the Division in Mr. Risley's letter No. 4832M., dated the 8th August 1898, to impress upon the Municipal Commissioners how greatly a town like Santipur, containing 30,137 inhabitants, stood in need of the systematic conservancy which Part IX of the Act is intended to provide, and he was also desired to induce the Commissioners to reconsider their decision so far as the older and more crowded portions of the town were concerned.

3. In August 1899 the Commissioner reported that although the necessity for the introduction of Part IX had been clearly impressed on them by their official Chairman, the Municipal Commissioners had, on a formal reconsideration of the matter in the previous month, resolved to adhere to their former resolution in favour of inaction. Thereupon, under instructions from Government, the town was inspected by the Deputy Sanitary Commissioner, Metropolitan and Eastern Bengal Circle, who considered the arguments offered against the measure to be untenable, and strongly advocated the introduction of Part IX of the Municipal Act. He was distinctly of opinion that the well-privies contaminated the adjoining wells in private compounds which formed the main source of the water-supply of the areas situated at a distance from the river. Although, regarded from a purely hygienic point of view, there was no doubt as to the desirability of the measure, the Sanitary Commissioner so far

modified the recommendation of his subordinate as to suggest that the provisions of Part IX should be brought into force only in the three more populous centres of the municipality which are interspersed by areas of a more or less rural character When the matter was laid before the Lieutenant-Governor he noticed that the health of the town was actually less affected at the time than might have been anticipated from the sanitary defects disclosed in the report, since the rate of mortality at Santipur had been below the Provincial average during each of the three previous years. His Honour was therefore unwilling to exercise the summary powers conferred on him by the Epidemic Diseases Act to enforce the closing of the well-privies throughout the town, but nevertheless the Municipal Commissioners were invited in Government order No. 309M., dated the 20th January 1900, to the address of the Commissioner of the Division, to keep this object in view, and to take measures for the gradual introduction of proper latrines. The attention of the Commissioners was also drawn to the necessity of closing unwholesome wells under section 200 of the Act, and of providing pure sources of water-supply, and the Commissioner of the Division was at the same time asked to enforce proper action by exercising his powers of control over the budget estimates of the municipality under section 76 of the Act.

4. The floods of September 1900 were followed by an outbreak of cholera in Santipur, and immediately afterwards the Deputy Sanitary Commissioner again inspected the town. He found that the low-lying portion of the municipality, which was under water, and where the well water was consequently contaminated by admixture with the sewage from the well-privies, had suffered most from the epidemic, which carried off sixty-one persons in three weeks. The Deputy Sanitary Commissioner observed that "this mixing of sewage and drinking water is but an open example of what is secretly, but none the less surely, going on under the ground all the year round." His report disclosed the fact that no new public latrines had been constructed by the Commissioners during the previous year, and both the Deputy Sanitary Commissioner and the Sanitary Commissioner again recommended the extension of Part IX to the municipality. The Commissioner of the Division visited the town towards the beginning of 1901; he also found it in a very insanitary condition, and reported to Government in April 1901 that he had pointed out to the Commissioners that they had received warnings in the shape of a serious epidemic of cholera and in the outbreak of some cases of plague, and that they would incur very grave responsibility if they persisted any longer in refusing to introduce Part IX of the Bengal Municipal Act, and failed to adopt the other sanitary measures recommended by the Deputy Sanitary Commissioner.

5. In December 1901 the Deputy Sanitary Commissioner was again deputed to inspect the municipality and to pronounce on the quality of the water of the wells in the town. After doing so he again urged the necessity for closing the well-privies, and submitted for chemical and bacteriological examination twelve samples of water obtained from different wells in proximity to well-privies. The chemical examination showed that out of the twelve samples only one was "usable" and one "usable after boiling;" the rest being all "impure" or "suspicious." The bacteriological examination also proved the presence of *bacillus coli communis* in such small quantities of water as half-a-cubic centimeter, which served to prove recent fœcal contamination of a gross nature in nine out of the twelve samples. The remaining three samples were examined a few days after receipt, and the result of the examination was not, therefore, conclusive. The Commissioner of the Division was thereupon asked in Government order No. 1765T.—M, dated 16th September 1902, to move the Commissioners to take early steps to close the well-privies and to enforce Part IX in the town under their charge.

6. The Commissioner has now reported that, disregarding repeated warnings given by himself and the Magistrate of the district, by the Sanitary experts of Government, and by Government itself, and ignoring the serious increase of mortality in the town, as evidenced by the figures quoted in the margin, the Municipal Commissioners have again resolved, at their meeting held on 11th May 1903, that Part IX cannot be enforced in the

municipality. The Commissioners have also failed to enforce the provisions of section 200 of the Act in respect of the wells the water from which has been condemned and is injurious to health, and have contented themselves with resolving that these wells should be disinfected once every three months by permanganate of potash. Taxation is low in the municipality, and although the want of funds which impedes necessary improvements is remediable, the Commissioners have failed to secure a proper assessment of the holdings of the town. The local officers of Government are satisfied that no amount of persuasion will bring about even the smallest measure of improvement, and that it is only under the operation of the powers of control vested in Government by the Bengal Municipal Act that the most elementary rules of sanitation can be enforced at Santipur.

ORDER.

7. After giving the subject his careful and anxious consideration, the Lieutenant-Governor has come to the conclusion that a serious evil exists at Santipur, for which the law prescribes a remedy: he finds that the Municipal Commissioners have persistently made default in the performance of their duties and have also proved themselves incompetent, in that, having the power to impose additional taxation and to carry out the improvements urgently needed for the health and sanitation of the town, they have deliberately failed to exercise it, and although repeatedly and earnestly advised by the authorities best able to estimate their requirements, they have persistently refused to carry out the requisite reforms.

8. They have been treated for years with great patience and consideration, but their conduct has now become a public scandal, and Government must take action. In these circumstances, the Lieutenant-Governor is constrained to declare by this Order issued under section 65 of the Bengal Municipal Act, 1884, as amended up to 1st November 1896, that the Commissioners of the Santipur Municipality are incompetent to perform and persistently make default in the performance of their duties, and he directs that they be superseded for the period of one year with effect from the date of the publication of this Resolution in the *Calcutta Gazette*. In exercise of the powers conferred by section 66 of the Act, the Lieutenant-Governor further directs that all the powers and duties of the Commissioners shall, during the period of supersession, be exercised and performed by the Subdivisional Officer of Ranaghat for the time being.

9. The Lieutenant-Governor orders also that this Resolution be published in the *Calcutta Gazette*.

APPENDIX XXX.

[See Chapter III, Rule 9.]

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plot of land, no longer required by Government, situated along the Barun-Daltonganj Railway, in the district of Gaya, will be put up to sale at 12 o'clock on Friday, the 18th September 1903, corresponding with the 12th Asin 1311 Fusli, at the Gaya Collector's Court.

The purchasers of the several plots of land will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing, or plough the land closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of the original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sale.

CORPORATION OF CALCUTTA.

IN exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation.

Any person having any objection to the bye-laws should submit it in writing to the Chairman of the Corporation before the 1st October 1903:—

Bye-laws, section 559 (18), prohibiting or regulating the placing of obstructions, projections, or encroachments or the depositing of materials or goods, in a public street, or in or over any drain or aqueduct in a public street or on any land vested in the Corporation.

1. When any person has, whether before or after the passing of these bye-laws, placed or allowed to be placed any wall, fence, rail, post, platform, plank, culvert or other masonry or brick-work erection (not being a fixture attached to a building within the meaning of section 341 of the Act) or any structure, in such a position as to cause a projection, encroachment, or obstruction over or on any public street or over or in any drain or aqueduct in a public street or over or on any land vested in the Corporation, the Chairman may, by written notice, require the owner of, or the person who has erected such wall, fence, rail, post, platform, plank, culvert, erection or structure to remove the same, and any person who fails to comply with the terms of such notice shall be liable to a daily fine which may extend to Rs. 10 per diem for every day after the date of service during which he shall continue to fail to comply with the same.

2. No person shall place or leave any earth, rubbish, furniture, wares, merchandise, bale, bag, lamp, cask, tub, basket, pail, bucket, grain, timber (in the form of logs or scantling), scrap metal, goods or building materials, or place or use any standing place, stool, bench, stall, or show-board in any public street or in any drain or aqueduct in a public street or on any land vested in the Corporation, or shall place any blind, shade, covering, awning or other projection over or along any such public street, drain, aqueduct, or land vested in the Corporation without or otherwise than in conformity with the terms of a license granted by the Chairman in this behalf.

3. No person shall place, hang up, or otherwise expose for sale any goods, wares, merchandise, fruit, vegetables, matter or other article whatsoever, so as to cause a projection into or over any public street, drain or aqueduct in a public street or land vested in the Corporation, or so as to obstruct or incommode the passage of any person over or along a public street without or otherwise than in conformity with the terms of a license granted by the Chairman in this behalf.

4. No person shall place any line, cord, wire, pole or plank across any public street or hang or place anything thereon or erect any archway or gate over or upon any public street, drain or aqueduct in a public street or land vested in the Corporation without or otherwise than in conformity with the terms of a license granted by the Chairman in this behalf.

5. Any person who causes any obstruction, projection or encroachment in a public street in the manner indicated in bye-laws 2, 3 and 4 hereof shall cause the same to be lighted during the night to the satisfaction of the District Engineer, and shall take such precautions as the District Engineer shall deem fit for guarding against accident.

The Chairman may, by written notice, require any such person to provide such lights and to take such precautions as may be specified in the notice, and every person who fails to comply with such notice shall be liable to a daily fine which may extend to Rs. 10 per diem for every day after the date of the service of the notice during which he shall continue to fail to comply with the same.

6. No barber shall ply his trade in or upon any "public street" in such a manner as to obstruct or incommode the passage of any person over or along the same.

7. No person shall shoe or allow to be shod any horse, pony, donkey, mule, bullock, buffalo or other four-footed animal in or upon any "public street."

8. No person shall wash any carriage, cart, utensils, clothes or animal in or upon any public street.

9. No person shall tether or allow to be tethered or allow to stray any horse, pony, donkey, mule, bullock, bull, cow, calf, goat, sheep, buffalo or other similar animal in or upon any public street.

10. No person shall leave a carriage or cart standing in a public street unattended.

11. No person shall bathe or wash himself in a public street.

12. Any person who shall commit a breach of bye-laws 2, 3, 4, 6, 7, 8, 9, 10 and 11 hereof shall be liable to a fine which may extend to Rs. 20, and, in the case of continuing breach, to a fine which may extend to Rs. 10, for every day during which the breach continues after conviction for the first breach.

SCHEDULE A

The following fees shall be payable for licenses issued under Bye-laws 2, 3 and 4 hereof, and shall be payable in advance:—

1. Earth, rubbish, furniture, goods, wares, merchandises, bales, grain, timber, scrap iron, fruit, vegetables, building materials, standing place, stall, show-board, or any similar thing.	One anna a month per superficial foot of the area occupied. In cases where the area occupied is greater than the area provided for in the license, the excess area shall be paid for at the rate of 10 annas a month per superficial foot. A fraction of a month shall be treated as an entire month.

2. Blind, shade, covering, awning or similar contrivance.	Two annas a month for every square foot. A fraction of a month shall be treated as an entire month. In cases where the contrivance used is larger than that provided for in the license, the excess portion shall be paid for at the rate of 10 annas a month for every square foot.
3. Bale, bag, lamp, cask, tub, basket, pail, bucket, stool or bench or similar article.	Two annas a month for each separate article. A fraction of a month shall be treated as an entire month.
4. Line, cord, wire, pole or plank or similar article.	Ditto ditto.
5. Archway, gate, or similar contrivance.	Rupees 5 per diem for every archway, gate, or similar contrivance.

CORPORATION OF CALCUTTA.

IN exercise of the powers conferred by section 565 of the Calcutta Municipal Act, 1899, it is hereby declared that the General Committee of the Corporation of Calcutta intend to submit the following draft bye-laws for the consideration of the Corporation.

Any person having any objection to the bye laws should submit it in writing to the Chairman of the Corporation before the 1st October 1903.

Bye-laws under Section 559 (34) for regulating the use of Municipal Slaughter-houses.

1 Butchers and others shall have access to a slaughter-house only for the purpose of slaughtering animals intended for human food and for the resulting purposes of skinning, cutting up and cleaning carcasses of animals slaughtered therein and on the conditions hereunder specified.

2. A person desirous of having the right to slaughter animals in a slaughter-house shall apply to the Chairman for a license. No person shall without or otherwise than in conformity with the terms of a license granted by the Chairman in that behalf have the

right to slaughter animals in a slaughter-house. The granting of a license shall be discretionary.

3. The license granted by the Chairman shall have effect and continue in force from the commencement to the end of the financial year on account of which it is granted, and shall state the name of the person to whom, and the slaughter-house in respect of which, it is granted and the place or portion of such slaughter-house assigned to the licensee, and shall state that it is granted subject to the terms of section 492 of the Act. There shall be paid for each license a fee of Rs. 5.

4. A licensee shall apply to the Superintendent for a ticket for each person who is to act on his behalf or as his assistant in slaughtering animals. The ticket shall specify the name of the person in respect of whom it is issued and the place in or portion of the slaughter-house assigned to the licensee. The ticket shall be issued free of charge, and shall remain in force for the same period as the license granted to the licensee.

5. No license or ticket shall be transferable.

6. No place in or portion of a slaughter-house other than that assigned to the licensee and specified in the license shall be used by either the licensee or any assistant holding a ticket for slaughtering animals.

7. A licensee or ticket-holder shall produce his license or ticket, as the case may be, whenever he shall be required so to do by any Commissioner or by the Superintendent or other Municipal officer.

8. Animals shall be slaughtered in a slaughter-house only on such days and during such hours as shall from time to time be fixed by the Chairman by regulation made in accordance with section 488 of the Act. A notice signed by the Superintendent and countersigned by the Health Officer shall be affixed in a conspicuous place in the slaughter-house naming such days and hours.

9. None but licensees, ticket-holders, Municipal Commissioners and Municipal Officers shall have access to a slaughter-house during the hours fixed for slaughtering animals and during the process of skinning, cutting up, cleaning and stamping the carcasses.

10. Every animal brought to a slaughter-house shall be placed at such place within the premises as the Superintendent shall direct, and shall be secured in such manner as shall effectually prevent it from breaking loose or causing injury to other animals and in such a manner as to avoid causing unnecessary suffering to the animal itself.

11. No animal other than an animal which is dying from injury sustained in an accident and which is brought to the slaughter-house immediately after the accident and which shall be killed at once, shall be slaughtered until after the lapse of 24 hours from the time it is brought to the slaughter-house, and during the period an animal is confined in a slaughter-house the Superintendent shall see that it is provided during such confinement with a proper supply of wholesome water.

12. All animals brought to a slaughter-house shall be carefully examined by the Superintendent, and no animal shall be slaughtered there until it has been so examined and pronounced by the Superintendent to be free from disease.

13. No person shall bring a diseased, *dying* or dead animal to a slaughter-house.

This bye-law shall not apply in the case of an otherwise healthy animal which is *dying* from injury sustained in an accident and which is brought to the slaughter-house immediately after the accident.

14. No animal which upon examination is found to the diseased or shows symptoms of or is suspected of being diseased shall be slaughtered at a slaughter-house.

15. A special pen shall be attached to every slaughter-house premises for the segregation of animals which are found to show symptoms of or are suspected of being diseased, and every animal which upon examination is found to show symptoms of or be suspected of being diseased shall be at once removed to such special pen, and there kept under observation for such period as may be necessary to ascertain whether it is diseased or not The cost of the maintenance of any animal kept in the special pen shall be paid *by the person bringing the animal* to the slaughter-house.

16. Every animal which shall be found to be suffering from an infectious or contagious disease shall forthwith be seized by the Superintendent and removed to the Municipal Knackery, or such other place as the Chairman may from time to time appoint, to be there destroyed and disposed of in such manner as to prevent any portion of the carcass being used as human food. A report of every such case shall be made to the Chairman forthwith.

17. A dying or dead animal brought to a slaughter-house shall be treated as an animal suffering from an infectious or contagious disease, provided that an animal which is dying as the result of accident and is brought to a slaughter-house immediately after the accident, may, if upon examination it be found to be free from any disease, be allowed to be slaughtered for human food.

18. No animal that is, or is suspected to be, with young shall be slaughtered at a slaughter-house.

19. The carcass of every animal which has been slaughtered in a slaughter-house shall be immediately skinned and cleaned by the person who slaughtered it, and shall after it has been skinned be carefully examined by the Superintendent to ascertain if it is free from disease. The skin shall likewise be carefully examined by the Superintendent to ascertain if it is free from disease.

20. Every carcass which upon examination is found to be diseased shall be seized by the Superintendent and with the consent of the owner, or the person who

brought the animal to the slaughter-house, be forthwith destroyed in such manner as to prevent its being used for human food, or if in any case such consent be not obtained, then, if the carcass is, in the opinion of the Chairman, the Health Officer or District Health Officer, diseased, it may be destroyed as aforesaid. The expenses incurred in destroying such animal shall be paid by the person in whose possession it was at the time of its seizure.

In any case when either the skin or carcass shall show symptoms of a contagious disease the skin shall be destroyed by the Superintendent; in all other cases the skins shall remain the property of the owner. In the event of any dispute between the Superintendent and the owner of a carcass or skin as to whether a carcass or skin is deseasad or not, the matter shall be referred to the Health Officer whose decision shall be final.

21. All meat and offal which upon examination are found to be diseased or are unfit for human food shall be seized and dealt with in the same manner as a diseased carcass.

22. Immediately after examination, every skinned carcass, which is found to be free from disease and fit for human food, shall be stamped over the body by the Superintendent, before the carcass is quartered or cut up. Such stamping shall be done with such stamp and dye, as may be from time to time prescribed by the Health Officer, with the Chairman's approval.
